WHALES DO NOT SPOUT WATER THROUGH THEIR NOSTRILS, AND ARE NOT FISH!

AND WE CAN PROVE IT.

Whales do NOT spout water through their nostrils, and are NOT fish! (Whales are mammals. The apparent spouting of is the condensation of the moisture in the air expelled from the whale's lungs when it hits the cooler atmosphere. It gives the appearance of a stream of water.—The World Encyclopedia, Vol. 18, p. 7727.)

Children's Feet

N. TULCH

Foot Comfort Specialist at—

PEOPLE'S SHOE STORE

814-816 Madison, Covington

Ninety-nine out of a hundred babies are born with good feet, even if they do appear to be flat at the start. We say babies are born with flat feet because the bony masses in a new born baby's feet are held in place by fat pads. As the baby starts to stand and walk, these fatty pads are absorbed and muscles take their place. But about the third year the arch of the foot should be pretty well defined if the child is going to have an arch. We say if, because everyone is not meant to have the same color of hair or eyes.

Perhaps when the child starts to stand he is overweight, or undernourished or has gone through a serious illness. In that event the muscles may not develop enough to produce an arch in the foot. He then grows with a natural flat foot. The condition is rarely painful. However, many cases of flat feet can be averted if the child is provided with shoes that hold the weak foot in alignment. Such shoes are usually wedged slightly under the inner border of the heel bone. This prevents tipping in of the ankles and by over correction has a tendency to cause the muscles on the inner border of the leg to shorten. These muscles are the ones which keep the foot arched.—Adv.

60-Day Quarantine Ordered Tuesday

FOR ALL DOGS THROUGHOUT ENTIRE COUNTY.— SHERIFF AND JUDGE URGE COOPERATION FOR PUBLIC SAFETY.

County Judge C. L. Cropper and Sheriff R. I. Rouse issued a strict quarantine Tuesday on all dogs in Boone County for a period of 60 days following several cases where stray dogs have been proven to have rabies.

The last and worst case was the stray dog which was finally killed near the Northcutt farm on Burlington-Florence pike last week. This stray beagle hound had roamed the entire county and was known to have bitten more than twelve other dogs and probably some livestock. After being killed, its head was sent to Lexington for examination and was reported positive for rabies.

The 60-day quarantine means that all dogs must be tied or kept in pens for this period and if they are found roaming streets or running loose, they will be killed without further notice.

Persons are also being warned against dumping dogs and cats in small towns, as this is against the law, and especially during this quarantine. Anyone found guilty of this act will be prosecuted to the full extent of the law.

There have been at least six dogs killed recently that have proven positive for rabies, and several communities have had quarantines on dogs, but as the disease continues to spread, a countywide quarantine for 60 days was thought to be necessary and all dogs without owners would be disposed of as soon as possible.

FARM BUREAU MEETING HELD

SEVERAL IMPORTANT BUSINESS MATTERS DISCUSSED—TALK MEET CONTEST WILL BE SPONSORED.

Directors of the Farm Bureau met on Tuesday night in Burlington for their regular monthly meeting. Several important articles of business were taken care of at this time. The County exhibit at the State Fair was discussed and a committee appointed several months ago was put into action. Livestock problems were discussed.

The directors told Miss Gillaspie and Mr. Davis to include in next year's program for 4-H work, an award of several trips to State Fair to eligible members for outstanding work, sponsored by the Boone County Farm Bureau.

After the business was disposed of, the program was turned over to the Associated Women. Plans were discussed for two contests from the State office. Rural Youth Talk Meet and the Farm Bureau Queen. The directors turned down the Queen contest, but decided to sponsor the Talk Meet as it was on a national scope. Anyone interested in this talk meet please contact the Farm Bureau or Mrs. Walter W. King. The rules will appear in next week's paper. It is desired that a good showing be made in this contest as the State winner gets a trip to Atlantic City in December.

Plans are underway for a County-wide picnic in September so watch for the date. Folks who are missing these meetings are really missing something worthwhile and are urged to attend when possible.

WOMAN KILLED IN LEAP FROM TRUCK

AFTER FIRE BREAKS OUT IN CAB OF VEHICLE—FUNERAL SERVICES HELD SUNDAY AT BURLINGTON CHURCH.

Mrs. Anna Acra, 63, was killed instantly Friday when she leaped from a truck which had caught fire near Limaburg. She resided on the farm of Mr. and Mrs. Courtney Pope of near Belleview.

Mrs. Acra and her son Elmer were driving toward Cincinnati, with a truckload of melons and garden produce when their vehicle caught fire. Flames evidently licked from beneath the seat which excited Mrs. Acra. She cried out that she was going to jump. Her son attempted to prevent her from leaping, but was too late to reach her. He struck her head on the pavement when she fell.

H. E. White, Magistrate, who was called to secene returned a verdict of accidental death, due to a crushed skull. Her chest was crushed and her neck and right clavicle were also broken.

The truck in which Mrs. Acra was riding did not have a cap for the gasoline tank, and it was believed that a wooden plug which was used for a top had jarred off, and fumes from the gas were ignited by a spark from the exhaust.

The truck burst into flames and had gained considerable headway before arrival of the Burlington Volunteer Fire Department which quickly extinguished the flames.

After stopping the truck and seeing his mother's crumpled body, Mr. Acra ran to a telephone and summoned Deputy Sheriff Wendell who called the fire department after arriving on the scene..

Mrs. Acra is survived by her husband Elijah; two sons, Elmer and Lloyd and a daughter Miss Lucille Acra, all at home.

Funeral services were conducted Sunday afternoon from the Burlington Baptist Church at 2:30 p. m. with Rev. R. A. Johnson officiating. Burial was in the Petersburg Cemetery.

Ralph Stith, Florence funeral director was in charge of arrangements.

History of Bank is Outlined by Student

By Mary Lee Williamson

Editor's Note: This is the fourth of a series of articles written about Boone County institutions and leading citizens by members of the Burlington high school journalism class.

Did you know that the Peoples Deposit Bank of Burlington is the largest country bank in the United States in a town the size of Burlington? The next time you go in stop and think. Aren't you proud you patronize it. Even though you may know the above fact, did you ever stop and think who started the bank, when, where, and why? It's not a long story but it's interesting and worthwhile.

The Peoples Deposit Bank was organized in 1905 and opened for business November 6 of that year. The chief organizer was Mr. W. T. Beemon but the first president was B. W. Adams. The bank had seventy eight stockholders in the beginning and these stockholders elected the following nine men as directors: B. W. Adams, W. P. Beemon, C. W. Riley, R. C. Duncan, Henry Clore, T. J. Walton, Owen Conner, W. L. B. Rouse and A. W. Cern. Mr. Conner died before the bank opened for business and E. R. Blankenbeker was elected to the board to fill this vacancy. The reason the bank was organized was not to make money but to fulfill the demands of the people for another bank in Burlington. Not many men go into a business without an eye on the profits but these early citizens did.

The first cashier of the bank was E. R. Renaker, who is now the president. Before taking the position he worked several months in a Dry Goods store to gain knowledge of the banking business. He received the same salary for this apprentice work. W. Beemon is the only living original director. The capitol stock was originally $50,000 but in 1919 it was increased to its present amount of $50,000.

In 1927 the Peoples Deposit Bank bought out the Boone County Bank. In the same year the bank moved from the present office of the Farmers' Mutual Fire Insurance Company to the location where the bank now stands. With this purchase the bank became the first million dollar bank in the county.

The Peoples Deposit Bank is strictly a country bank and specializes in serving farmers and farm business. Any surplus funds that customers do not need are invested in government bonds so you need not fear that your bank will not be safe.

During the depression the bank did not resort to borrowing any money as so many banks had to do. Also, no restrictions were placed upon the amount of money you could draw from your account. If another depression should come, it would not embarrass this great financial institution.

At the time this article was written the Peoples Deposit Bank had made about thirty O. I. loans amounting to approximately $175,000. So far the bank has had no difficulties but they have attempted to screen all of the loans. Many loans have been declined as the bank officials feel it would place a burden upon the borrower. Bank officials told this reporter that "credit made too easy is a disadvantage to the individual and the country."

The bank is closely supervised by state and Federal Deposit Insurance examiners. The bank is examined once a year. It takes about a week for two or three examiners to examine it.

The taxes on the bank amount to about thirty dollars per day.

The officers of the bank are: A. B. Renaker, president; W. P. Beemon, vice-president; C. L. Cropper, vice-president; G. S. Kelly, cashier; Nell H. Martin, assistant cashier; Lucille C. Stephens, assistant cashier.

The directors are A. B. Renaker, W. P. Beemon, C. L. Cropper, S. B. Nunnelley, C. F. Blankenbeker, F. L. McGlasson and Al Rogers.

Here is a condensed statement of the Peoples Deposit Bank as of December 31, 1947:

Why Suffer With Your Feet

N. TULCH
Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Our years of research have proven that foot comfort depends on foot balance.

For years men have been guessing about foot balance, putting steel supports under feet and elastic bands around feet, all sizes and shapes corn pads, plasters, callous plasters, etc. Yet people continue to suffer with their feet, legs, back and with various other aches and pains, resulting from feet in numerous cases because they never had their body weight properly balanced on their feet with shoes.

Your feet may look regular to you, but, naturally you cannot detect weakness or have any way of testing for unbalance. But remember: "fat on the ribs" is by no means an adequate criterion of physical well being.

Don't take chances. If you are suffering with leg pains, knee pains, stiffness, backaches or severe headaches, or sleep poorly and are always tired, your feet may be the cause.—Adv.

LADY STUFF

by Marsha Wheeler

(Editor's Note: Marsha Wheeler is the prominent lecturer and radio personality.)

The Stilwell Papers, presented by the General's widow, substantiate the author's name of Vinegar Joe. He pickles many of the Mr. Bigs in the acid of his sharp comments. The flavor is tart but appetizing.

Politics is much like Scouting. You learn to love all of God's creatures but you must also know their habits to survive, especially those of the rattlesnake.

When a high school teacher asked the class who should get off the bus or street car first, the boy or girl, a young girl from Cincinnati's large Children's Home family was the only one who knew the correct answer. (The boy, of course, so he can help the girl step down.)

Tee is for the fashionable new Tee shirts (for boys, girls, men, women) and also for the Teerifically smart new eyeglass frames (for boys, girls, men, women) at Queen Optical Company, 12 East Sixth Street, in Cincinnati.

While you're looking through precision ground lenses, you might as well look fashionable. Men mostly prefer dark shell frames. Women choose pastel colors or combination dark shell and gold. Summer is a good time to find out if your children need glasses, or if your lenses need correction.

CONSERVATION PROGRAM SET

CARAVAN WILL BE AT FARM OF LASSING HUEY, NEAR UNION SEPTEMBER 22, FOR ONE-DAY DEMONSTRATION.

Preservation of Kentucky's soil resources will be the keynote of a one-day soil conservation demonstration to be held on the farm of Lassing Huey, near Union in Boone County, September 22, according to C. Liston Hempfling, Chairman, Boone Soil Conservation District Board of Supervisors.

This is to be one of 12 similar demonstrations held in the state during a four-weeks period, beginning in Boone County, September 22. Farm equipment used in the demonstration will be carried from farm to farm in a twelve-truck Conservation Caravan.

The demonstration is being sponsored by the State Association of Soil Conservation District Supervisors, assisted by the State Division of Soil and Water Resources, the Soil Conservation Service, and other Federal and State agencies working with the districts.

"There is a widespread need for a better understanding of the need for soil conservation in Kentucky," Mr. Hempfling says. "There is still too much land in the state being destroyed by erosion. We hope the Caravan will speed up soil conservation in Kentucky by getting more people interested in this vital matter."

In the main, the practices which will be established on Mr. Huey's farm, are the practices employed to control erosion on farms in all Northern Kentucky districts. These include land use, terracing, diversions, pond construction, fertilizing, liming, land preparation and seeding.

Equipment to be used in establishing these practices include 12 wheeltractors, two crawler-tractors, and two motor-graders. These will be supplemented by additional equipment provided by local dealers.

All the agricultural agencies in Boone County are cooperating in the field day to make it an outstanding demonstration of a complete farm conservation program based on sound land use.

POSITIONS HELD IN STANDINGS

OF SUNDAY SCHOOL LEAGUE AS BULLITTSVILLE, SAND RUN, BELLEVIEW AND VERONA WIN IN SATURDAY'S GAMES.

Saturday, August 27, the Boone County Sunday School League offers its best display of baseball in five promising games. Big Bone, who boasts the only victory over Bullittsville, travel to the grounds of the first place squad for an important contest. Sand Run visits manager Clayton Brown and his Burlington outfit in a crucial second place game. Belleview, who has copped 4 out of 5, go to Union and are expected to beat the fourth place boys. Verona are hosts to Bullittsburg in a twin bill. Both teams are improving and an even break is likely. Florence go to Petersburg and will give their hosts trouble if they have a complete team.

Layne Cheesemen, 17-year-old Verona hurler, turned in the top performance of the day as he limited the Petersburg squad to 3 hits as Verona marked up a 12-5 victory. Cheesemen retired 10 on strikes as he smashed up his third win of the year. Marvin Campbell was on the hill for the losers and was tagged for 11 safeties. Campbell struck out 10 and walked 4. Virgil Shields poked out 3 hits for the second consecutive Saturday to pace Verona. Bobby Hodges, the loop's top hitter, came through with two of Petersburg's three hits. Manager Joe Rouse has whipped his Verona boys into a fighting ball club and they promise plenty of trouble to the rest of the league. Summary: Verona 12 runs, 11, hits, 5 errors; Petersburg 5 runs, 3 hits, 6 errors.

Bullittsburg played on even terms with Bullittsville for 6 innings before the redhot first place squad began to move. Hazel Walton started on the hill for the winners and was touched for 6 runs and 10 hits in five frames. Barney Hogan the league's leading hurler came in and pitched hitless ball the remaining 4 innings. Milly Pepper pitched for Bullittsburg and turned in a nice performance. Pepper whiffed 8 batters. Goodridge drove out 2 doubles and a single to top the winners. Aylor, Hossman and B. Hogan each had two singles. Otten smashed out 2 doubles and 2 singles to lead Bullittsburg at the plate. The win was the 16th straight for Bullittsville. Summary: Bullittsville 14 runs, 17 hits, 6 errors; Bullittsburg, 6 runs, 10 hits, 6 errors.

Big Bone took a first inning 4-0 lead over the improving Belleview team, but Belleview came back to win a 7-6 thriller. The game was close throughout. Ivan Cason chalked up his 7th win of the year as he went the route for the victors. Cason struck out 9 and walked 2. Charley Black, the losing pitcher, whiffed 9 and walked 4.

Belleview scored the winning run in the eighth as Cason singled, stole second and scored on Burkett's hit. Cason then struck out the side in Big Bone's half of the ninth. Denver Black carried away batting honors with three safe blows. Stephenson also had two doubles for Big Bone. S. Scott, Cason, A White and Burkett each had two hits for Belleview. Summary: Belleview, 7 runs, 10 hits, 5 errors; Big Bone, 6 runs, 11 hits, 4 errors.

Florence scored 3 runs in the first inning and held a 3-0 lead for five innings over the second place Sand Run squad before Sand Run began to score. Sand Run finally emerged victorious by a 11-4 count. Bloebaum recorded his 7th win as he gave up 10 hits. Bob Miller returned to the mound for Florence and pitched his best game, although he tired in the last two frames. Florence has one of the loop's top teams if they all play. Sand Run played errorless ball behind Bloebaum. Summary: Sand Run, 11 runs, 15 hits, no errors; Florence 4 runs, 10 hits, 2 errors.

Verona emerged on the long end of a 11-5 count Sunday over Bob & Gene, league leaders in the elimination series of the Benke Semipro Baseball League at the Verona grounds.

Elmo Steffen, on the hill for Verona allowed but six hits, while striking out 12. Reibling started for the losers, but was relieved in the last of the fifth by Etan Arnzen. The pair gave up 16 hits. Verona was guilty of five errors.

Sebree led the attack for the losers with a home run, while Steffen and Brown connected for home runs for Verona.

DOVE SEASON OPENS SEPT. 1

AND CONTINUES THROUGH OCT. 30—OTHER HUNTING SEASONS ANNOUNCED BY FISH AND GAME DEPARTMENT.

The hunting season on doves in Kentucky will open on September 1 and continue through October 30, both dates inclusive, according to federal regulations recently released by the U. S. Fish and Wildlife Service. The bag limit was set at 10 per day, the same as for last year, by the Service, with the possession limit being the same as the daily limit. The daily shooting hours for doves were set from noon until sunset.

Other hunting seasons for waterfowl and coot, both dates inclusive as announced by the Service, follows: Geese, December 10-January 8; Ducks, December 10-January 8; Coot, December 10-January 8; Sora, September 1-October 30; Rails and gallinules, September 1-October 30. There is no open season on woodcock and snipe this year.

The bag limits are as follows: Geese, 4; ducks, 4; coot, 15; sora, 20, and rails and gallinules, 20. Possession limit on all the above except doves, coot, and geese will be double the daily limit, but this bag limit does not apply until after the first day of the regular hunting season, the Service pointed out.

The daily hunting hours for ducks, geese, coot, brant, rails and gallinules shall be from one-half hour before sunrise to one hour before sunset, the announcement stated and all hunting hours in Kentucky will be on Central Standard Time. On the first day of the hunting season it was pointed out these species shall not be hunted prior to 12 o'clock noon.

The Service regulations provide that not more than one wood duck be included in bag or possession limits. The daily bag limit for American and red-breasted Mergansers is 25 with no possession limit except on the first day of the season.

The regulations do not authorize the taking of waterfowl by means of bait or with the aid of live duck or geese decoys.

The regulation which prohibits the use of automatic-loading or repeating shotguns capable of holding more than three shells still continues in effect. A new amendment this year, however, provides that the plug in such a shotgun must be incapable of being removed without disassembling the gun.

Floral Hall was filled with exhibits of 4-H clothing, foods, and canning. Utopia arrangements, open class flowers, miscellaneous; homemakers and feed sack garments. Four-H, Utopia, and open class garden display of fruits and vegetables was one of the features of the Floral Hall.

Winners in the various classes in this contest, may send their articles to the National contest sponsored by the Spool Cotton Company. The display of hooked rugs was very outstanding for quality of workmanship and articles use of color.

Features of the Friday program included concerts by the Boone County School Band, judging of all exhibits, feed sack dress revue, team pulling contest, Old Fiddler's Contest and open class dairy show. Radio station WLW brought their mobile unit out Friday afternoon. Betty Brady interviewed representatives of the 4-H, Utopia, Homemakers, and Farmers extension organizations. This transcription was used on WLW Saturday noon on their Everybody's Farm Program.

Outstanding features of the Saturday program were the baby show with 36 entries and the horse and pony show both afternoon and evening and 4-H style revue. This was the first year the improved and enlarged show ring and new grandstand had been used. Both horse shows drew capacity crowds. The school band gave an hour and a half concert prior to the evening show.

Many organizations and individuals, besides the extension organizations cooperated to make the fair a success. Many hours of work were donated by civic-minded citizens of Boone County. The 4-H and Utopia council wishes to thank all who gave any assistance toward preparing for the fair or assisting the two-day event. The Burlington Fire Department gave special assistance by using the pumper to sprinkle the grounds and track several times. The state police and county sheriffs office did a splendid job of parking cars and guarding exhibits. The names of premium winners at the fair will appear in next week's paper.

VETERAN NINE TROUNCE RICKEY

CAFE NINE BY SCORE OF 8-7 IN BUCKEYE SEMIPRO LEAGUE—SEVENTEEN HITS OBTAINED BY VETS.

The Boone County Veterans chalked up their second victory Sunday in the Buckeye Semipro League by defeating Rickey Cafe 8-7 at the Florence grounds. Chafing from a defeat last Sunday at the hands of the Hudepohl nine showed determination to win over the Rickey team.

The Rickey nine opened with two runs when Mike Waldeck hit a home run with a runner on base in the first inning. The Vets marked up one in their half when Williamson, Charlie Benson and Sox Benson singled in succession. The Vets took a 3-2 lead in the third inning when Charlie Benson was safe on an error and Sox Benson homered to right field. Rickey regained the lead in the fourth when Waldeck hit his second home run, and walks and a hit batsman accounted for the fourth run.

The local boys again took the lead in the fifth when Clore singled and scored as Denniston banged out a home run. The teams matched runs until the ninth when the Rickey nine scored a run to tie the score at 7-7.

In the last of the ninth, Williamson led off with a single and Goodridge walked. Collins laid down a bunt and beat it out to fill the bases. At this point, Ludington hit Charlie Benson with a pitched ball to force in Williamson with the winning run.

Williamson led the locals with four hits, while Denniston added three and Charlie Benson, Clore and Collins got two each. Waldeck led the Rickey team with two home runs.

Smith started on the mound for the winners and was relieved in the seventh by Sananger, who received credit for the win. The pair allowed five hits, while their mates were guilty of five errors.

The Boone County Vets will meet the strong Deer Park nine Sunday at 2:30 at Deer Park grounds. All Vet players are asked to be on grounds not later than 1:30 p. m.

Freezing foods is simple. It's the easiest way of preserving . . . requires half the time, half the effort. There are only seven steps to follow for freezing . . . fourteen for canning.

Freezing is nature's way of preserving foods. It seals in all the quality, flavor and food value . . . it retains the appearance, texture and color of the choice fruits and vegetables you grow or buy. And it keeps them **SAFE** from food spoilage.

The Journal of the American Dietetics Association (June issue, 1948), Cornell University, states that no case of food poisoning from frozen foods has ever been reported.

You'll want to hear more about how to preserve foods this superior way. Come in today and let us show you how the Deepfreeze home freezer will give you a better, easier, healthier living while it pays for itself.

The normal heart, you know beats about seventy-two times a minute and pumps about six ounces of blood with each beat. Now, in fast walking, or at the rate of four miles an hour—which is how fast you should walk to do you some good—you'll find the normal heart will INCREASE its beat ten times to the minute, pumping six ounces of blood at each beat, gives sixty ounces per minute or 3600 an hour, which is 225 pounds. You can easily see that 225 ADDITIONAL pounds of blood pumped DAILY through your veins means just that much more life to your whole body.

There's no use of my telling you to get out and walk if you are having trouble with your feet, because I know you won't do it. BUT—if I tell you how to get rid of those aching, paining feet, first—then there's nothing to keep you from walking every day and benefitting your health by this wonderful exercise.

It has also been found that millions suffer—without knowing the reason why—those headaches, those leg pains, and even sleepless nights may be caused by the shoes you are wearings.—Adv.

CORN TO BE EXCELLENT TOBACCO "FAIRLY GOOD," ACCORDING TO WALTERS

Frankfort, Ky. Aug. 24.—Commissioner of Agriculture Harry F. Walters looks for a bumper corn crop in Kentucky this year and a tobacco crop that is in "fairly good condition."

Walters, recently returned from a three-weeks tour of all sections of Kentucky, declared that "the corn crop in central and western Kentucky looks very good, and I believe one of the best crops in many years."

"Rainfall has been fairly liberal, though spotted, and the crop appears to have been well cultivated and relatively free of vegetation."

"The tobacco crop is in fairly good condition ranging from poor to excellent in the same county. This variation is due in part to the unseasonable weather at setting time, shortage of plants in some localities, while in other areas nearby conditions were quite favorable."

The fresh tomato season approaches. Try this. Cook green string beans two and a half minutes in a pressure cooker with 2 tablespons of water, salt, margarine. (Garlic or garlic powder is delicious but optional.) Open cooker, add 3 or 4 firm tomatoes cut in chunks. Mix gently to heat. Serve at once.

DISCUSSES EQUIPMENT FOR FREEZING FRUITS, MEAT AND VEGETABLES

Half of the farm people in the United States either have a frozen food locker or a home freezing unit. This rapid progress has been made with frozen foods the past ten years. A race has developed between the manufacturer of locker plants, home freezer units and equipment needed in freezing foods. Also the research people have been in the race developing better techniques of preparing foods for freezing. All have done an outstanding job.

What is needed to prepare fruits or vegetables for freezing? If vegetables, have a large kettle with a lid for use in scalding the vegetables. Have a wire basket or cheesecloth to use in lowering the vegetables into the kettle of boiling water. Flat glass or granite pans are good for use after the vegetables have been scalded and chilled. These flat pans are also good for sugaring fruits. I like to have plenty of clean tea towels around to use in drying the vegetables quickly.

Containers are about the most important piece of equipment. For fruits and vegetables, containers must be resistant to moisture and vapor, to prevent drying out and losses of food value. There are many types of containers on the market now. Here are a few:

1. Cartons lined with specially treated cellophane bags. Sometimes the cellophane bags become brittle and dry. Try putting them in the refrigerator two or three days in small bunches to absorb moisture. Use and iron or curling iron for sealing the telephone bags. Often these bags leak juices.

2. Cartons with heat sealing liner of specially treated paper.

3. Heat sealing double bags of treated waxed paper. Rather than a carton, a heavy bag covers the inner bag and folds over like some of the coffee bags.

4. Plastic coated boxes, some round, some square. One brand has a self-sealing lid, that fits inside the top. A box that has just come on the market recently has a plastic lid that fits over the entire top. This makes for easy removal of the frozen product and for easy washing of the container. The lid may be used again and again.

5. Waxed cups with set-in lids. The seal is not vapor proof and food dries out and may darken during a long period of storage.

6. Stockinette covering may be used for single thickness cellophane bags. The cellophane bags are easily punctured.

7. Glass jars may be used time and time again or until they are broken. They do not pack so well in the freezer and may break. Foods must be thawed before cooking to remove from the jars.

8. Tin cans are satisfactory for fruits but should not be used for vegetables unless the directions with the cans say they are suitable.

R. Enamel cans with a deep gold border with a bright finish for highly colored and acid foods.

C. Enamel cans with a light gold finish for products containing sulphur, corn, lima beans and peas.

Various types of paper are used for wrapping meat and fowl.

1. A freezer locker paper, good for meats and cuts of the sub. This is a tough paper coming in a 450-foot roll. It's a laminated two-in-one paper.

Aluminum foil paper has become popular recently. This paper has a tendency to tear easily if rubbed against other objects when cold.

A drug store wrap needs to be used with foil paper folded in. If meat is thawed in foil paper the paper may be used again. Meat may even be cooked in the paper. Meals can be frozen 30% faster with foil paper. Foil paper is inexpensive but considered the best by locker operators. A special marking ink is used on foil paper.

A glazers pencil in black or red is best for writing on waxed cartons. Try this time next year there probably will be new containers on the market.

Homemakers are urged to experiment with all and see which they like best, according to Mary Hood Gillaspie, Home Demonstration Agent.

TREE PLANTER WILL BE USED

AS ONE OF FEATURES IN CONSERVATION CARAVAN TO BE HELD AT UNION, SEPTEMBER 22ND.

A mechanical tree planter, believed to be the only machine of its kind in Kentucky, will be included as one of the outstanding features of the Statewide Conservation Caravan, sponsored by the Kentucky State Association of Soil Conservation Districts in cooperation with the Division of Soil and Water Resources, according to C. L. Hempfling, Chairman of Soil Conservation District. It can be pulled by any farm tractor and will operate on slopes up to thirty percent. With this mechanical planter, two men can plant ten thousand trees per day, which is six times the output by hand planting methods. Planting cost per thousand trees will be reduced from one-third to one-half that of hand planting.

The machine is owned by the State Division of Forestry. State Forester H. B. Newland said that, in actual tests, the machine planted 13,650 trees in one eleven-hour day. The planter is stationed in western Kentucky, where it is especially used in reforesting light soils. Mr. Newland added that the planter is available for rent to farmers or groups in Western Kentucky at a nominal fee.

There are 1,500,000 acres of wasteland in Kentucky that should be reforested. One of the greatest obstacles to reforestation in the past has been the shortage of labor for hand planting. The use of the mechanical tree planter is expected to greatly speed up the job. Application for rent of the tree planter and inquiries about seedlings for reforestation, should be addressed to the Director, Division of Forestry, Frankfort, Kentucky.

HOMECOMING ATTRACTS CROWD

AT BULLITTSBURG BAPTIST CHURCH SUNDAY—SEVERAL SPEAKERS HEARD DURING DAY.

A large number from Boone and adjoining counties gathered at the Bullittsburg Church Sunday for the homecoming service in spite of the extremely hot and humid weather. A former pastor, Rev. W. T. Gardner, of Livingston, Ky., delivered the morning address. He said in part, "A real homecoming is a gathering to feast on God's Word, not on food, and sit together in a holy place. Life is a preparation for a greater homecoming, where all the redeemed of the Lord will be."

The following pastors were present: Rev. W. T. Gardner, Livingston; Rev. R. A. Johnson, Burlington; Rev. J. W. Campbell; Rev. W. Burkett, Belleview; Rev. Otto Pierson, Petersburg; Rev. J. W. McGregor, Sand Run; Rev. W. Holladay, Pt. Pleasant; Rev. J. Kirtley, Cincinnati, and the present pastor, Rev. E. L. Patton.

After a sumptuous basket dinner Morton Oliver, accompanied on the piano by Robert Brown, conducted a song service and sang two solos.

Rev. J. W. Campbell gave the welcoming address. He said, "It is always a pleasure and joy to stand behind the sacred desk and proclaim God's word."

Rev. J. Kirtley spoke on the great influence for good this old church had in the past and now. He concluded with these words, "You have a name to live up to," and then very forcibly "Do it!" This stately gentleman will be 93 years old in November.

Rev. R. A. Johnson noted the fact that the sum of Rev. Campbell's age plus the sum of Rev. Kirtley's made a grand total of 180 years of service to the Lord. Bullittsburg Church does have a right to be proud of its past. As Bro. Gardner said in his morning address, "God expects his people to walk in the light they have received. Christians must realize their importance and how much they are needed in the work of the Kingdom."

The song "Blest Be The Tie That Binds," brought the happy occasion to a close. All left looking forward to a similar occasion next year.

BULLITTSVILLE WIN TWENTIETH GAME

BURLINGTON TRIMS SAND RUN NINE SATURDAY — TWELVE GAMES SCHEDULED FOR NEXT WEEK-END.

Twelve games are scheduled in the Boone County Sunday School League for the coming week-end. Highlight of the season's play will be the Labor Day doubleheader between Bullittsville and Burlington. These two teams are generally recognized as the two top teams in the league and this twin bill should be a thriller. The games will be played at the new Burlington ball park, located on the high school campus. Sand Run visits Union Saturday in another important game. The remaining games on the schedule are listed at the bottom of this column.

Bullittsville's top notch ball club took a 13-8 victory from Big Bone as they notched up their twentieth win of the year. Garnett sent Barney Hogan to the mound in search of his 15th victory and Hogan came through although he was relieved by Joe Aylor in the eighth. Hogan struck out 6 and walked 3. Charley Black was on the hill for Big Bone and gave up 13 safeties. Black went the route for the fourteenth time this year. Black struck out 6 and walked 4 as he was losing his 8th game. Louis Hossman drove out three singles to pace the winners at the plate. Joe Aylor and Charlie Hodges each had two hits for Bullittsville. Charley Black was tops for Big Bone with two hits. Both teams committed 7 costly errors as they played poor ball afield. Cliff Rouse for Big Bone and Junior Garnett for Bullittsville were the catchers. Summary: Bullittsville 13 runs, 13 hits, 7 errors; Big Bone 8 runs, 8 hits, 7 errors.

Sand Run jumped to a first inning 6-1 lead over Burlington and apparently was heading for an easy victory, but Burlington's big bats kept hammering away, and when the dust had cleared away Clayton Brown's boys had copped a 15-10 triumph. Roscoe Akins, veteran curve ball hurler, started for Burlington and was tagged for 9 safe hits the first two innings, after which he settled down and pitched good ball up to the eighth when "Chick" Stephens took over the mound duties, completing the game for the winners striking out 4 in two innings. The win was number seven for Akins. George Bloebaum was the starting pitcher for Sand Run and worked 6 innings. Buck Judy took over in the seventh and finished the contest. Both hurlers looked the same to Burlington batters. The loss was Bloebaum's second of the year. Jimmy Ryle drove out 5 hits including a home run with two on base. Ryle also played a splendid game at short, handling seven chances without a miscue. "Chick" Stephens with a single, double and triple and McBee and Jimmy Smith with 3 singles followed Ryle in the hitting parade. Bill Mahorney and George Sprague teamed up and collected three hits each to set the pace for the losers. Burlington never committed an error on the infield and Sand Run had but one. Smith and Utzinger were the receivers. Summary: Burlington 15 runs, 20 hits, 3 errors; Sand Run 10 runs, 15 hits, 3 errors.

Belleview turned in a poor exhibition of baseball as Union trounced them 17-6. Scott Jack went the route for the winners as he marked up his 9th game in the win column. Jack was hit hard but kept the hits scattered. Ivan Cason worked three innings for the losers, followed by Bebe Scott for 3 innings, then Dave Clore for 3 innings. Cason was the loser. Moss Brown had four singles in 5 times at bat to set the pace for the winners. He was followed by Moore and A. Knox with three hits each. Dave Clore's two triples and single were the big blows for Belleview. Cliff Scott and Cason also had 3 safeties for the losers. Allen White and Bob Moore completed the batteries. Summary: Union 17 runs, 17 hits, 4 errors; Belleview 6 runs, 15 hits, 4 errors.

PETERSBURG HOMEMAKERS ENJOY CINCINNATI TOUR

The Petersburg Homemakers and some friends chartered a Dixie Trailways bus with Earl DeBrien as driver, and visited the worthwhile places in Cincinnati.

Our first place to visit was Rookwood Pottery. It was very interesting to watch them mold the pottery and see how it was finished.

Next we visited the Sterling Glass plant. Their glassware is beautiful, something everyone should see.

Our next place was the Art Museum, where we viewed a nice display of art.

Our next stop was the big dining room at the Alms Hotel, where we had lunch.

After lunch we visited Eden Park, and from there to Taft Museum, a beautiful old home with every room attractively decorted with large paintings, old furniture refinished and many things that will long be remembered.

Those who enjoyed the tour were Mesdames Charley White, Allen White, Wilma Arnold, Gene White, Floyd Snyder, Grace Aylor, Ruth Hitzfield, Cord Cook, Dollie Spangler, John Aylor, Deane Townsend, Edna Berkshire, Owen Wells, Johnnie Mae Terrill, Mae Pope, Gladys Klopp, Charles Klopp, all of Heeren and Calvin Winston, Calvin Winston, Jr., Herman Oberjohn and Ralph Hoppenjans, Hebron, and Joe Hogan and Lee Marshall, of Shilltsville.

The Florence Volunteer Firemen and Ladies' Auxiliary wish to thank each person for their donations, or who helped in any way to make their picnic a grand success.

On Sunday of last week American Legion Post No. 4 enjoyed a picnic at the farm home of R. B. Taylor, formerly the Noah Zimmerman farm.

Mr. and Mrs. Mace White (nee Dolly Huron), of Florida, are enjoying a visit with friends and relatives here. They also visited her sister Mabel, of California.

Mrs. Wm. Markesbery was calling on Mr. and Mrs. Chas. Hempfling and Mrs. Laura McGlasson, of Taylorsport, on Monday of last week.

Mrs. Gussie Moore and daughter Corinne, of near Burlington left Wednesday for Rockaway, Oregon to be guests of the former's brother, Wm. Sederberg.

Mr. and Mrs. Paul Chaney motored to Milford, Ky., Sunday where they were guests of his brother Frank and family.

Mr. and Mrs. Pete Hauntz, of Cincinnati, Mr. and Mrs. Earl Locke and Mrs. Mary J. Brown, of Burlington Road, were recent guests of Mr. and Mrs. James Rogers.

Mrs. Wm. Markesbery recently visited Mr. and Mrs. Raymond Kelso, of Detroit, Mich., and also attended funeral services for their daughter, Mrs. Verlain LaSelle, who succumbed to an unknown skin infection. She was in her twenties and it is hard to understand why one so young should be called to leave her husband, three children, parents and other relatives. Mr. Kelso was a brother of the late Mrs. Geneva Souther. Their friends here extend sincere sympathy to the family in their hour of trial. Mrs. Markesbery returned by plane to the Boone County airport.

The W. S. C. S. of the Florence M. E. Church will meet at the church on Tuesday, Sept. 7, at 1:30 p. m. Mrs. C. S. West will give the devotional and Mrs. Paul Chaney will present the program.

Mrs. H. R. Daugherty and son J. T., have concluded a vacation and visit with her mother, Mrs. James Karrick, of Salt Lick, Ky., a brother Paul Karrick and wife, of Ashland and other relatives.

Mr. and Mrs. R. G. Keyer were week-end guests of her parents, Mr. and Mrs. Eldridge Carpenter.

Sunday guests of Mr. and Mrs. J. T. Stephenson and son E. G. were Mr. and Mrs. Dave Wingate, Mr. and Mrs. Clayton Brown and E. Wayne Brown.

The town of Florence was well represented at the 4-H and Utopia Club Fair. A record crowd was in attendance this year.

Mr. and Mrs. Gilby Green, of Lloyd Ave., are being congratulated over their infant daughter, who was born Saturday at St. Elizabeth Hospital.

Mrs. Marie Kinman has returned to her home following a pleasant visit with Mr. and Mrs. Robert West and son Robby, of Pineville. Mrs. West had hoped to return here for a visit, but was unable to do so due to the illness of her son, who is confined with whooping cough.

John Millar, 581-40-87, who is now stationed with the U. S. Navy, has the following address: USNTC Co. 221, Great Lakes, Ill.

Mrs. R. H. Carter spent several days the past week in Midway, Ky., a guest of Miss Frances Cook.

Mrs. Homer Eades and daughter Sally, of Chattanooga, Tenn., are enjoying a pleasant summer vacation with friends and relatives.

Mrs. Katie Scott has as her guests her two granddaughters, Misses Lucille Ann and Janet Scott of East Chicago, Ind.

Mrs. O. R. Osmun and daughter Patricia, of Gunpowder are the guests of her sister, Mrs. Ackman, of Minneapolis, Minn.

Alice and Lutie Aylor entertained recently in honor of their cousins, Mr. and Mrs. Henry A. Lotzke and two children, of Osborne, Mo. Mrs. Lotzke is a granddaughter of the late J. Q. A. Stephens of this county. Other guests included Mrs. Dorothy Black and daughter Laura Jane.

The Volunteer Firemen's Picnic held at St. Paul's on Saturday evening was well attended and a complete success. Members of the committee wish to thank all those who helped to make it an enjoyable evening.

Mr. and Mrs. George Houston, of Richmond, Ky., were guests of his parents, Mr. and Mrs. Lewis Houston, the past week-end.

TWO INJURED IN PLANE CRASH

NEAR DEVON MONDAY—SHIFT OF WIND ON TAKEOFF IS BLAMED FOR ACCIDENT, ACCORDING TO REPORTS.

Two brothers suffered slight injuries Monday when their two-place plane failed to gain sufficient altitude in taking off from the farm of L. D. Rennecker farm near Devon and crashed to the ground in a field owned by Dr. Holton, across the road.

John R. Bell, 26, Erlanger, Route 4, suffered minor cuts on his forehead, and his brother, Austin Bell, 28, Stark, Fla., suffered body cuts and severe bruises on his right foot.

Austin Bell, pilot of the plane was visiting his brother and had flown from the Florida city. Both of the men injured are sons of Austin Bell of Devon.

The men were removed to St. Elizabeth Hospital, Covington, by Sgt. Lewis Henderson of the Kentucky State Highway Patrol, where they were treated and released.

According to witnesses, the plane took off without incident, but then the wind apparently shifted when the plane was about 15 feet off the ground causing the craft to crash into a fence. The plane was not damaged to any extent, according to Sgt. Henderson, who witnessed the accident.

REIBLING PITCHES ONE-HIT GAME SUN.

TO DEFEAT GRANTS LICK BY SCORE OF 7-0—VERONA TAKES 5-2 VICTORY FROM SILVER GROVE NINE.

"Dutch" Reibling, ace hurler for Bob & Gene's nine, pitched a one-hit game as his team won a place in the finals of the Benke Semipro Baseball League defeating Grants Lick 7-0 at the losers' park.

Reibling was well on his way to a perfect game when a Grants Lick player hit a ground ball that bounced over the head of the Bob and Gene shortstop for a base hit in the eighth inning. Reibling whiffed eight and walked one, while Allan Nagel, hurling for the loser was touched for 14 hits, struck out two and walked two.

Verona chalked up another victory Sunday for a place in the finals by defeating Silver Grove by a score of 5-2. Steffen went the route for Verona, allowing but five hits, had 7 strike outs and walked three. Rosen was on the mound for the losers allowing 10 hits, striking out nine and walked one.

Scroggins had the big blow of the day, clouting out a home run in the sixth with one on base. Ivan Gulley led the winners at bat with 3 hits for 4 trips to the plate.

Drawings for the championship series between Verona and Bob & Gene were held Monday at 8:00 p. m. in the Newport Police Court with President Robert Luke presiding. The championship will be decided in a five-game series.

HAMILTON FALLS VICTIM TO VETS

SUNDAY AT FLORENCE PARK BY SCORE OF 9-3—GAME IS CALLED OFF MONDAY ON ACCOUNT OF RAIN.

Boone County Vets defeated Savage Auto Supply, of Hamilton, at Florence Sunday by a score of 9 to 3. Buford Smith went the route for the Vets, fanning 13, walking 7 and allowing but seven hits. Savage used four pitchers, Hoelle, Jamison, Burns and Buer and the quartet allowed 17 hits. Hoelle fanned 2 and walked 2, Buer had 1 of each, while Burns struck out 2 but issued no passes.

The game was scoreless until the Vets' half of the sixth when Collins walked, C. Benson turned an intended sacrifice into a hit and both runners took an extra base when Hoelle threw past first base. "Sox" Benson was walked intentionally, filling the bases. Collins scored and the Benson brothers moved to third and second on a wild pitch from where they both scored on Clore's single. Denniston doubled to score Clore, took third on Smith's single to short and scored on Williamson's double to bring the total to 5.

Burns had replaced Hoelle in this inning to retire the side and Jamison started the seventh. He was greeted with singles by C. Benson, and D. Benson, a triple by Clore and a double by Bowman, which produced three more runs and brought Buer in to pitch before any batter was retired. Trailing by 8 runs, Savage broke into the scoring the eighth when Farmer singled and pinch hitters Fishwick and Davis homered and doubled respectively and Buer singled to bring the total to 3.

Boone County got 1 of them back in their half, when C. Benson singled, took third on Clore's single and scored on Bowman's long fly to left. This ended the scoring for the day.

Farmer led the losers at bat with two singles. Denniston made two for the Vets, while Williamson, C. Benson, D. Benson and Clore were each good for three. Walsh and Elias were the umpires.

The Labor Day game at Florence between the Boone County Vets and Maderia Legion was called on account of rain, with 2 out in the visitor's half of the fourth. No runs were scored and each team had made 1 single. Huiet, pitching for Maderia and Jack Sananger on the hill for the Vets, both had the same record with 1 walk and three strikeouts each during the brief session.

After a 30-minute wait, the rain showed no sign of ceasing and the field was in such a heavy condition that umpires Kallmeyer and McDonald called off further hostilities. The game is to be played off sometime before next Sunday.

The Vets will meet Maderia Saturday afternoon at 2:30, Florence Park, and if successful in winning this game will play Grosebeck at 2:30 p. m. Sunday at the same grounds.

THREE WEEK-END VICTORIES COPPED

BY SAND RUN NINE—BIG BONE TAKES TWO—BURLINGTON IS DEFEATED BY BULLITTSVILLE NINE, MONDAY.

Ballots will be given to each of the 250 men who are listed on the eligibility lists in the Boone County Sunday School League next week so that the two All-Star teams can be chosen for the 3-game all-star series. In the holiday week-end play Bullittsville came within one game of clinching the championship, while Sand Run was taking undisputed possession of the second slot. Big Bone won two games to move into fourth place.

Manager George Stahl led his red hot Sand Run nine to three impressive victories as they moved two games ahead of Union, faltering Burlington squad. Paced by Buck Judy's five for five, Sand Run swamped Union 17-6 on the loser's grounds. Bud Goodridge returned to fhound duties and limited Union to 8 hits. The victory was number seven for the veteran lefthander. Harold Hodges and Scott Jack were on the hill for the losers. Bill Mahorney poled out a home run for Sand Run. Bobby Moore, Union receiver had three hits. Summary: Sand Run 17 runs, 18 hits, 2 errors; Union 6 runs, 8 hits, 3 errors..

Sand Run, last year's champions, retained their old style as they trimmed Petersburg 9-2 Monday morning. George Bloebaum struck out 9 batters and gave up but six scattered hits as he marked up his eighth triumph. Marvin Campbell twirled for Petersburg, but was nicked for costly extra base clouts. The game was well pitched. Henry Dye and Buck Judy each hit home runs with men on base to top the winners at the plate. Petersburg's hits were equally distributed. Summary: Sand Run, 9 runs, 12 hits, 2 errors; Petersburg 2 runs, 6 hits, 2 errors.

Sand Run made a clean sweep of the week-end as they defeated Belleview 10-5. The capable Sand Run pitching staff again came thru with Judy taking his turn and pitching a six-hitter. The sidearm hurler whiffed 8 as he won his third contest. Manager Bob White was the hurler for the losers. This was White's first pitching appearance this year. George Sprague drove out two homers and George Stahl one to set the pace for the winners. Belleview's six bingles were shared equally. Summary: Sand Run, 10 runs, 11 hits, 2 errors; Belleview, 5 runs, 6 hits, 2 errors.

Hazel Walton went the route for the pennant-thirsty Bullittsville outfit as they downed Verona 11-3 in a wellplayed game. The old veteran allowed 10 hits and struck out 6 as he recorded his fourth win. Layne Cheesmen served them up for Verona. Dick Gaines smashed out a home run, double and two singles to carry away hitting honors. Garnett with three hits wasn't far behind Gaines. Code had 3 singles to top Verona. Summary: Bullittsville 11 runs, 15 hits, 2 errors; Verona 2 runs, 10 hits, 4 errors.

BRACHT MAN KILLED SATURDAY

BY SHOTGUN BLAST—CORONER GIVES VERDICT OF JUSTIFIABLE HOMICIDE — SERVICES HELD TUESDAY.

Robert Ashcraft, 37 Bracht and Piner Road, Bracht Station was killed instantly Saturday night by a charge from a 12-gauge shotgun in the hands of Harmon Conrad, 37, of Bracht.

Kenton County Patrolman Paul Crossjean reported that Ashcraft went to the Conrad home Saturday night, carrying a rifle, and threw stones at the home from a nearby railroad track when his pounding on the door was not answered. The light of a passing train disclosed to Conrad that Ashcraft had a rifle, and when the latter again approached the house and kicked at the door, Conrad fired the shotgun blast from a distance of 15 feet.

There had been ill feeling between the two since Conrad discharged Ashland, a farmer, after the latter had worked for him, it was reported.

A verdict of justifiable homicide was returned by Mrs. Tressa Riffe, Kenton County coroner.

Donald Elliott, 17, Bracht, was upstairs at the home of Conrad and witnessed the shooting.

Conrad was released under $1,000 and was to appear yesterday morning (Wednesday) in Kenton County Court.

Ashcraft is survived by his wife, Viola Gertrude and seven children, ranging in age from 2 to 15 years; his mother, Mrs. Chas. Ashcraft and one brother Chas. Gilbert, both of Bracht Station.

Funeral services were conducted Tuesday morning at 11:00 at Goshen Christian Church, with burial in Goshen Cemetery.

Chambers and Grubbs, Walton funeral directors were in charge of arrangements.

THOMPSON-DAVIS

In a candlelight ceremony performed at 7:30 Saturday evening at Runyan Memorial Church, Covington, Miss Mary Helen Thompson, only daughter of Mrs. Emma Thompson, became the bride of Mr. William Davis, of Burlington, Ky.

The altar artistically arranged with ferns and palms intermingled with white flowers and glowing tapers, formed an effective background for the reading of the beautiful impressive double-ring ceremony by Rev. E. Hannah, pastor of the church.

Preceding the ceremony an organ recital was presented by Mrs. Sharon Florer. Mrs. Robert Hughes sang "Because" and "Always."

The bride, who entered on the arm of her brother, Leo Thompson, chose for her wedding a dress of burnished copper with which she wore a large picture hat and bronze accessories. She carried a cascade bouquet of white orchids and stephanotis on a white Bible. A strand of pearls, the gift of the groom, was her only jewelery.

Attending the bride was Miss Anna Lois Greenwood, of Washington, Ind., who wore emeral green with brown accessories. Her corsage was of yellow glamelilas.

Mr. Carl McCarty acted as best man for Mr. Davis. The ushers where Mr. Bruce Fulton and Mr. Clyde Tipton.

A reception followed at the Thompson residence. A beautiful three-tiered column wedding cake, topped with a white dove holding two wedding rings centered the bride's table.

Mrs. Thompson, the bride's mother chose for her daughter's wedding a dress of dove grey with navy blue accessories. Her flowers were American Beauty Roses.

The groom's sister, Mrs. J. S. Brumfield, of Nicholasville, Ky., wore navy blue with a corsage of white glamellias.

After the reception the bride and groom left for a trip to Miami, and other points of interest in the South. When they return they will make their home in Florence, Ky. Mr. Davis is Agricultural Agent of Boone County.

COURTESY WILL BE STRESSED BY POLICE

IN KENTUCKY TO THE TRAVELING PUBLIC—EACH POLICE CAR WILL CARRY GASOLINE, FIRST AID EQUIPMENT.

Kentucky State Police will symbolice courtesy to the traveling public, according to Commissioner of State Police Guthrie F. Crowe.

In line with that idea, Crowe said, each policeman will carry a can of gasoline in his automobile to aid stranded motorists to reach the nearest service station, as well as a line of first aid equipment for sick and injured persons.

"It is our purpose to help, not to hinder the public," Crowe said. "We intend for each trooper to carry a can of gasoline which he can siphon into the empty tank of the unfortunate motorist. This will enable him to get to the next filling station with little effort. Each car will be equipped with first aid supplies and a stretcher for the more serious cases."

"Information of all kinds will be given traveling tourists."

Crowe has been promised the utmost co-operation of Governor Clements in the organization of the state police.

"Guthrie Crowe has been charged by me with the selection of men who fit precisely the standards required of state policemen," said Governor Clements. "I shall in no way interfere with his efforts in attaining that end. I want an efficient police force that will redound to the credit of Kentucky."

BLUEGRASS REGION PRODUCTION JUMPS

How crop production has increased in the Bluegrass region of Kentucky since 1890 is revealed in the annual report of the Agricultural Experiment Station.

The increased production has come largely through higher acre yields. The burley acreage, reduced beginning in 1934, started back up in 1943 and now is larger than it was in the early thirties. Yield per acre is up 90 percent.

The acreage of corn is down nearly a third, but yields are up 50 percent. Nearly 30 percent more land is being devoted to hay production. Also average hay production per acre is twice that of the early thirties. The alfalfa acreage has doubled since 1890, and now is nearly a fourth of the total hay acreage. There has been little change in small grain growing.

Cattle numbers have been gradually increasing in the past 10 years, and now are about 50 percent higher than in 1890. Sheep remained fairly constant until 1944, and then decreased about 50 percent from the early thirties. The number of hogs and chickens is about the same.

Some increase in the size of Bluegrass farms was noted. In 1940 about 27 percent of the farms were 51 to 70 acres; 24 percent were 71 to 130 acres and 30 percent were 131 to 260 acres. A large proportion of the small farms were in the rough hilly sections of the Bluegrass region.

THREE CHAMP TEAMS AT BROMLEY SUNDAY

Softball fans of this area will be treated to an unusual spectacle Sunday, September 12th, when 3 champion teams exhibit their skill in a double-header beginning at 2 p. m. The Bromley Vets regular season and elimination champs of the Ludlow-Bromley League will play host to the Patriot, Ind., champs of the Rullerland County league in the second half of the twin bill which will feature as the opening attraction the grudge game of the season, a blood and thunder battle between the Vets and the Bromley Spinney League undefeated champs of 1950. With hope springing eternal in such stalwart breasts as those possessed by old time stars, John Wood, Bill Westfall, Chas Horton, Jr., Sot Turner, Lefty Van Atta, Dan and Bill Anderson, Wally Rake, Al Barnett, Ed Helleman and Harry Brownfield, Geo. Pierce, Old Timer Manager, succeeded in persuading Vet manager Wally Brown to risk his team's newly won prestige and accept the Old Timer's challenge. Pierce has augmented the Old Timers with middle time minor leaguers Bob Petrie, Carleton Carr and Bob Wilson and several bottles of liniment.

In the second contest, Patriot will bring a scrappy championship team to the Bromley Park featuring a top-flight pitching staff composed of Robinson and Buttonberg, a pair of aces good enough to cop the Indiana County Championship. Proceeds of the game will be used to help defray the cost of jackets for the Vets in recognition of their winning the championship of the local league.

Pre-game features will include an accuracy and distance throwing contest between John (I never said a word) Wood and Jack (Ballast) Reynolds to determine the Bromley-Ludlow Champion.

It is estimated that a million bushels of rye-vetch mixture were harvested in Logan county this year.

Twenty-two ton litters of pigs are being fed in Daviess county this year.

KINDERGARTEN WILL BE OPENED IN ERLANGER

The Erlanger Community Kindergarten for pre-school age children of Erlanger and adjacent communities will open September 13, according to Mrs. Jean Williams Pendleton, supervisor of the school. The kindergarten will operate for 36 weeks, and will observe the regular public school holiday schedule.

Mrs. Pendleton has attended Transylvania College and the University of Cincinnati, and has been especially trained in child psychology and nursery school management.

Sessions of the school will be conducted in The Erlanger Christian Church, located at Graves Avenue and Home Street, Erlanger. The school, not being held exclusively by or for the church is rather a non-sectarian school for the entire community.

Children in normal health between the ages of 4 and 6 years will be eligible for admission. There will be a limited number of enrollments.

The kindergarten is equipped with the scientific teaching equipment necessary for a pre-school institution. The sessions will begin at 9 a. m. and close at noon daily, Monday through Friday.

Detailed information may be obtained from the supervisor by calling her home, 46 Erlanger Road; or at her office in the Erlanger Christian Church.

LOSES UNTREATED PLANTS

When 300 farmers of Rockcastle and Southern Madison counties visited the farm of W. S. Stewart on a field trip, they saw a striking demonstration showing the result of using bluestone-lime in tobacco plant beds. According to Farm Agent Robert F. Spence, Mr. Stewart lacked plants from his own treated beds to set one-fourth acre, so got plants from a neighbor who hadn't treated his plant bed. Wildfire and leafspot had almost entirely covered the plants in that area of Mr. Stewart's field, while the treated plants were green to the ground and making a good growth.

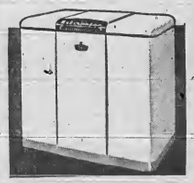
GLASS JARS HELP IN DEEP FREEZING



Advantages in using glass jars in deep freezing, made especially for this purpose are pointed out by Miss Elizabeth Helton, professor of foods at the College of Agriculture and Home Economics, University of Kentucky. Made without a shoulder, these glass jars permit the frozen food to slip out easily after slight defrosting. They are especially desirable for freezing fruit with syrup, egg whites, yolks or the combined whites and yolks.

Here are directions from Miss Helton for freezing peaches in glass jars: Make a heavy syrup, using 4 cups of sugar and 4 cups of hot water. Let cool, then place in refrigerator over night. Add two tablespoons of lemon juice to the syrup just before using it.

Select perfect, table-ripe peaches. Drop a few at a time in boiling water for one minute, then plunge into ice water. Slip the skins and halve. Fill the sterilized glass jars one third full of syrup, and as the peaches are peeled, pack them, cut side down in the jar, pushing them to force the syrup over them. About eight halves may be packed in a pint jar. Add more syrup if necessary. Fill to three-fourths inch from the top, then place crumpled wax paper in the jar to force the peaches down as the lid is screwed in place.

Twenty Years From Now

Will they thank you for good strong feet?

Oh, you mother of a child—you want his manners to be nice, you want his brain to be quick, you want his hands to be agile—but don't you want his feet to be sturdy and true, well-shaped and graceful? Are those of your daughter?

You mother of a child, twenty years from now his feet will be walking up to get a diploma, or confidently marching in to get a job, maybe walking up to an old church altar to meet a bride in white. (Or it may be the bride herself.) Your child may never thank you for good strong feet, he'll take them as a matter of fact. But what will he think if they're not good strong feet? Sure he'll still love you—but "why didn't mother make sure I was growing up right?"

It is a responsibility, just one of the many a mother takes on when she brings a child in to the world. —Adv.

SMALL FLOCK PROFITABLE

A high school 4-H club member, Larry Wagoner of Millersburg, Bourbon county, has records to show that last year he made a profit of $373 on a poultry flock which averaged 72 hens. Starting 110 New Hampshire Red pullets last October, he sold the last of his flock in July. During that time, he gathered 12,826 eggs, or 175 eggs per hen. His profit was the result of good management and careful culling, according to Thomas F. Duffy, Jr., senior assistant county agent. Young Wagoner has been county poultry champion for the past three years.

MADISON HOMEMAKERS REPORT BIG SAVINGS

Madison county homemaker club members estimated that they saved more than $4,000 last year when they learned to refinish furniture in their homes. Included in the 900 pieces refinished were chairs, chests, loveseats, tables and picture frames, some of considerable value. Fifty-five chairs were re-seated with cane and 70 chairs and 14 stools with rush.

Other work accomplished by the women included 1,395 garments made and 2,426 remodeled or repaired, 267 rooms papered or painted, 140 floors refinished, and 93 slipcovers and 147 pairs of glass curtains and draperies made.

Thirty-eight kitchens were made more convenient and step-saving, 15 being supplied with electricity. Eighty women reported having deep freeze lockers in their homes, said Home Agent Priscilla G. Roser.

STATE FAIR EXHIBIT TO FEATURE INVITING HOMES

That homes need not be drab and dull, but may be colorful, interesting and inviting at small expense, will be demonstrated at the State Fair, Sept. 12 to 18, by the Extension Service of the College of Agriculture and Home Economics, University of Kentucky.

Visitors will see contrasting rooms furnished with similar articles of furniture, one showing old unfinished pieces, the other attractive groupings reconditioned for service and beauty by homemakers. Slipcovered and upholstered chairs, refinished chests and tables, chairs re-seated with cane or rush, and handmade rugs will be displayed.

The exhibit will be indicative of the home demonstration program as a whole in Kentucky, where last year in 95 counties, more than 103,-780 farm and rural families reported improvements as a result of the cooperative effort of the college and rural leaders.

THREE GAMES COPPED
(Continued from Page One)

The anticipated Bullittsville-Burlington doubleheader was abbreviated by a rain, but not until Bullittsville had scored a 7-4 six-inning victory. Barney Hogan came thru with his 16th triumph without a loss as he struck out 6 men in 6 innings. Roscoe Akins was on the hill for Burlington, but was tagged for 14 safe blows.

Dick Gaines was the big gun for Bullittsville as he drove out three hits. Chick Stephens had three hits in as many times at bat for Burlington. The second game of the scheduled doubleheader was rained out. Summary: Bullittsville 7 runs, 14 hits, 1 error; Burlington, 4 runs, 8 hits, 2 errors.

Big Bone overcame a 3-1 Burlington lead and scored three times in the bottom of the ninth to win a 4-3 victory over the county seat boys. Charley Black went the route for the winners and pitched a splendid game. Black struck out 8 as he won his eighth game. Joe Smith started for Burlington and turned in a beautiful performance as he whiffed 14. Smith was removed after one man had hit in the ninth and Stephens came in to receive credit for the loss. Charley Black helped his own cause with a triple and 2 singles. Akin's three hits were high for the losers. Phil Yelton hit a home run for Burlington. Summary: Big Bone, 4 runs, 10 hits, no errors; Burlington, 3 runs, 8 hits, 2 errors.

Belleview and Petersburg played a 14-inning 10-10 tie, which was called because of darkness.

Big Bone and Bullittsburg won forfeit games from Florence, while Petersburg-Bullittsburg and the Union-Verona games were rained out.

ESTABLISHED 1875

VOLUME 72 — BURLINGTON, KENTUCKY, THURSDAY, SEPTEMBER 18, 1947 — NUMBER 11

ALL-STAR SERIES IS ANNOUNCED

FOR BOONE COUNTY SUNDAY SCHOOL LEAGUE-FIRST GAME SCHEDULED AT VEROAN PARK OCTOBER 2ND.

The three game all-star series of the Boone County Sunday School League will begin at the Verona ball park Saturday, October 2nd at 2:30. The second game of the series will be played at Burlington, Oct. 9th and the final tilt is scheduled for Petersburg October 16th. Admission price of 25 cents will be charged with the receipts going to the 10 teams in the league.

The 250 players listed on the eligibility lists will choose the two squads for the games. The two teams will consist of the first, fourth, fifth, seventh and tenth teams in the standings composing one side and the remaining five teams the other squad. Ballots will be given to each player where he will choose 3 men from each team and 5 men at large from any of the 5 teams which compose the squad. Each voter will also vote for a manager. No ballots will be accepted or counted after September 22. Give them to the manager or mail them to Bob Brown, Burlington, Ky. who has been chosen as director of the series.

In choosing the all-star players, voters are urged to carefully consider all performers, then to vote for the men they consider the best. Batting averages were published in the Recorder three weeks ago and they have changed very little.

A trophy will be presented to the championship team in regular season play and individual awards will be given to each player on the winning all-star team at the conclusion of the final game. The Cincinnati Reds and A. B. Chandler, Commissioner of Baseball have been contacted to assist in the pregame ceremonies. Two of the Reds players and Paul Derringer, former Cincinnati Ace, will probably umpire the series.

Follow the papers for more information on this baseball highlight of Boone County. The league requests everyone's support.

BOONE COUNTY JERSEY HERD RATED FOR TYPE

The registered Jersey herd owned by Grant Maddox, Florence, Ky., has recently been classified for type under the program of The American Jersey Cattle Club, with headquarters in Columbus, Ohio. Professor Fordyce Ely of Columbus, O., an official classifier for The Cattle Club, made the classification of the Maddox herd.

Under the Jersey Herd Classification program animals are compared for type against the breed's score card which allots 100 points for a perfect animal. Animals are given individual ratings of Excellent, Very Good, Good Plus, Good, Fair or Poor in accordance with the number of points which they receive on the score card basis.

The eight animals classified in the Maddox herd include two Very Good, one Good Plus and five Good for an average score of 80.63 per cent.

Mr. Maddox is to be commended for the active part he is taking in the Jersey breed improvement program.

The Boone County Farm Bureau invites every farm family in Boone County to come to their first-annual picnic on Saturday, October 2nd at the 4-H and Utopia Fair Grounds in Burlington.

SEVEN PARTIES WILL BE LISTED ON NOV. ELECTION BALLOT

Seven parties will be certified for the presidential ballot in Kentucky in November, George Glenn Hatcher, Secretary of State, said today.

Names of the parties and their candidates, along with instructions for preparing ballots, will be sent to all county clerks shortly, he said. Hatcher said the ballot would be about 18 inches wide and 10 inches long.

The Democratic party will be first, on the left side of the ballot, because it's the party now in power, with Republicans in the second column and Socialists in the third. Socialists were put in the third column because they were the only other party with a candidate in the last general election—the gubernatorial race of 1947.

Others will be placed in the order in which petitions were filed, with the States' Rights Democratic party in the last column on the right side. Other parties are Socialist-Labor in the fourth column, New Progressive in the fifth and Prohibition in the sixth.

Henry A. Wallace's party is known generally as the Progressive party. But his petition here listed it as the "New Progressive Party" and that's the way it will go on the Kentucky ballot, Hatcher said.

FAIR WINNERS ARE ELIGIBLE

TO COMPETE FOR NATION-WIDE CROCHET CONTEST. 4-H AND UTOPIA FAIR WINNERS ARE HIGHLY PRAISED FOR THEIR WORK.

First prize winners in the crochet division at the 4-H and Utopia Fair, who are eligible to compete in the national finals of the Nation-Wide Crochet Contest, were announced today by Miss Mary Hood Gillaspie, Home Demonstration Agent.

Mrs. Grace Daugherty of Florence was awarded the Gold Sunray Trophy offered to the contestant whose crocheted piece was judged "Best of Fair." Mrs. Daugherty won first prize in the tablecloth classification. Other first prize winners were: Mrs. Dave Wingate, Erlanger, bedspreads classification; Mrs. L. Sullivan, Burlington, hats and bags; and Mrs. C. P. Gripshover of Burlington, edgings or insertions classifications.

The competition at the Fair was extremely keen, making it very difficult for the judges to select the top winners. This was the first year that a trophy had been offered for the best crocheted piece, and this incentive, together with the desire to compete for the title of "Grand National Crochet Champion" in the Nation-Wide Crochet Contest, produced some of the finest crochet work ever to be exhibited at the Fair. It was also announced that the 4-H and Utopia Fair is making plans to participate in the national contest again next year.

The finals of the Nation-Wide Crochet Contest will take place in New York City during the week of November 20th where first prize winners from over 500 local, county and State Fairs will compete. Following the judging, there will be an exhibition of all entries in the Winter Garden at the Hotel McAlpin from November 29th to December 3rd, which will be open to the public.

Mr. and Mrs. Adam Dolwick will be "at home" to their friends and relatives in honor of their silver anniversary on Sunday afternoon, September 19th from two until five P. M.

BULLITTSVILLE SURE WINNERS

IN BOONE COUNTY SUNDAY SCHOOL LEAGUE—BURLINGTON, BIG BONE, BELLEVIEW AND UNION WINNERS IN SAT. GAMES.

Myron Garnett, manager of the Bullittsville nine, boasted early in the year that he would lead his boys to the championship, proved his boast Saturday as his team drubbed second-place Sand Run 12-6. Barney Hogan, little right-hander, went the route to win his 17th triumph without a loss. Hogan struck out 8 and gave up 12 hits in posting the victory. Bud Goodridge, Sand Run left-hander, hurled the first 7 innings and allowed 6 hits and 11 runs. Bloebaum came in to pitch the final 2 frames. Sand Run comitted 9 costly errors to make the win easier for Bullittsville. Hitting on each team was about equally divided. Summary, Bullittsville 12 runs, 12 hits and 2 errors; Sand Run 6 runs 12 hits and 9 errors.

—Burlington picked up a game on Sand Run as Joe Smith turned in a neat 4-hit shut-out performance. Smith and Virgil Shields hooked up in a 0-0 deadlock for six innings when Burlington finally scored and Smith struck out 8 as he marked up his third victory. Shields was throwing a drop that was baffling the Burlington boys. Shields whiffed 5 and allowed but 5 scattered hits. Burlington had 3 double plays and Verona 2. Summary: Burlington 3 runs, 5 hits and 2 errors, Verona no runs, 4 hits and 2 errors.

Don Pitcher, Big Bone third baseman, paced the boys from the lick as they eked out a ninth inning 9-8 win over Petersburg. The win was the fifth straight for Big Bone. Shirley Gruelle pitched the first 3 innings where he was relieved by C. Black who received credit for the victory, his ninth of the year. Black struck out 7. Marvin Campbell whiffed 14 Big Bone hitters but was still tagged for his sixth loss. Don Pitcher with a home run, triple, and 3 singles one which drove in the winning run in the last inning copped hitting honors. S. Gruelle and D. Black with a triple and single weren't far behind. Bob Hodges and Lyons were the only players for Petersburg who hit safely as they each had a triple and 2 singles. Summary Big Bone 9 runs 14 hits and 7 errors, Petersburg 8 runs, 6 hits and 4 errors.

Ivan Cason allowed but 3 hits as Belleview beat Bullittsburg 7-1. Cason was master all the way as he recorded his 8th win. Bill Holliday was on the hill for the losers. The game was a 1-1 tie for 6 innings when Belleview broke loose in the seventh. John Walton drove out a single, double, and triple to lead the way for the winners, Cason with two doubles followed Walton in the hitting parade. Summary, Belleview 7 runs, 15 hits, 3 errors, Bullittsburg 1 run, 3 hits and 3 errors.

ELSMERE MAN KILLED FRIDAY

IN TRUCK ACCIDENT ON U. S. 25 INTERSECTION AT FLORENCE —DRIVER RELEASED UNDER $1000.00 BOND.

Services were held Sunday afternoon at 2:30 P. M. from the Ralph Stith Funeral Home in Florence for Herbert Neiburger, age 56, who received fatal injuries early Friday when his garbage truck collided with a produce truck from Owenton, Ky.

Neiburger was driving north on U. S. 25, Florence when another truck driven by Ben Sanders, negro, Owenton, Ky. collided with him throwing him into the highway and causing fatal injuries. He was pronounced dead upon arrival at St. Elizabeth Hospital, Covington.

Neiburger operated a small farm near Elsmere and also collected garbage in Erlanger, Elsmere and Florence for a number of years. He was known to most people in this section as Herbert Fisher, although Fisher was the name of his stepfather and Neiburger often used the name without adopting it legally.

The only immediate surviver is his widow, Mrs. Pearl Neiburger.

Sanders and his passenger, C. T. True, owner of the produce truck and an Owenton grocer, escaped without injuries, according to sheriff, R. I. Rouse. Sanders was charged with involuntary manslaughter as a result of the accident but was freed under $1,000 bond.

This is the second traffic fatality that has happened in almost the same spot where the old Florence road intersects the new U. S. 25 and 42 at Florence. "Doc" Stanley was killed in a very similiar manner and almost at the same spot several months ago.

Mrs. Knox who is the brides sister wore a light tan two-piece suit with matching accessories and her corsage was of white rosebuds. WALTON MAN KILLED BY SHOCK

WHILE WORKING ON LIGHT POLE NEAR VERONA, THURSDAY—FUNERAL SERVICES ARE HELD, SATURDAY.

Howell Roberts, 50, employee of the Community Public Service Co., Walton, was killed Thursday when he came into contact with a high-tension electric wire when working on a pole near Verona.

Roberts was removed to St. Elizabeth Hospital in an ambulance of the Chambers and Grubbs funeral home, Walton, during which time fellow workmen labored futilely at artificial respiration. Members of the Covington Life Squad added their efforts after meeting the ambulance at Covington. He was pronounced dead upon arrival at the hospital.

It was reported that Roberts was working near the top of a pole with a brace and bit. He turned and called a fellow workmen on the ground for equipment. While the workmen was obtaining the desired article he heard an electric arc and upon turning saw Roberts slumping in his safety belt.

Fellow workers removed Roberts from the pole. It was believed that the brace and bit evidently had struck a hot wire.

He was a veteran of World War II, having served in the Aleutian Islands with the U. S. Army.

Roberts is survived by his widow, Mrs. Helen Roberts, and his mother Mrs. Agnes Roberts, Walton; three sisters and two brothers.

Funeral services were conducted from the Chambers & Grubbs funeral home, Walton, Saturday at 2:00 p. m. with Revs. Don Hopkins and R. F. Demoisey officiating. Burial was in Richwood Cemetery.

Palmer, of Romeo, Mich., and Mrs. Hubert D. Woodruff, of Warrensburg, Mo.; one brother, Lloyd Norris, of Lawrenceburg, Ind., nine grandchildren and five great-grandchildren.

Funeral services were conducted at 2:30 p. m. Wednesday from the Petersburg Christian Church, with Rev. R. H. Carter, officiating. Burial was in Petersburg Cemetery.

BY DEFEATING BIG BONE 8-0 IN PROTESTED GAME — UNION, BELLEVIEW, AND BURLINGTON IN WIN COLUMN.

In a game which was protested to league officials by Big Bone, the second place Sand Run nine shut out Big Bone 5 to 0 in what was probably the best of Saturday's games in the Sunday School league. George Bloebaum Sand Run hurler was never in serious trouble as he limited Big Bone to 4 hits, while his mates backed him with errorless ball. Bloebaum fanned 16 of the Big Bone boys, while Charley Black was whiffling 10 of the Sand Run boys. Henry Dye led the winners at the plate with three safeties, while Pitcher and Cliff Rouse each had two for the losers. Summary: Big Bone, no runs, 4 hits, 1 error; Sand Run 5 runs, 10 hits, no errors.

Union defeated the last place Bullittsburg nine by the count of 6 to 1. The battery for the losers was Holladay and Tanner, while A. Knox and Moore hurled for Union with Black receiving. Summary: Union 6 runs, 10 hits, 2 errors; Bullittsburg 1 run, 6 hits, 2 errors.

Ivan Cason hurled his ninth win of the season as Belleview defeated Verona by the score of 12 to 2. Cheesman and Shields were on the hill for the losers. Top sluggers for the winners were Dave Clore with four bingles and Allen White with three. Summary: Belleview 12 runs, 15 hits, 4 errors; Verona 2 runs, 5 hits, 2 errors.

Burlington outscored Petersburg 13 to 6 in a loosely played contest at the loser's park. Akin on the hill for the winners gave up 13 hits, while fanning 10. Campbell and A. McWethy hurled for the losers and allowed only six hits, but Burlington capitalized on 10 walks and several Petersburg errors to chase over their 13 runs. Petersburg was led at the plate by Houze with two doubles and R. McWethy and Lyons with a single and triple each. Jimmy Smith batted in 5 runs with a single and triple to pace the winners at the plate. Summary: Burlington 13 runs, 6 hits, 2 errors; Petersburg 6 runs, 13 hits and 4 errors.

13TH ANNUAL MEETING HELD

BY BOONE COUNTY HOMEMAKERS—MISS IRIS DAVENPORT HEARD DURING AFTERNOON SESSION.

The Boone County Homemakers held their thirteenth annual meeting in Florence school auditorium on Thursday, September 16, from 10:00 a. m. to 3:00 p. m.

Mrs. Joe Hogan, County president called the meeting to order. The audience joined in giving the salute to the flag, then Mrs. Curtis Moore led in group singing. Mrs. Val B. Dolwick was the pianist. Mrs. J. C. Bedinger offered a prayer, and Miss Beverly Markesbery sang a very beautiful solo.

The business meeting was then called. Mrs. Earl Morehead, County Secretary and Treasurer read the minutes from the twelfth annual meeting, and gave the treasurer's report. Mrs. Stanley Ransom gave the report of the nominating committee—which was that the present officers serve a second terms. This report was voted on and accepted, so officers for 1948 and '49 year will be Mrs. Joe Hogan, president; Mrs. Virgil Kelly, vice president; Mrs. Earl Morehead, secretary and treasurer.

The annual reports were given in the form of a press conference—and these reports showed a great work being done by the Boone County Homemakers, and the 4-H clubs of Boone County.

After the recognition of visitors, Mrs. William Hill favored the group with some special piano music, which was beautiful.

Lunch was served by the Hughes Catering Service of Cincinnati, and was a very delicious lunch.

In the afternoon meeting Mrs. Thomas McCrann read several humorous skits which she had written, and these were greatly enjoyed.

The homemakers who had made garments during the tailoring class modeled these garments in the afternoon, and it was clearly seen what great benefit was received from these classes.

Miss Iris Davenport, woman's editor of the Southern Agriculturist, was the main speaker of the afternoon. She spoke on distinctive dress, and covered the subject so thoroughly and interestingly it left no excuse for the women of the Homemakers clubs not to be attractively and distinctly dressed, even on a small allowance.

The meeting was adjourned by the entire group singing "Now is the Hour."

TEAM PULLING CONTEST OCT. 9

WILL BE SPONSORED BY GROUP OF BURLINGTON MEN AT 4-H AND UTOPIA FAIR GROUNDS—DETAILS TO BE ANNOUNCED.

A group of Burlington men will sponsor an afternoon and evening of entertainment at the Boone County 4-H and Utopia fair grounds, Saturday, October 9, it was announced this week. All proceeds of the affair, which will include several classes of team pulling, special stunts, amusement stands, refreshments, old time and popular music and a square dance, will go for the improvement of the Burlington school playground and for promotion of sports for local youngsters.

Complete details of the program will be announced next week those in charge stated.

In connection with their planned program the following poem which hangs in a frame at the Evren Grill, Burlington, is the real theme of their idea. The poem:

(Glitter and glare and sin!),
Plenty of room for dives and dens
Plenty of room for prison and pens
(Gather the criminals in!),
Plenty of room for jails and courts
(Willing enough to pay!),
But never a place for the lads to race,
No, never a place to play!

Plenty of room for shops and stores
(Mammon must have the best!),
Plenty of room for the running sores,
That rot in the city's breast!
Plenty of room for the lures that lead
The hearts of our youth astray
But never a cent on a playgrounds spent,
No, never a place to play!

Plenty of room for schools and halls
Plenty of room for art;
Plenty of room for teas and balls,
Platform stage and mart.
Proud is the city—she finds a place
For many a fad today,
But she's more than blind if she fails to find
A place for the boys to play.

Give them a chance for innocent sport,
Give them a chance for fun—
Better a playground plot than a court
And a jail when the harm is done!
Give them a chance—if you stint them now,
Tomorrow you'll have to pay
A larger bill for a darker ill,
So give them a place to play!

SCHOOL BUS LAW TO BE ENFORCED

SAFETY OF CHILDREN IS PARAMOUNT, ACCORDING TO COMMISSIONER OF STATE POLICE, GUTHRIE F. CROWE.

Frankfort, Ky., Sept. 23—Commissioner of State Police Guthrie F. Crowe today announced a policy of vigorous enforcement of the law which requires motorists to stop their vehicles when there is a school bus ahead either receiving or discharging school children.

The law requires motorists to come to a complete stop in such circumstances in residential and business districts, said Crowe, and only permits passage of school busses outside those district provided the passing motorist drives cautiously and does not exceed ten miles an hour in speed.

"Safety of our school children is of paramount concern," Crowe added. "We intend to enforce this law vigorously, without fear or favor. Safety of the public, as well as school children, requires it."

He added, too, that his force also intended to be on the lookout for drunken drivers as a menace to safety.

"It is our intention to handle the traffic problem as expeditiously as possible," he continued "but it is also our function to protect the traveling public against those who would endanger the lives of others."

AUTO THEFT SECTION STARTED

BY STATE HIGHWAY POLICE—CROSS-INDEX SYSTEM WILL HASTEN IDENTITY BY EITHER LICENSE OR MOTOR NUMBER.

Frankfort, Ky., Sept. 23—Establishment of an auto theft section of the Kentucky State Police by which stolen automobiles may be identified was announced today by Commissioner of Police Guthrie F. Crowe.

Commissioner Crowe said a cross-index system is being installed by which ownership of any vehicle can be told quickly by either license or motor number. Facilities of the Department of Revenue's automobile license section will be utilized in establishing the new section from which data will be obtained giving the desired information.

"The cross-index will be of invaluable aid to the State as well as local law enforcement agencies," Crowe said. "Any time an abandoned vehicle is found, we can trace its ownership through the motor number of the vehicle.

"This service will be worth much to the owners of motor vehicles. It is just another step in the building up of what we hope will become one of the most efficient police systems in the country.

Commissioner of Revenue H. Clyde Reeves said that he was happy to extend facilities of the Department of Revenue to "this laudable and most helpful undertaking."

Better light means a better student!

HOMEWORK requires concentration, close attention to small type, more work for young eyes. BETTER LIGHT is needed to make seeing easier . . . prevent fatigue and drowsiness caused by eyestrain.

Help make your child's homework easier by seeing that he has plenty of good light at his study table. Equip his lamp with bulbs totaling at least 100 watts—and see that it is properly shaded to spread the light and prevent glare.

BETTER LIGHT means BETTER GRADES!

IN MEMORY

Of Myrtle Baker Dixon, August 23, 1948.

There came on the wings of the morning
A messenger silent and grim,
Who beckoned to sister to follow,
And she quietly went with him.
Uttering no murmur or protest,
But smiling serenely and sweet,
She left us in grief and sorrow
Her Saviour and Maker to meet.
She has gone where the loved ones are in glory
Are free everymore from pain
And we shall think of the great reunion
As we journey there one by one.
Of the welcome that surely await us
When our earthly tasks are all done
For sister will be there to meet us
With outstretched hands and a smile
And the parting we now feel so keenly
Will be for just a short while;
And we'll try to be brave and smiling
Though our hearts be ever so sad.
1tp —Sadly missed by the family

VOLUME 73 — BURLINGTON, KENTUCKY — THURSDAY, SEPTEMBER 30, 1948 — NUMBER 13

Thousands View Change Made By Conservation Caravan at Huey Farm Wednesday, September 22nd

Complete Farm Remaking Program Achieved In One Day at Lassing Huey Farm Near Union; Value of Farm Doubled According to Estimate

Men and machines swarmed over the farm of Lassing Huey in Boone County, Wednesday, and in one day completely made over the farm, while thousands of visitors watched the transformation in amazement.

A month ago, Huey's farm was a typical Boone County farm, no worse perhaps than many, but decidedly eroded and in need of soil conservation. Today it is a good example of how thousands of old, worn-out Kentucky farms can be brought back into productiveness.

To see this miracle, an estimated 5,000 people came early and stayed late. Automobiles, trucks, and buses covered acres of parking space. Press and radio representatives were present. Potographers made pictures, and agriculturnl experts observed and directed.

More important was the volunteer workers and the $150,000.00 worth of farm equipment without which the job simply could not have been done.

But done it was. Work got underway at 8 o'clock Wednesday morning. By 11 o'clock various pieces of equipment were already idle, their job completed. By 3 o'clock, much of the Caravan had been assembled and was rolling down highway 25 en route to another face-lifting job in Fleming County, Friday.

Achieved in the one day was a complete farm remaking, a soil conservation program established that would take the average farmer from 3 to 5 years to accomplish. Farmers present estimated that in the process the farm's value had doubled.

Conservation practices established included the construction of soil holding terraces on cultivated land, diversion ditches on pasture land, pasture land established, a farm pond built, cultivated land limed and fertilized, an old pond torn down and smoothed out, and many others.

Preparation for the face-lifting had been underway for some time. Several months ago the State Association of Soil Conservation District Supervisors began casting about for some means of speeding up soil conservation in the state. Some one came up with the idea of assembling a lot of heavy farm equipment in a Caravan, take it about over the state, and hold a series of field days at which complete soil and water conservation programs would be established in one day.

The Caravan left Louisville, September 18. The Huey farm was the first one to be visited. Eleven more farms over the state will be remodeled before the Caravan ends in Larue County, October 19. The 30 days the Caravan will be on the road has been proclaimed Conservation month by Gov. Clements.

At 1:30 Wednesday afternoon, visitors assembled at the New Haven School for a speaking program, just after lunch had been served by New Haven Parent Teachers Association.

Dr. T. S. Buie, Regional conservator, Soil Conservation Service, Spartanburg, S. C., was the principal speaker. Dr. Buie told the gathering about the need for soil conservation in Kentucky and pointed out that if we shirk the responsibility of safeguarding our remaining land resource and keeping it permanently productive, the penalty will be a declining economy for everyone.

"A face-lifting demonstration like this one is a mighty fine thing," Buie pointed out. "Here on a single farm visitors are seeing a complete soil conservation program established in a single day. It would require longer for the average farmer to do this, But it can be done, and in most cases with the equipment found on the average farm."

A final word of recognition might be given the contributors who made the demonstration possible. Machinery and equipment was provided by: Allstin-Western Co., B. F. Avery Plow Co., J. I. Case Co., John Deere Co., Ford Monarch Equipment Co., International Harvester Co., Roy C. Whayne Supply Co., Brandeis Machinery Co., Williams Tractor Co., Lehr Equipment Co., Thurston Cooks Equipment Co., Fertilizer contributors, Federal Chemical Co., Harmour Fertilizer Works.

To them and to all others who helped to make the demonstration a success, and to the district supervisors and others who contributed time and effort, Mr. and Mrs. Huey express their appreciation and thanks.

BOONE COUNTY PROJECT—Officials of Boone county and the Kentucky State Highway Department are shown above as they inspected a water table on River road, between Rabbit Hash and Dam No. 38 upon its completion recently.

This and a nearby simliar project cost a total of approximately $3000 and their construction was sponsored by the Boone County Fiscal Court. They permit water to continue on its way beneath the roadway instead of flood over it.

Those in the photo, left to right are: Front row, Highway Department Maintenance Superintendent J. B. Allphin; Assistant District Highway Engineer Robert C. Aldridge; Boone County Magistrate H. E. White, and County Judge C. L. Cropper. Second row: W. J. Craig, Rabbit Hash merchant who was contractor on the project; Ralph Thornton of the Colonial Coal and Supply Co., Erlanger, which furnished materials, and R. Mattox, highway department maintenance engineer.

Bob And Gene Takes Title In Benke Semipro Baseball League By Downing Verona Sunday 15-11

Will Meet Boone County VFW Nine For Three Games4 Series Beginning Sunday, October 3rd at Florence Park 2:30 p. m.; Good Games Promised.

Bob and Gene took the undisputed championship of the Benke Semipro Baseball League by defeating Verona 15-11 Sunday afternoon at the Verona park, marking the third straight victory for Bob and Gene in the title series.

Ivan Gulley was on the mound for the Verona nine, and though allowed 15 hits, went the distance. Pund started on the mound for Bob and Gene but was relieved in the eighth inning by Stan Arnzen. Thirteen errors were committed in the game, the winners having seven charged to their credit.

The winners scored six runs in the first inning. In this rally Kilmer belted a triple and Connor and Schmidt, tagged home runs.

Verona collected a run in their half of the first inning on two walks and three errors and added two more in the third on a walk, two hits and an error.

Bob and Gene added two runs in the third, two in the fourth and two in the fifth inning. Verona added three in the fifth when Robinson hit a home run with two on base.

Dutch Reibling hit a triple in the first of the eighth for Bob and Gene as they scored three runs to increase their margin to 15-6. In the last of the eighth, four singles and a triple combined with a hit batsman accounted for five Verona runs and brought Stan Arnzen to the mound for the winners.

Bauman led the losers with three hits, while Robinson and Gulley added two each. Stan Arnzen topped the winners with three hits, while Connor, Mahan, Sebree, Schmidt and Pund added two each.

Bob and Gene and the VFW nine will play a three-game series with the first game being scheduled for Sunday afternoon at 2:30 at the Florence grounds. Proceeds from these games will go for the benefit of the VFW home, it was reported.

These games should be highly interesting, and all baseball fans in this section are urged to see these games, and add a worthy cause.

Benefit Donkey Baseball Game Is Scheduled Saturday

At Walton Ball Grounds Under Sponsorship of Walton Rotary Club.

The Donkey Baseball game which is being sponsored by Walton Rotary Club and which will play one night only Saturday, October 2 at the Walton-Verona high school, is billed as the sensation of the nation. Proceeds from the game will be used for the school playgrounds.

It promises to be an evening packed with plenty of laughs. All of the players are mounted on donkeys except the catcher, pitcher and batter and regular baseball rules are used. The donkeys used are Santa Fe bred burrors raised on the U Ranch near Santa Fe, N. M., which have been specially trained at the famous Green Valley farms. Each donkey has a mind of its own and all of them have different traits and characteristics so they have been named after famous personalities.

According to Miss Jane Dillon, the Counselor, who is here working with the Amusement Enterprises, Inc., the string of donkeys which will be used in the game here will arrive by truck with their trainer on the afternoon of the game and they will be paraded through the business district prior to the game. You can distinguish the donkey named Dick Tracey by his jutting jaw; Mae West is the gal with a mind of her own; Super-Man is little but mighty; Gypsy Rose Lee is the gal who won't keep anything on, not even good ball players; Frank Sinatra is the name given the biggest Hee-Hawer in the lot; Mr. Milquetoast is not as gentle as his name would indicate; Miss America is the one with the million dollar legs and tapering ears; Betty Grable is the one who is fat in the best places. All the donkeys are worth seeing and plenty of excitement is promised those who attend the game.

The game will be played to determine hometown champs of the court. Honorable Mayor Dan Roberts will throw the ball in. The announcer Johnny Meador will use a public address system to give a play by play description of the event so that it can be heard on all parts of the grounds.

The game will be played between the Walton Rotary Clubs and Walton Lions Club.

High point of comedy for the evening promises to be the Lady Godiva Relay Race. This will be a feature of the evening's entertainment. The object of the race will be to see which team can take a suit case filled with women's clothes, ride from one end of the diamond to other, unpack the suitcase and put on the cloth, get back on the donkey and ride back to other end of court; take off the clothes again and put them in the suit case, hand this suitcase to their team mate who repeats the performance. The first man who gets back to original starting point wins.

The fun starts at 7:30 when the announcer says, "Play Ball!" Judging from the large advance ticket sale there will be a big crowd attending, but tickets may still be purchased from organization members and they will be on sale at the grounds on the night of the game at 6 o'clock.

Pulling Contest Promises To Be Interesting Event

Will Be Held At Boone County 4-H and Utopia Fairgrounds Oct. 10.

What promises to be the greatest draft horse team pulling contest ever staged in this area will be held at the Boone County 4-H and Utopia fairgrounds Saturday afternoon, October 9, beginning at 1:30 p. m. All pulling rules regulating the contests will be the same as during the recent event held at the 4-H and Utopia fair, officials said. Judges will be Lillard Scott, Ted Cress and Burt Loomis.

Highlighting the evening's entertainment, beginning at 8 o'clock, will be an old time "dancing under the stars" hillbilly dance. Music will be furnished by Winfield Waters and his famous string band.

Other features of the day will be band music furnished by the Boone County school band, amusement stands and plenty of good refreshments including sandwiches, popcorn, soft drinks and coffee. A special entertainment to be announced next week will be presented prior to the horse pulling contest.

The entire receipts of this program will be used for improvement of athletic and playground facilities for local youngsters. Admission prices will be fifty cents for adults and twenty cents for children 16 and under, and one ticket entities a person to all sessions it was announced.

John Philson

Funeral services for John Philson, Belleview, were held at the Belleview Christian Church at 2:30 p. m. Friday, with burial in Belleview Cemetery.

Mr. Philson, 51, died Tuesday night in the cabin of a government river boat on which he was stationed on Green River, at Calhoun, Ky. The coroner of McLean county attributed death to a heart attack. Mr. Philson had been employed by the government more than 25 years.

Burlington Eagles Draw First Blood In 6-Man Opener

Approximately 1,000 See Game at 4-H Fairgrounds Tuesday Night.

Burlington Eagles defeated Hebron Cardinals 26-21 in the first 6-man football game ever played in Northern Kentucky, Tuesday night at Burlington before approximately 1000 interested, but curious fans.

Burlington reached pay dirt first in the opening quarter when Johnny Cropper scored on a quarterback sneak; Hebron's speedy back Elliston, added two quick touchdowns and Tanner added two points on a kick for a 14-6 lead. The Eagles knotted the count when Miller ran from his own 1-yard line for a 6-pointer and McBee converted for two points.

Hebron went ahead 21 to 14 in the third period on a pass to Tanner for a touchdown and an extra point on another pass to Tanner. (Points after touchdown are two for a valid kick and one for a pass or line plunge).

Burlington on another quarterback sneak by Cropper added 6 more points in the third quarter. McBee failed on the conversion. The Eagles scored their winning marker midway in the final quarter when Patterson went into pay dirt after a sustained drive from Hebron's 37-yard line. Again the Eagles failed on the extra points.

Statistics showed: Score, Burlington 26, Hebron 21; 1st downs, BHS 9, Hebron 7; Passes attempted: BHS 19, Hebron 16; Passes completed, BHS9, Hebron 7; Penalty, BHS, 5 yards, Hebron 35 yards.

"I'm surprised at the brand of ball and the excitement of the game" was the general comment of most football authorities at the game.

There were no serious injuries sustained.

Next week it will be Florence vs. Hebron at Burlington.

CORPORATIONS

A corporation is only an arrangement whereby individuals may own a part of the company and share in its profits in the form of dividends paid to its stockholders. It enables small investors to share equally with large investors in proportion to the amount each may have invested. Any law or movement detrimental to a corporation merely hurts the individual owners of the company, who are mostly small investors owning one share or more.

A bank is a corporation, owned by many small, medium and large investors. We would not have banking service were it not possible to form a corporation and sell the bank's stock to many individuals. No one or two men would have sufficient funds to start a bank.

Major Objective Is To Find Place of Poultry in General Farm Economy.

Pure Food Show Will Be Biggest Ever Staged

Arrangements Completed For 'Strike-It-Rich" Radio Show To Be Staged.

Larry Baumbach, Newport Grocer and Secretary-General Manager of the Sixth Annual Pure Food Exposition which is sponsored by the Northern Kentucky Independent Food Dealers' Associations, announces that this year's show will be the biggest ever staged.

The Kentucky Times-Star and the Union, Light, Heat and Power Company will again sponsor the Cooking School at which there will be many valuable major prizes given away; as well as free baskets of groceries. Each afternoon there will be a free social and radio broadcast.

Mr. Baumbach has completed arrangements to bring the "Strike-It-Rich" radio program from New York to originate from the stage of the Pure Food Show. This program will be broadcasted on Sundays, October 3 and 10th from the stage via the Columbia Broadcasting System at which time thousands of dollars in cash prizes will be given away. If you would like to appear on any of these broadcasts for the valuable cash prizes, you must write a letter to radio station WKRC, Cincinnati, Ohio, and tell them why you would like to Strike It Rich. The Strike-It-Rich program headed by Todd Russell will appear on the stage of the Food Show from Monday, October 4th to Saturday, October 9th each evening from 8 to 9:00 p. m. and will do an audience participation show at which many valuable gifts will be given away. There will be a number of persons in Northern Kentucky who will be lucky winners of cash and thousands of dollars worth of major prizes.

This is the first opportunity the people of the Greater Cincinnati area have ever had to view and participate in a big-time radio program and quiz show. Heretofore, these shows mostly originate in either New York or California which is too great a distance for residents of Northern Kentucky to travel.

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY

- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices—not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

how limestone helps keep your farm productive

When you apply limestone to your farm land you accomplish several important things at one and the same time.

1. You replace the calcium and magnesium (lime) that have been lost through cropping, erosion, and leaching.
2. The acid condition of your soil, that has developed as the result of the loss of lime, is corrected—that is, the soil is "sweetened."
3. The activity of favorable bacteria is stimulated; the decay of organic matter, such as manure, straw, roots, and stubble, is hastened; and the nitrogen-forming processes are promoted.
4. Other plant foods, especially phosphorus, are kept in more available form.
5. Soil structure is improved; heavy clays and silts are made looser and easier to till.

Lime a part of your farm each year and make this operation a regular part of your farm program.

VOLUME 72 — BURLINGTON, KENTUCKY THURSDAY, OCTOBER 7, 1948 — NUMBER 14

"B" All-Stars Take Opening Game In Three-Game Series At Verona Grounds Saturday Afternoon

Second Game of Series Will be Played at Burlington Saturday, October 9—Final Game Will Be Played At Petersburg Park, October 16th.

The three-game, Boone County Sunday School League All-Star series got underway Saturday at Verona as the favored "B" squad, under the guidance of George Stahl won by a 5-3 count. The game was exciting and well-played thruout.

Saturday, October 9, the second game in the series will be held at Burlington. The game will begin at 2:45. A tribute to the league and a first patriotic ceremony will take place immediately before the game begins, according to Bob Brown, series director. All men who participated in the loop are urged to attend the game. A public address system will be used to help fans keep up with the game.

The final game of the series will be held at Petersburg, Saturday, October 16. At that time individual awards will be presented to each man on the winning All-Star team, and manager Myron Garnett of the championship Bullittsville team will be given the championship trophy. The league's top batter and pitcher are also scheduled to receive an award.

Excellent baseball is on the program for each game as each fan will testify after Saturday's contest. oJe Rouse, of Verona, manager of the home team, sent the Union veteran Scott Jack to the hill with Bobby Moore of Union as the receiver. Gaines, A. Knox, B. Hogan and Pitcher rounded out the infield with Colston, Aylor and J. Hogan comprising the starting outfield. George Stahl, Sand Run skipper, selected George Bloebaum, who notched up 10 victories in season play, to do the hurling honors with Judy behind the bat.

Each manager used 18 of the twenty players on his squad. The game was well played especially considering that many men were forced to play out of position. The pitching apparently was equally divided with the Stahls holding an edge in catching. Stahl also has an advantage at short and second, but Rouse has a better outfield and has more power, with the Stahls holding an edge in consistent hitters.

Rouse will either start Charley Black or Milly Pepper Saturday, while Roscoe Akin or Ivan Cason loom as Stahl's probable hurlers.

This series is played by Boone County boys, from Boone County teams and for Boone County baseball fans. It is confined to our own county, let's support the teams by your interest and attendance. If you like good baseball, come to Burlington Saturday, October 9. Admission will be 25c.

Runs Batted In: Stephens, Rouse, Bloebaum, Dye, Ryle, A. Knox, R. Knox2. Two base hits: Stephens, D. Rouse 2, Bloebaum. Three base hits: Walton, home, run; R. Knox Stolen base, Ryle, Judy, Smith, and Pitcher. Sacrifice, Pitcher, Bloebaum. Left on base: Stahls, 6; Rouse 9. Winning pitcher: Bloebaum; losing pitcher, Jack. Time, 2 hours and 14 minutes. Umpires, Hobe, Brown.

Stephens, Sprague, Ryle and Walton were Stahl's inner defense, with Dye, Smith and D. Rouse in the outer gardens.

The winners drew first blood when "Chick" Stephens lashed out a double to score Jim Ryle who had singled. Rouse's squad came back to fill the bases with one away, but scored only once when Al Knox came through with an infield single. Bloebaum and Jack each whiffed two in the first round. Judy singled and score on Dud Rouse's double to start off the second inning, then with two down Bloebaum doubled to score Rouse and gave the Stahl nine a 3-1 lead. Bloebaum bore down and allowed but three scattered hits the next four inning and ran his strike-out total to five. Layne Cheesemen worked the third and fourth frame and pitched good ball as he gave up but two hits, Dud Rouse's second two bagger and Dye's single which scored Rouse.

Milly Pepper, Bullittsburg fireball hurler, worked the fifth and sixth inning and set three down on strikes. John Watson drove out a long triple for the only safety off Pepper.

Marvin Campbell, young Petersburg hurler, came in the sixth and pitched excellent ball. Roger Knox stepped into the role as a hero when he pinch hit a mighty home run in the seventh inning off Campbell. Charley Black of Big Bone was Rouse's choice to work the last three innings and Black rewarded Rouse with no-hit ball for the final three frames. Black struck out 5 batters, and allowed but one base runner. Ivan Cason, the league's only southpaw, went the last two rounds and also pitched hitless ball, although he allowed the losers their final run on two errors and a field's choice. Cason finished the game by whiffing the final two hitters. Dud Rouse was the most successful hitter in the contest as he collected two doubles. Rouse was the only player with more than one hit. Sprague and Shields turned in the best fielding plays.

National Fire Prevention Week October 3-9th

Rural Residents Urged To Observe Week Proclaimed by President

Rural residents of this area are being urged to observe Fire Prevention Week proclaimed by President Truman, October 3-9. Fire hazards are more numerous on farms than in towns and cities, and farm fires are frequently more serious because organized firefighters are farther away.

Latest census figures show that about one-fifth of the people of the United States live on farms, while latest fire statistics show that one-third of the people who are killed by fire are farm residents. In 1947, fires caused about 11,000 deaths, 3,500 of them on farms.

The national fire prevention association lists eight hazards which are responsible for nearly all fires in rural areas:

1. Careless smoking habits.
2. Accumulation of debris.
3. Improper storage of gasoline and kerosene. Flammable cleaning fluids.
4. Children playing with matches
5. Dirty or defective lamps and lanterns. Dirty engines and machinery. Dirty heating plants and chimneys.
6. Defective electrical equipment and frayed cords.
7. Flammable wood shingle roofs.
8. Improperly cured hay in barns.

Don't be careless or indifferent about fire hazards. Fire is always ready to accept your invitation to destroy you—so don't invite it. Fire safety is easy—just help yourself by eliminating the common fire hazard during Fire Prevention Week.

Hebron Cardinals Trounce Florence Knights 55 to 26

In Second Game of 6-Man Football Tuesday Night; Large Crowd Attends.

It was just too much "Elliston" for Florence as Hebron's Cardinals defeated the Knights 55 to 26 in the second Boone County School 6-man football conference game at Burlington Tuesday night before a crowd of more than 1000.

Jim Elliston, Card speedy back, scored three touchdowns and kicked for six extra points. He consistently gained thru and around the Florence line and was effective on both passing and puting.

Tanner, another shifty Card back also hit pay dirt three times and scored an extra point on a pass from Hoppenjans. Hoppenjans and Abdon also scored touchdowns for the Cards.

For the Knights, Henneman, lanky end scored twice, Lipscomb and England added the other six-pointers and Stansel booted for two extra points.

Early in the first quarter Elliston returned a Florence punt for 65 yards for the first score. His kick for extra points missed. A few plays later Elliston intercepted a Florence pass about midfield. The Cards on line plays moved the ball to Florence's 20, where Tanner scored around the end. Elliston converted for two points.

The Cards recovered a Knight fumble on the Florence 29. Tanner scored around left end on the next play. Elliston booted for two points to make the score 22-0 as the first period ended.

The Knights came to life in the second quarter as Lipscomb intercepted a short Card pass and ran 25 yards for a score. Stansel's kick was good. A few minutes later Henneman scored thru the center. The conversion was no good.

Just before the half Hebron's Tanner ran 20 yards for the end zone to make it 28-14 in favor of Hebron.

Early in the second half Hebron received on their own 20, moved to the Florence 20 and then a pass, Tanner to Elliston was good for six points. The conversion by Elliston was bad.

Hebron kicked to Florence. A pass of 20 yards to Henneman moved the ball to Florence's 15. Hebron then recovered a Knight fumble on their own 19. Florence recovered on a Card fumble and two beautiful passes, Roland to Henneman, hit pay dirt. Florence failed on the conversion.

Hebron on a series of passes and line plunges moved to the Knight 4-yard line, but they failed to go over.

In the last quarter, Florence took over on their own four. On the second play Hoppenjans intercepted Roland's pass for a touchdown. Elliston kicked which was good to run the score to 42-20 for the Cards.

On an exchange of punts Elliston for Hebron ran to the Knight 6-yard line.. Two plays later he scored, and missed the conversion.

Erection of New Church At Union Well Underway

Ground Breaking and Dedication Ceremonies Held Last Week.

After singing songs of thanksgiving and prayer the spade was handed by Rev. Foy Martin, our pastor to Mr. and Mrs. James A. Huey, the only two living charter members of our old church which was founded in 1890, that they might have the honor of turning over the first soil, after which all who were present lifted a spade of soil.

In announcing the beginning of the new building members stated, "We are thankful to God that thru Him it is possible that we will have a new building dedicated to Christian service in our community."

At this writing the basement has been dug and is now ready for the masonry.

Here's what Professor Emil Truog of the University of Wisconsin, one of our foremost soil scientists, has to say about soil liming:

"About three-fourths of the cultivated land in our humid regions needs lime. What would happen if farmers stopped applying it? Just this: Yields on lands where more than half of our agricultural crops are now produced would start to go down. For a few years we would not notice the decline very much. In a decade it would become quite pronounced. In 30 years or so the yields might be cut in half; in 50 years the result would certainly be hunger and disaster. And not only would harvests drop; control of soil erosion would become increasingly difficult."

Make liming a regular part of your farm program. Lime a part of your farm each year. It costs so little and the returns are high.

THE GREAT TOE

N. TULCH
Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Do you know that the great toe supports the entire weight of the body for an instant, in the last act of walking?

The foot muscles acting upon the four lesser toes preserve the balance of the body by causing the toe to grip in the shoe and in the last act of walking to give the final spring, or "take off." By their attachment the toes flex at their first (holongel) points and extend at their second and third joints, so that the ends of the toes are pressed upon and grip in standing so as to form powerful propelling levers as the body swings forward upon the toes.

Now, take off your shoes and look at the bottom of your toes. In every case (there are few exceptions) you will see where the fleshy tissue on the bottom ends of the toes comes to a point, from being forced tight together and in many cases the toes themselves lap over one another. This is positive evidence of ill fitted and ill shaped shoes. This continued distortion of toes in many cases leads to bunions, Hommar toes and other toe defects.

Lack of balance will cause you to walk incorrectly and create strain in other parts of the body, inducing fatigue, pain and more misery, NOT ONLY in the feet, but even in the back of the neck and headaches. Resolve right now to correct this condition.

It costs you nothing for a thorough analysis of your foot problems and difficulties. Remember you can't be HAPPY with UNHAPPY FEET.—Adv.

Farmers Urged To Bring Soil Samples To County Agent's Office

Farmers in Boone County are urged to bring soil samples in the County Agent's office for testing.

The need for lime and phosphate fertilizer differs between sections of the County and even between fields on a farm. A general recommendation for liming or applying fertilizer does not always meet the needs of an individual field. A soil test gives an accurate indication of the amounts of lime, phosphate and potash that are available to the crop grown. After a test of the soil an accurate fertilizing program can be established that will meet the needs of the crop without wasting expensive fertilizers.

Soil samples should be collected by taking equal amounts of soil from 8 to 10 spaces in the field. Remove the grass or weeds and then using a spade make an opening having one straight side to plow sole depth. From this straight side remove a slice of soil of uniform thickness. Put all the samples together, mix them well and take out ½ pint of the mixture for testing. Samples may be taken at any time when the soil is dry enough to plow.

Candidates Are In The Stretch

Candidates have twenty-five more days to conduct their campaign, and many are now drawing a sigh of relief as the election day Tuesday, November 2, draws near.

Yes, there are many voices that are horse from words spoken in their behalf; hands are weary from greeting the voters, and backs are sore from the slaps of admirers.

Amidst the hurry and bustle of last-days campaigning, L. R. Gulley handed us the following clipping, which adds humor to the otherwise tense situation. It tells of a report filed by a candidate concerning his expenditures. Here is what he said:

"Lost 1347 hours' sleep thinking about the election; lost two front teeth and a lot of hair in a personal encounter with an opponent; donated a beef, four pigs, and five sheep to a community barbecue; gave away two pairs of suspenders, four calico dresses, $5 in cash and 13 baby rattles; cut 2500 sticks of tobacco; 500 shocks of corn; dug 100 bushels of potatoes; kissed 126 babies; kindled 14 kitchen fires; put up two stoves; walked 4074 miles, shook hands with 9508 persons; told 10,101 lies; talked enough to make in print 893 volumes; attended 16 revival meetings and was baptized four times by immersion and twice in other ways; contributed $50 to foreign missions; made love to nine grass widows; spent $106 at box suppers; hugged 49 old maids; got dog-bitten 37 times—AND WAS DEFEATED.

Beauchamp Plans For Rural Roads

Asks Co-Operation Of Officials And Citizens In Project.

Frankfort, Ky., Oct. 7—Emerson Beauchamp newly appointed Rural Highway Commissioner in charge of an expanded rural road program, declared today his intention to work toward development of a rural highway program in co-operation with county officials, public spirited groups and his associates in the State Highway Department.

"I intend to go to work immediately on plans for next year's rural road program," said Beauchamp. "The building of rural roads is not to be undertaken in a haphazard fashion," he said.

"We want the best advice possible, and we welcome suggestions from people in the counties—officials and citizens alike—on what roads are needed most. Then with co-operation of every one, local groups, county and state officials, we expect to proceed."

Beauchamp said, too, he intended to study proposed suggestions that are being made by the Highway Department's engineering staff as to the best method of distributing the funds to be spent under the increased gasoline tax law passed by the 1948 General Assembly. The new road year begins next April 1.

A definite method has not been determined upon how the additional funds are to be spent. The act makes it discretionary with the Highway Department as to how it will be expended, but tenative plans call distribution of a portion of the funds in each county in the state.

The Governor already has promised that beginning next spring the tax money from this source will be equitably distributed among the 120 counties of the State.

It is estimated that the added gasoline tax will bring into the Treasury approximately $8,000,000 which will be available for expenditure next spring.

In addition, Beauchamp will supervise expenditure of the $5,000,000 annual fund previously voted by the General Assembly for expenditure in the counties under a precise statutory method of distribution.

CORPORATIONS

A corporation is only an arrangement whereby individuals may own a part of the company and share in its profits in the form of dividends paid to its stockholders. It enables small investors to share equally with large investors in proportion to the amount each may have invested. Any law or movement detrimental to a corporation merely hurts the individual owners of the company, who are mostly small investors owning one share or more.

A bank is a corporation, owned by many small, medium and large investors. We would not have banking service were it not possible to form a corporation and sell the bank's stock to many individuals. No one or two men would have sufficient funds to start a bank.

NEW HAVEN HOMEMAKERS

The devotional was given by Mrs Arnold Conrad, after which new officers were installed, Mrs Geo. Moody, president; Mrs. Ed Grater, vice president and Mrs. Don Hopkins, secretary and treasurer; also various committees were appointed. A beautiful gift was presented to Mrs Grater, the retiring president, by members of the club. A delightful lunch was served at noon, and, oh, oh, you should have tasted "Tonia" Bowen's country ham.

After lunch a very interesting program was enjoyed by members and visitors.

Mrs. Joseph Huey read a very lovely poem entitled, "Kentucky."

One of our very charming new members, Mrs Clarence Wolfe, brought the lesson Style Trends, in a most interesting and helpful manner. She showed many illustrations of the present styles, in clothing, accessories and jewelery.

Plans were discussed for annual meeting and delegates named.

Those who enjoyed Mrs. Bowen's hospitality were as follows: Mesdames Don Hopkins, M. C. Owens, Henry Fisher, Ed Grater, Geo. Moody, Arnold Conrad, J. O. Griffith, Stanley Ransom, Joseph Huey, Clarence Wolfe, Frank Rouse, Fred Morrison, Geo. Prigge, V. G. Young, Ben Riley, John Taylor, J. F. Cleek, H. Anderson and Geo. W. Baker.

Petersburg

(Delayed)

Our community has been saddened by the death of Ethel Norris Berkshire which occurred Sunday night, September 19th.

Mrs. Ethel as she was affectionately called was respected and loved by all who knew her. Her friends were numberless; her love for and faith in young people endeared her to them, and it can truly be said she had as many friends among the youth of our town as among the older citizens.

She was a lovely, Christian character, giving love, inspiration and help to all who came in contact with her, having been a follower of Christ from early youth when she united with the Petersburg Christian Church, where she was a faithful member till her death.

Funeral services were held Wednesday afternoon at 2:30 at the Christian Church.

She leaves to mourn her passing, her husband, Benjamin H. Berkshire; four children, Mrs. Stanley Palmer, Romeo, Mich.; Mrs. Herbert Woodruff, Warrensburg, Mo.; Robert E. Berkshire, Lexington and Norris Berkshire, Rosman, N. C.; a brother, Lloyd Norris, of Lawrenceburg, Ind.; nine grandchildren, five great-grandchildren and many other relatives and friends.

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY
- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices—not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

LADINO CLOVER STOPS EROSION

That ladino clover controls sheet erosion is seen on the farm of R. R. Richards in Madison county. When erosion began in a field of Korean clover and grass, Mr. Richards seeded the hillside to ladino clover in the spring of 1947, using a pound of seed to the acre. This year the clover completely filled the small ditches and spots where sheet erosion had begun. In addition, said Farm Agent J. Lester Miller, the ladino clover furnished more pasture than any other part of the field.

Cincinnati Negro Found Slain On U. S. 42 Sunday

Body Still Warm When Found By Sheriff R. I. Rouse—Shot Six Times

The lifeless body of James Roscoe Lovell, 29, alias Jimmie Lovett, described by police authorities as a former convict, was found early Sunday morning by Sheriff R. I. Rouse, after he was notified by a passing motorist that a man was lying beside the road.

The body was found in a ditch on U. S. 42 three miles south of Florence. Sheriff Rouse stated that warmth of the body indicated that Lovell had been dead only a short time. A .32-calibre bullet was found under the body.

Investigation indicated that Lovell, a Negro with a long police record, might have been "taken for a ride" as the result of two gang "misunderstandings."

It was believed by officials that Lovell might have been slain because members of the gang operating in marihuana sales branded him a "squealer."

Lovell was arrested in Cincinnati last June on a charge of possession of marihuana and turned over to Federal authorities. His case still was pending.

Lovell was last seen in Cincinnati at 2:30 a. m. Sunday when he borrowed an automobile from a friend, Clifton Taylor, 540 West Seventh St. The car which Lovell had borrowed was parked on Mound Street, between Eighth and Ninth Streets. When it was examined, bloodstains were found on the front seat.

Boone Vets Emerge On Long End Of 10-5 Count With Bob & Gene Sun.

Third Game of Series Will be Played Sunday at Florence Park To Decide Boone County Championship

The Boone County Vets evened the count with Bob & Gene's nine Sunday by defeating them 10-5 in the second game of the Boone County Semi-pro Baseball Series at the Florence high school grounds. Bob and Gene, who won the title in the Benke Semipro League, won the first game last week.

The final game of the three-game series will be played Sunday at 2:30 at Florence grounds.

The Vets taking the offensive clubbed the offerings of Gene Bussman and Allan Nagel for 14 hits. Buford Smith pitched for the Vets and gave up seven bases on balls and allowed seven hits. Smith fanned six of the losers while Nagel and Bussman each whiffed five.

The Vets scored single runs in both the first and third innings on identical plays. Williamson led off with a single and went to second on a wild pitch and scored on a single by "Socks" Benson.

Bob and Gene scored one in the third when Boyd Mahan doubled, went to third on a passed ball and scored on Ed Arnzen's fly to center. The Vets went into a 3-1 lead in the fourth when Bowman hit a home run to right field.

In the fifth, the Vets scored three more runs on Williamson's single, Charile Benson's single and "Pip" Clore's home run. Bob and Gene scored two in the seventh to make the score 6-3 when Conner doubled and scored on Mahan's single. Mahan advanced to second on a wild pitch and scored on two infield outs.

Scoring ended for the vets in the seventh with four runs. Denniston singled, Smith singled and Williamson singled, scoring Denniston. Collins walked to load the bases and "Socks" Benson tripled to score Smith, Williamson and Collins.

"B" All-Stars Clinch Series Championship

With 6-5 Triumph; Final Game Will Be Played at Petersburg Saturday.

The second game of the three-game Boone County Sunday School League All-Star series was copped by the "Stahls" Saturday by a close 6-5 score.

The third and final game of the series will be played at Petersburg, Saturday, October 16. The game will get underway at 2:45. If the game is as well played as the two previous contests, fans are promised a real afternoon of baseball. The awards will be presented to each member of the winning squad just before the game begins. The championship trophy will also be presented to Myron Garnett, manager of the Bullittsville squad.

The managers of each All-Star team have promised to make every effort to win this final contest. All players are urged to attend this final game. George Bloebaum or Marvin Campbell will probably get the nod from Stahl, while Joe Rouse will probably start Barney Hogan or Milly Pepper. Hogan notched up 17 victories through the season play.

Roscoe Akins was the starting pitcher for the Stahls Saturday. Akins, who marked up eight victories for Burlington, pitched beautiful ball as he shutout the powerful "A" team for 6 inning. Akins, "the Nipper" allowed but 4 hits up to the 7th frame. Charley Black, dependable Big Bone hurler, was tagged for four successive safeties in the first inning and allowed 3 runs. Sprague, Stephens and Walton hit consecutive singles, and scored on a mighty three-bagger by Jimmy Smith. The winners tallied twice in the second on a walk, error, fielder's choice and singles by Sprague and Walton. Black worked until the fourth when Sprague drove out his third hit, a two-bagger. Barney Hogan went to the hill in the fourth with two on and no outs and kept scoring down until the eighth. Jimmy Ryle smashed out a long triple in the fifth but died on third. Don Pitcher poled out a single for the losers and scored on Joe Aylor's home run in the sixth for the first runs from Akin's offerings. A hit batsman and successive doubles by Scott Jack and Don Pitcher scored two more runs and brought Cason in to relieve Akins. An error and single filled the bases and brought up Dick Gaines, Bullittsville first baseman, the most feared hitter in the loop. Cason squelched the rally as he whiffed Gaines for one of the highlights of the series. Cason struck out four of the last 8 men who faced him to clinch the victory. Henry Dye lined out his second hit and scored the winning run on Jim Ryle's two-bagger in the eighth.

Other highlights of the contest were two beautiful catches by Roger Knox, centerfield for the losers, and the dependable infield play of Don Pitcher at third base as he handled 9 chances without an error. Jimmy Smith threw three base runners out in attempted steals for the "Stahls."

George Sprague drove out three safeties to carry away hitting honors. Ryle, with a double and triple wasn't far behind. Don Pitcher had a double and single to top the losers.

George Stahl started the same infield he used last week with Stephens, Sprague, Ryle and Walton forming the inner defense. Dye, Mahorney and Rouse were in the outfield for the Stahls. Rouse had Gaines, Otten, Hogan and Pitcher on the infield and Aylor, Knox and J. Hogan in the outer gardens.

This series is being played by Boone County boys, from Boone County teams and for Boone County fans. Come to Petersburg Saturday for a good baseball game. Support our own teams with your attendance and interest.

Burlington's Eagles chalked up their second victory in 6-man football Tuesday night by defeating the Florence Knights 34-6 in the third game of the Boone County conference play at the local grounds.

It was just too much Kelly and Cave on the line and Ryle and Rogers in the back as the Eagles, using every available man, ran rough shod over the Knights.

With Ryle, Rogers and Cropper gaining consistently on end and center plays, the Eagles held a 14-0 lead at the quarter, 22-0 at the half, 28-6 third quarter and then added 6 in the final period.

For the Eagles, Ryle scored two touchdowns and averaged almost 10 yards per run. Cropper scored two touchdowns on end runs. Rogers hit pay dirt once and McBee kicked for four points.

Henneman scored the Knight's lone touchdown.

Boone County farmers who attended the tobacco stripping and grading demonstrations last fall requested that the meetings be held again this year. Arrangements have been made to hold the meetings November 4th and 5th with Mr. Robert Goodwin, federal grader in charge, according to Bill Davis, County Agent.

Two meetings will be held each day. The morning sessions will begin at 10:00 a. m. and the afternoon sessions at 2:00 p. m. Places of the meetings will be announced at a later date.

North Carolina Men Arrested Following Holdup

Men Accused of Two Armed Robbery Charges In Boone County.

George Dukes, 28, of Charleston, S. C., and Albert Calhoun, 33, of Clinton, S. C., were held under $10,000 bond each upon being arraigned in Judge C. L. Cropper's Court Saturday on charges of armed robbery.

The men were arrested by Kenton County Police after an alarm had been sent out following the holdup of Clyde Owens, owner of the Wayside Inn at Beaver and Clarence Robbins, of near Walton.

The men entered the business of Mr. Owens and asked for cigarettes. When Owens went to serve them they drew automatic pistols and demanded money, according to R. I. Rouse, Boone County Sheriff.

Prior to the holdup at Beaver Clarence Robbins of near Walton had asked two men answering the description of the bandits for a ride. The men drove up a side road, shoved a pistol into his face and robbed him of $2.

After the holdup of the Wayside Inn, the men fled north on U. S. 42, and were arrested by Patrolmen Ralph Schneider and Donald Sebree near Covington.

More than $45 was found on the men and Kenton County police found a .32 caliber automatic pistol on Duke's person and Calhoun had a like weapon lying beside him on the seat of the car.

The men are being held in Burlington jail for action of the Boone County grand jury, after failing to post bond.

Let's Figure
THE COST OF LIMING

When you buy agricultural limestone you make an investment that pays you handsome returns over a number of years. In figuring the cost of keeping your soil properly supplied with lime you should do so on the basis of cost per acre per year.

Just divide the amount of money you invest in the liming material applied to each acre of land by the number of years the application is effective. The answer will be a surprisingly small figure. You will find, as hundreds of thousands of farmers have found, that the increase in yields of better quality crops may easily be 3 to 10 times the annual cost.

Soil-liming costs are low—profits are high.

PICKERS HELP OUT BY TWO COUNTIES

Pickle production proved profitable for farmers in Grayson and Ohio counties this year. Farm Agent H. T. Faulkner reported that 400 acres in Grayson county produced 67,200 bushels, bringing a cash income to farmers of $100,800. George Rosby of Caneyville made $2,695, the highest income ever made in the county from one acre of pickles. Laborers in the county made a total of $30,500 on the crop.

In Ohio county, growers marketed 94,128 bushels which sold for $94,518. H. D. Ridley, county agent, stated that two of three farmers still more than $1,500 worth from acre-picks.

Conservation Plan To Provide Six Major Practices

Allocation of Funds Authorized By Congress Is $5,593,000 For Ky.

A 1949 Agricultural Conservation Program to provide six major groups of soil and water-saving practices has been announced by USDA.

The six general groups of practices in the 1949 ACP are (1) protecting soil from wind and water erosion, (2) restoring and maintaining soil productivity, (3) restoring and maintaining sustained yields on range and permanent pasture, (4) conserving and obtaining efficient use of water for agriculture, (5) making needed land use adjustments, and (6) establishing, restoring and maintaining farm woodland at high levels of sustained yield.

A tentative allocation of funds authorized by Congress for the 1949 ACP would give Kentucky $5,593,000 for the 1949 program. Assistance in the form of materials, services and financial aid is limited under the 1949 program to not to exceed $750 per person.

The 1949 ACP will emphasize meeting the most urgent conservation problem first in each area. This "most urgent" problem will vary with different states and counties.

The national outline of the 1949 program is being used by state committees in developing programs adapted to the conservation needs of the various states. County agricultural conservation committees in turn will use the state programs as the basis for county programs adapted to the needs of the county and the needs of individual farms within the county.

Assistance to farmers under the ACP is used to help put to practical use on individual farms and fields the latest results of study and research in soil and water conservation methods.

On a milk route started this spring in Carter county, 80 farmers are now selling whole milk to a milk company in Mt. Sterling.

GEORGETOWN HAS RECORD ENROLLMENT

A record number of students, 741 through last Thursday, has enrolled in Georgetown College this fall, according to Registrar J. Foley Snyder.

Enrollment is expected to reach the 750 mark before registration closes. This year's total is already 18 ahead of last year's 723 aggregate. The total enrollment for the 1947-1948 school year set a new record at 952.

Male students here outnumbered female students by almost 200. There are 382 G. I. students in school, only five of whom are women.

In addition to the G. I. men, there are 200 other men. Altogether, there are 463 men and 278 women registered in the college.

One of the most singular facts concerning these statistics is that there is a relatively large number of students from outside the United States. Five are from the Hawaiian Islands and one each from Japan, China, England, and Africa.

Of some interest, also, is the presence of 124 out-of-state students. Ohio leads the list with 31. Indiana is next with 18, and Tennessee places third with 14. Twenty other states are represented in the file of the registrar.

Many will be interested to know the sizes of the respective classes. The largest senior class in the college's history is now enrolled. The class numbers 66. The junior class stands at 179.

Sophomore totals show 210 students and the freshmen number 236.

CORPORATIONS

A corporation is only an arrangement whereby individuals may own a part of the company and share in its profits in the form of dividends paid to its stockholders. It enables small investors to share equally with large investors in proportion to the amount each may have invested. Any law or movement detrimental to a corporation merely hurts the individual owners of the company, who are mostly small investors owning one share or more.

A bank is a corporation, owned by many small, medium and large investors. We would not have banking service were it not possible to form a corporation and sell the bank's stock to many individuals. No one or two men would have sufficient funds to start a bank.

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY

- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices —not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

New Sensational Self-Feeding Hammer Mill Cuts Cost of Grinding Roughage

Controlled Feeding Prevents Overloading—Gives Maximum Capacity

Give this Mill a Chance TO PAY FOR ITSELF

GRIND ALL the feed that should be ground for ALL your stock

Now comes a sensational new improved Harvey Red Hed Hammer Mill—a mill that not only grinds corn and small grain ⅓ faster, but brings down to rock bottom the cost of grinding roughage, because the new, controlled, "even-flow" self-feeder keeps input right up to the safe limit.

Come in and examine this amazing new Harvey development. See how the swinging, serrated alligator-head hammers grind feed *as you want it ground* with powerful 80 to 280 smashing 12-ton blows each second . . . how they take and grind the full, continuous, "even-flow" charge of feed . . . and see for yourself why the Harvey is noted all over the country for its low cost, and its great grinding capacity.

Harlan county homemakers completed their better cotton dress contests by making harmonizing belts and bags.

With seven grade milk cows and 200 laying hens, O. J. Anderson, of McCreary county has a gross income of $240 a month.

BETTER MANAGEMENT FOR MANY FAMILIES

Home management programs stressing better use of time, energy, money, equipment and materials were conducted by the Extension Service of the College of Agriculture and Home Economics, University of Kentucky, in 90 counties the past year.

"As a result," says the annual report of the extension director, "9,-302 families improved their housekeeping methods; 2,903 kitchens were rearranged for convenience; 18,881 pieces of new equipment were bought, and 7,580 pieces of equipment were repaired. Needed storage facilities were added by 3,743 families.

"Such improvements greatly reduced the labor and time spent by these families in doing routine tasks. More and better work was accomplished, health was improved and more satisfying family life was enjoyed.

"Increased interest was shown in subjects relating to family business. Improved methods of planning expenditures were adopted by 1,735 families and 13,307 families became better buyers.

"Many families were helped with planning new homes or remodeling old ones. Wiring homes for convenience continued to interest people in areas where electricity is being made available. With the advent of electricity, a wave of home improvements followed. Many families were assisted with planning the location of bathrooms, kitchen sinks, ranges and refrigerators."

COVER CROPS FOR GARDENS

Almost 100 packages of mustard, turnip, spinach and crimson clover seed were distributed to 4-H-er's in Leslie county, for fall planting. Called the J. M. Feltner seed mixture for the 4-H club field agent who first promoted the plan, the amount of seed is sufficient to cover a 20 by 40 foot plot, providing greens for table use this fall, and a cover crop to be turned under in the spring.

BEDROOM FURNITURE MADE BY 4-H GIRL

Pretty bedroom furniture at small cost is possible when one has imagination and time, proved Betty Jane Raves of the Versailles 4-H Club in Woodford county. In her display at the district fair in Lexington was an old dresser painted white, from which she had cut the legs. Then she added decoration by pasting pink and white rosebud wallpaper on the fronts of the drawers and on the ends of the dresser.

Her dressing table and bench made of scrap lumber were dressed up with quilted chints and a ruffle made from glass curtains. A pair of dressing table lamps was made from glass candlesticks. For the desk in her room, this 4-H'er used her old dressing table to which she added a top. Then she painted two old chairs brought from the attic, decorating them with designs.

Clean Sweep Made By "B" Team In Sunday School Series

Final Game of Three-Game Series Well Played; Score is 3-2.

Manager George Stahl's "B" squad made a clean sweep of the Sunday School League All-Star series as they defeated Joe Rouse's "A" squad 3 to 2 at Petersburg Saturday for their third straight victory.

The game was well-played and hotly contested all the way. Marvin Campbell started on the mound for the winners and was relieved by Ivan Cason in the third inning, after the losers scored two runs on a walk to Shields and home run by Scott Jack, of Union. The "B" squad scored their first run in the last of the third when Henry Dye singled to score Buck Judy from second base. This was the only run off Milly Pepper, who hurled the first three innings. Cheesman followed Pepper on the hill and allowed the "B" team to tie the score in the fifth—on White's single and three walks. Barney Hogan came on at this point and held the B squad in check until the eighth when they scored what proved to be the winning run. In this inning Jimmy Smith of Burlington singled, stole second, went to third on an infield out, and score on Judy's second straight hit.

From the third until the ninth inning Cason did not allow a runner to reach base as he retired seventeen straight batters. It looked as if the "A" squad would get back in the game in the ninth when the first two batters reached base safely, but Dick Gaines' line drive was converted into a fast double play and Cason was master of the situation, fanning the next hitter to end the game.

Allen White did a fine job of catching for Stahl's boys, while Moore and Garnett were behind the bat for the "A" team. Pitcher had two of the loser's four hits, while Smith and Judy each had two safeties for the winners.

Summary: "A" team, 2 runs, 4 hits, no errors; "B" team, 3 runs, 7 hits, two errors.

Farmers Urged To Order Lime and Phosphate For 1948

In Order To Complete Agricultural Conservation Program Plans.

Kentucky farmers should order the lime and phosphate they will need to complete their 1948 Agricultural Conservation Program plans without further delay in order to assure time for delivery and spreading, M. D. Royse, chairman of the Production and Marketing Administration State Committee, advises.

Some county associations in the State have cancelled phosphate orders in recent weeks because orders from farmers were coming in slow. Yet in nearly all counties there still are many farmers who have not complete the conservation practices they planned when they signed up in the 1948 ACP.

The 1948 ACP ends on December 31, and conservation materials not used by that date must be carried over to the 1949 program year.

There still is time for farmers to order phosphate for use on legumes and grasses under the program this fall, Royse said. Fall is the time chosen by most farmers for spreading lime on farm land, though land may be limed at any time during the year.

There is still time for carrying out several other practices this year in most counties, the State PMA chairman said. Among these are seeding small grain winter cover crops, and terracing.

Gigantic Safety Program Started By State Officials

Safety For Schools Is Stressed; School Troopers Organized.

The largest school safety program ever to be undertaken in the State is now under way, according to a statement from State Trooper Lee Tucker, Director of the Division of Kentucky School Safety of the Department of State Police.

The program is being sponsored jointly by the State Police and American Legion in Kentucky in coordination with interested civic organizations. It is being set up by the State Police and is being financed by the American Legion.

The school patrols will be known as the Kentucky School Troopers.

"The purpose of the program is to safeguard our children as they come and go from school," said Guthrie Crowe, Commissioner of State Police. "Later," he said, "a juvenile crime prevention program will be set up, but first we must get our safety program under way."

Any community which desires to benefit from the program may contact Tucker at the State Police headquarters in Frankfort.

The program will consist of safety talks, movies, and uniforms for the school troopers, in addition to the organizational work done by the police. The American Legion, along with interested civic organizations in certain communities, is buying belts, badges, and caps for members of the school troopers.

Local safety committees will be set up in each community where a school trooper unit is organized. It will be the responsibility of these committees and the schools of the community to carry on the program once it is set up. However, Tucker said that the State Police will stand ready to give aid and help at any time.

Tucker said that his division will co-ordinate activities with any civic organization that wants to help in the state-wide safety program.

"We need the co-operation of every safety-minded person in the State to act as advisor to the safety supervisor in his community," said Tucker. He said that the local supervisor will be appointed by the safety committee in the community.

A safety manuel is now in the process of being rewritten by Tucker and Forest Newcomb, assistant adjutant of the American Legion in the State. As soon as it is finished, copies will be given to anyone who wants one. The manuel will contain ideas on setting up a safety program to fit all communities as well as list the safety laws and rules.

According to Tucker, his division will consist of about 12 troopers, selected from each of the 12 police districts, working in the field in a supervisory capacity.

All 120 Kentucky counties are represented in the enrollment, which exceeds the previous largest number of students registered last fall. The population-center counties of Fayette, Jefferson, Kenton, Franklin and Boyd lead again this year in actual totals.

A geographical breakdown of the student body lists the following students from this county:

Twenty-Four Answer Opening Practice Call Wed.

For Eagle Squad of Burlington High School; Tough Schedule Ahead.

Twenty-four candidates for the 1948-49 edition of the Burlington Eagle basketball team answered the opening practice held yesterday by Coach Ralph Maurer. Included in the last of hopefuls were seven returning lettermen from last year's squad. They were Lafe Miller, senior; Bill McBee, John Cropper, Estil Ryle and Bill Cave, juniors; Jim Ryle and Bob Patterson, sophomores.

Up from the reserve squad of last year are Gayle Rouse, Albert Rouse, Bob Walton, Wayne Kelly, Herbert Ockerman and Harold McFarland. Johnny Rogers and Galen Acra, who missed play last season, also reported. Newcomers included Ray Deck, Jerry Ryle, Eddie Brown, Kay Kelly, Jerry Lustenberg, Harold Dringenburg, Jack Patterson and Ethan Rogers.

The Eagles have probably what is the hardest schedule in the history of the school. This fact coupled with the loss of Ren Todenbier and Jack Cave, regulars from last year, has Coach Maurer at this time worried about "a winner."

The Eagles still have one more football game and since most of the net players are also gridiron participants heavy practice schedule will not get underway until a week prior to the opening game November 12 at Dry Ridge.

Sportsmen Plan Afternoon And Evening Session

Trap Shoot Will Be Feature of Afternoon, According to President.

"Bring your favorite shotgun and a box of shells" was Edwin Walton's reminder to all members of the Boone County Fish and Game Club for their trap shoot to be held at the club grounds Saturday afternoon, October 23. Mr. Walton, president of the club, said the afternoon contests would begin at 2:30 o'clock and that dinner will be served at 7:30 p. m.

The afternoon and evening program will be held at the club house on Idlewild-Burlington Road.

A champion trap shooter of Boone County will be crowned and prizes will be given winners of the contests.

All members are urged to take part, Mr. Walton stated.

Hebron Cardinals March To 31-24 Victory Tuesday

Over Burlington Eagles; Last Quarter Rally of Eagles Not Sufficient.

Hebron's Cardinals, with Tanner and Elliston furnishing the offensive behind an air-tight wall for three quarters, piled up too much of a lead for Burlington Eagles to overcome in the "biggest" six-man football game of the Boone County conference, Tuesday night, at the Boone County Fairgrounds Park. The score was 31 to 24 in favor of the Cardinals.

Jimmy Ryle, Burlington sophomore back, put on a one-man show in the last quarter, but was unable to overcome the early Hebron lead. The Eagles pulled within distance in the final quarter but again it was too much Elliston and Tanner.

The scoring was as follows: First quarter, Hebron 6, Burlington O; second quarter, Hebron 12, Burlington 6; third quarter, Hebron, 25, Burlington 6. Final score—Hebron 31, Burlington 24.

The next game of the Boone County conference will place the Hebron Cardinals with a record of 2 wins and 1 loss, against the Florence Knights, with no wins and 2 losses, at the Boone County Utopia and 4-H grounds, next Tuesday night.

The final game of the Boone County conference, which will be played a week later, will pit the Florence Knights against Burlington. A win for the Eagles will assure them a tie for first place in the conference standing.

Fare Increase Will Be Effective November 1st

Five-Cent Hike Necessary Due to Increased Cost of Operation, Says Operator

A five-cent fare increase for all rides on the Hebron Bus Line, will become effective November 1st, providing approval of the State transportation board is received by that time, is was announced last week by Vernon Masters, owner and operator of the line.

Increased cost of operation and maintenance has forced the operator to apply for the increase with the Division fo Motor Transportation at Frankfort.

The price hike would add 5 cents to the fare each zone. Present fares are 15 cents from Hebron to Bromley; 10 cents from Constance to Bromley and five cents from La Vista to Bromley.

November 1 has been set as the date for fare hike, but Mr. Masters announced that the increase might not be approved by the state transportation board by that time. In that event the fares will not be raised until the state board passes on the matter.

Tobacco Markets Will Open Nov. 22; Date Moved Up

Sales Will Be Held Only On First Three Days of Opening Week.

The Burley Tobacco Sales Committee has set the opening of tobacco markets in the eight-state growing belt for November 22nd.

The date was moved up two weeks over former years despite objection of representatives of dealer interests.

Sales will be held only on the first three days of opening week, before a four-day Thanksgiving recess, it was announced.

Albert Clay, Mt. Sterling, chairman of the committee, brought about the long-awaited early opening date by casting a tie-breaking vote after the poll showed a 4-4 deadlock.

Dates for the Christmas recess and daily selling hours will be set at a meeting November 15th."

An early opening would help the "little" man to get his crop marketed under more favorable conditions, it was reported by those favoring the new date.

1½ Billion Dollar Road Block!

RAILROADS MUST OPERATE around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employes.

They want 48 hours pay for 40 hours work —in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25c an hour for every employe!

You'd Pay the Bill!

Summing up these demands, they mean that these union leaders seek to force the railroads to give *one million employes an annual raise which would average $1500 per employe!*

The total cost of this would be no less than 1¼ billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads they must have still further rate and fare increases.

Demands Unreasonable

These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48c an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10c an hour.

Railroads Run for Everybody— Not Employes Alone

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. *Everybody who enters railroad employment knows this.*

Strike Threat

On September 18, 1948, the leaders of these 16 unions began taking a strike vote. *But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!*

SOUTHEASTERN RAILROADS

NORGE with the new Self-D-Froster

It's new! It's modern . . . it's exclusive . . . it's the new Norge *Self-D-Froster* — the refrigerator that *DEFROSTS ITSELF!* Just think of it . . . no more fuss and muss of manual defrosting . . . no button or dial controls. No melting of ice cubes . . . no exposure of food to outside air. Norge . . . *and only Norge* . . . eliminates these worries. Every night at midnight, while you sleep, the *Self-D-Froster* takes over.

Here's how the Self-D-Froster works!

This handsome electric clock, mounted on the refrigerator door, turns the mechanism off at midnight, switches it on after the coating of frost has melted.

Defrost water is carried away into the non-spill Handefroster container, conveniently located and easily removable for emptying at your convenience.

Defrost water never collects in the Cold-pack . . . so there's no need to remove your meats. Sealed Giant Side Freezer keeps ice cubes frozen.

IN MEMORIAM

In loving memory of Charles A. Wells, who passed away May 13, 1945; Thorman Lee Wells, who passed away October 20th, 1946:

It seems like only yesterday
You smiled your very last,
We cannot seem to realize
Two long years have passed.

You bade no one a last farewell,
You said goodbye to none
Your loyal heart had ceased to beat
Before we knew you were gone.

Sometimes it is hard to understand
Why some things have to be,
But God in His wisdom has planned
Beyond our power to see.

—Always remembered and sadly missed by your loved ones. 11-p

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY

- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices—not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

FARMING IS LIKE

. . . . *Banking* . . . .

No bank can keep its doors open long if the withdrawals exceed the deposits. Just so, no farm land can remain productive and profitable when, over an extended period, the withdrawals and losses of the various plant-food elements exceed the replacements.

Of the six most important plant foods—nitrogen, phosphorus, potash, sulphur, calcium, and magnesium—the loss of lime (calcium and magnesium) far exceeds the loss of any of the others. Each year cropping, erosion, and leaching remove from each acre the equivalent of from 200 to 500 pounds of limestone.

Keep the lime account of your farm in balance by using our agricultural limestone.

Shade (1) is deep enough to shield eyes from light source. White shade lining (2) reflects more downward light. Diffusing bowl (3) sifts out glare. Wide angle shade plus extra tall standard (4) spreads light over broad area. Three-lite bulb with 3-way switch permits lower lighting levels when not in use for home study.

NEW HAVEN P.-T. A. MEETS

The regular monthly meeting of the New Haven P.-T.A. was held at 8 p. m. October 5. After the roll call, reports and old business were taken care of, several items of new business were discussed. Special attention was given to the membership drive.

The organization requests that all parents become P.-T. A. members, and to be attending members, since it is only through parent and teacher cooperation that a progressive school is obtained and maintained.

The P.-T. A. wishes to express the greatest appreciation to all persons who helped in any way to make the Huey Farm Conservation lunch concession such a huge success. Especially does it want to thank each and all who so willingly donated the many pies. Due to the unceasing efforts of every helper, the day proved to be the most profitable in New Haven P.-T. A. history.

The P.-T. A. feels that an expression of gratitude is due Mr. and Mrs. Huey for the privilege of serving lunch to that vast crowd of people.

—Publicity Chairman.

BULLITTSVILLE HOMEMAKERS

The regular monthly meeting of the Bullittsville Homemakers' Club was held at the home of Mrs. Rudd Grant with Mrs. Lee Marshall presiding. It was decided to change the meeting date from the third Thursday to the second Wednesday of each month. Business meetings are often dull, but the Bullittsville Club will be in for a treat month by month as Mrs. Thomas McCrann reads her witty account of the minutes of the previous meetings.

In the afternoon the lesson on chair caneing was given by Mrs. Jonas Stevens and Mrs. Albert Palsgraf. Next month the work will be with hong kong grass and corn shucks. There also will be a special lesson on glass etching. For those who cannot come all day it has been suggested that they come in the afternoon when the lesson is given. Visitors and new members are always welcome.

Mention should be made of Mrs. Huey Aylor, program chairman. She not only provides a game for relaxation after luncheon, but makes the prize instead of buying it. She does not have to go to the city to shop, she says. As the things she makes are worth twice as much as the amount she is authorized to spend, members are looking forward to winning prizes. It was largely due to her suggestion, also that a box of gifts was sent to the new daughter of Mr. and Mrs. Sam Roberts.

Those present not already mentioned were Mrs. Chester Grant and daughter, Mrs. Rita Mae Hilsfield, Mrs. A. B. Nichols, Mrs. Ray Masters, Mrs. Bob McGrann, Miss Mary Hood Gillespie, who was in Boston attending a dietitians' conference, was greatly missed.

Florence-Hebron Game Ends In In 24-24 Tie Tues

Most Exciting Game of Season, According To Reports of Fans.

The Florence Knights upset the dope bucket in the Boone County 6-man football league Tuesday night at the local park when they held the highly favored Hebron Cardinals to a 24-24 tie in the most exciting game of the season.

The McEvoy-Bruner coached "Lancelots" displayed a hard driving ground game, leading in every offensive department, yet they had to push a touchdown across in the final minute of play to tie the Cards who were handicapped by the early loss of Carver and Elliston through injuries.

Quarter scores were 6-0 Florence; 12 to 12 half; 12 to 12 third quarter and 24-24 at the final horn.

Offensively for Hebron it was Elliston and Tanner. For the Knights "Pig" Roberts was the big gun. Henneman, Abbott and Roland also aided the Florence cause.

Eagles vs. Knights

Though Florence cannot win the conference trophy, even if they beat Burlington in the league final next Tuesday night, they plan to have a big say in who will win, when they go against coach Walton's Ryle-Kelly and company. The conference standing is:

Burlington 2-1, Hebron 2-1-1 and Florence 0-2-1. A win for the Eagles next week will make them county champs. A loss will give the championship to "Chuck" Ransler's Cards, and a tie game will place the Cards and Eagles in a first place tie.

Statistics of the Florence-Hebron game were: First downs, FHS 10, HHS, 7; Passes attempted FHS, 17, HHS 16; Passes completed FHS, 8, HHS, 6.

Tuesday, October 23. Boone Post No. 4, American Legion, held military services at the grave in Highland Cemetery.

Pfc. Owens is survived by his mother, Mrs. Hattie Owens; a sister, Mrs. Margaret Carroll, Covington, and a brother, Ira, of Elsmere.

Volunteer Workers Needed In Sale of Christmas Seals

County Has One of the Most Adequate Programs For Cure of T. B.

A special call for volunteers to assist with the Christmas seal sale this year is being made by the committee in charge, it was announced Monday.

Plans have been made to begin work on mailing seals in the court house November 1, and work until completed. The hours are from 1:00 to 10 p. m. each day. Citizens of Boone county are urged to assist in the work during these hours.

Tuberculosis causes many deaths much distress and suffering, and is often called an economic disease, because the illness is usually of long duration and the treatment with protection of others, expensive.

Boone County has one of the most adequate programs for cure and prevention of tuberculosis in the State of Kentucky. Much of this is carried on through the sale of Christmas seals. The following are some of the things carried out:

1. The county nurse visits regularly known cases, suspects and contacts, giving timely instruction and providing needs.

2. Free county-wide X-ray clinic, usually once a year. X-rays when necessary throughout the year.

3. Sanitorium care regardless of financial circumstances.

4. Nutrition and equipment for care and comfort of those who remain at home.

No salary or rent is paid from the seal fund. Money is used directly for cure and prevention of tuberculosis. Members of Boone County Tuberculosis Association and workers are all volunteers.

Any person who will assist in the seal sale are asked to contact one of the following committee, Mrs. Sibbia Reimer, Mrs. C. L. Cropper, Mrs. Mabel Stansifer and Miss Elizabeth Lowry.

Work To Begin On $3,000,000 Bridge To Span Ohio River

At Lawrenceburg; Work Will Probably Be Started In January.

Gov. Ralph G. Gates, of Indiana and Gov. Earle Clements, of Kentucky, announced last Thursday plans for preliminary drilling for a bridge to span the Ohio River at Lawrenceburg, Ind. Work will begin sometime in January, it was announced.

Work on the bridge will climax more than two years of planning and will be the first bridge built across the Ohio in a generation. It will be the only bridge between Cincinnati and Madison, Ind.

The bridge has been needed for sometime due to the expansion of distilleries and industrial plants in the Lawrenceburg area, as many employes reside in Kentucky, and have the choice of taking ferries at Aurora, Ind., or the Anderson ferry at Dunlap.

The structure, probably a suspension-type bridge, is expected to cost more than $3,000,000 with the major expense being borne by Indiana. Kentucky will build approaches from the southern end of the bridge to its major highways, it was reported.

When the bridge is opened, tolls will be charged until the costs of construction is paid. After that it probably will be a free bridge.

The bridge, when completed will mean that a large volume of traffic that normally comes from southern Indiana and points north and bound for the south, will cross the river at that point and not have to come through Cincinnati to traverse highways 25, and 42.

A complete survey of nearby territory with regard to construction of the approach has not been made, but will be made when it is determined the exact point where the bridge will touch the Kentucky shore.

Present plans call for the approach to cover a route from the river to Route 20 from Petersburg through Constance and Hebron, finally connected with the Donaldson Highway.

Other plans call for a widening of Route 20 to a point near the Greater Cincinnati Airport in order to handle the anticipated flow of traffic.

Completion of the new bridge, together with the new highway, will divert much traffic from the overcrowded Dixie Highway thru Covington and is expected to relieve much of the congestion from Covington to Florence and the airport.

Approximately two and a half years will be required to complete the new bridge, it was reported.

Revival Services Planned at Beaver Lick

Revival services will begin Monday evening, November 1 at the Beaver Lick Baptist Church and will continue through Sunday, November 7th.

Services will be held each evening at 7:30 p. m., with Rev. Chase Jennings, superintendent of missions in Northern, Ky., evangelist. Song service will be led by Charles Steele of the New Bethel Baptist Church, Verona.

The public is cordially invited to attend these services.

Gasoline Fire Brought Under Control Saturday

By Quick Action of Oil Station Attendants and Volunteer Firemen.

Fire, which could have caused many thousands of dollars damage Saturday afternoon was quickly brought under control by the action of oil station attendants and members of the Burlington Volunteer Fire Department, when a large tank truck and three tanks at the McBee Service Station, Burlington, were ignited when a cigarette smoker unthoughtedly threw a match to the pavement.

A large Gulf truck was unloading under the shed at the station, having all three tanks uncapped. A customer who was having his car serviced dropped a match to the pavement after lighting a cigarette, which ignited the fumes from the gasoline. All of the tanks ignited, shooting a blaze from the opening. The attendants, W. L. McBee and Raymond Hightower summoned the fire department and then returned to the scene to fight the blaze. Each of the men threw their jackets over two of the openings which smothered the blaze, then pulled the filler tank hose from the opening of the third tank, which contained surplus gas. The gasoline ignited and spread the flames over the island.

The volunteer firemen arrived and brought the blaze under control with CO2 fighters, especially made for gasoline fires.

Damage was held to a minimum as only paint on the station was scorched by the blaze.

Ohio Man Slugged By Hitchhiker Near Florence Monday

Man Dressed As Soldier Takes Automobile And Disappears.

C. D. Ring, Jr., of Lockland, O., R. 3, was slugged and robbed of his automobile Monday on U. S. 42 near Florence, by a hitchhiker he had befriended, according to Sheriff R. I. Rouse.

Ring was on his way to Lexington, Ky., to visit his father when he was hailed by a young man who appeared to be a soldier at the junction of U. S. 42 and 25, Florence.

Being unfamiliar with the route, Ring turned into U. S. 42 instead of U. S. 25, and did not learn of his mistake until he had traveled more than two miles south of Florence. He made known the situation to his companion, who did not appear to be at all disturbed. "I'll have to turn back," Ring announced.

The hitchhiker then looked back along the highway and remarked that he thought a truck was approaching and that perhaps he could signed the driver for a ride. When Ring turned to look back, his passenger suddenly struck him on his head.

Sheriff Rouse stated that Ring told him his assailant must have hit him five or six times with what appeared to be a pistol butt before he pushed him out of the car still reeling from the blows. The hitchhiker then took the machine and drove away.

An alarm was sent out far ahead of the fleeing bandit by Sheriff Rouse who reported that the man registering as Glenn T. Moorland was apprehended in Louisville Monday night, driving the car taken from Ring. He is being held for Boone County officials, Sheriff Rouse said.

FERTILIZER, GRASS IMPROVES THIN LAND

How thin sandstone land can be built up with fertilizer to make good pasture was demonstrated on a farm in Crittenden county, Farm Agent Oakley M. Shelby tells of a check-up on three 10-acre pastures at the close of a 30-year period.

In 1922, the same seeding mixture was used in each of three fields which have since remained in pasture. One field received no special treatment, the second field received rock phosphate, and the third field, limestone and superphosphate. A careful record shows that the average yearly gain of steers grazing on the first field was only 180 pounds five weight; from the second field where rock phosphate was applied, 1,818 pounds, and from the third field where Limestone and superphosphate were used, 1,521 pounds.

The seeding mixture per acre used on all the fields consisted of orchard grass, 6 pounds; redtop, 2-3 pound; Canada bluegrass, 2 pounds; Kentucky bluegrass, 2 pounds; common lespedeza, 1 1-3 pounds, and Korean lespedeza 1 2-3 pounds.

NEW HAVEN HOMEMAKERS

At ten-thirty on Columbus Day the New Haven Homemakers assembled at the lovely home of Mrs. J. F. Cook, with Mrs. J. O. Griffith as co-hostess. Mrs. Moody called the meeting to order. Inspiration prayer and Bible reading was offered by Mrs. V. O. Young, with members answering roll call with a Bible verse. After the secretary and treasurer's report by Mrs. Don Hopkins, a short business session was held. Plans were discussed to bring some measure of Christmas cheer to needy families in our community. The club voted to buy first aid kits for New Haven school.

Lunch, or if you call Mrs. Cook's turkey and all trimmings, lunch, I'd say a banquet, was served to the following members and visitors: Mesdames C. W. Luchte, Don Hopkins, Henry Fisher, George Moody, A. W. Bowen, R. R. Ragland, V. O. Young, Stanley Ransom, Arnold Conrad, John Taylor, Frank Rouse, Clarence Wolfe, M. C. Owens, Joe Huey, Wagenlander, Ed Grater, Herb Anderson, J. L. Fagin, Ralston, Samuels, and Geo. W. Baker.

Mrs. C. W. Luchte of the Florence club gave the lesson on chair caneing and I am sure with Mrs. Luchte's complete instructions it won't be long until every member will be hunting grandma's old chair to re-cane.

Miss Gillaspie gave a Live-at-Home questionnaire.

Mrs. Arnold Conrad, program chairman, closed the meeting with the thought of the month "My Creed" by S. E. Kaiser.

Publicity Chairman.

COUNT YOUR MANY BLESSINGS

DEMOCRATIC CAMPAIGN COMMITTEE

There goes... What?

Sure it's milk—or it might be a picture of hogs or any other farm animal, poultry, or eggs—going to market. But it's more than that. It's millions of pounds of soil fertility, especially lime, leaving your farms never to return.

It takes a lot of lime to build the bones in a cow or hog, to put shells around your eggs, and to supply the needed amount in milk. That lime comes out of the soil into the roughage and grain these animals eat.

Remember—you have to put back in the soil what you take out. It's the first principle of good farming.

Replace your lime losses by using our agricultural limestone.

RESOLUTIONS OF RESPECT

WHEREAS, our heavenly Father has called from our midst a beloved member, Sister Lizzie Graves on August 3, 1948 and

WHEREAS, in passing of Sister Graves, the community has lost one of its best and beloved citizens, the chapter a true and faithful member and the family a loved and devoted wife and mother.

RESOLVED, that Evadell Chapter No. 453 O. E. S. at Hebron, Ky., extend deepest sympathy to her loved ones. She will be greatly missed but our loss is heaven's gain.

RESOLVED, That a copy of these resolution be attached to the minutes of the chapter, a copy be sent to the family, and a copy sent to the Boone County Recorder for publication.

Respectfully submitted,

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY

- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices—not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

I, C. D. TIPS FOR HOUSEWIVES

These practical household aids for housewives are recommended by the College of Agriculture and Home Economics, University of Kentucky:

1. Codliver oil stains may be removed if treated at once with carbon tetrachloride before laundering.

2. Frieze rugs, or those with a twisted nap, should be dry cleaned only, as shampooing sometimes removes the twist.

3. To minimize a large waistline, choose styles with up and down lines, and avoid wide or contrasting belts.

4. Baked dishes, such as macaroni and salmon loaf, retain their moisture better if they are set in a panof water to bake.

5. Drop the unused egg yolk into hot water and cook until hard, then use in salads or as garnish on vegetables or in whitesauce.

Gypsies came originally from India, not Egypt.

PICKLE RECORDS BROKEN

Records in pickle production have been broken in Grayson county this year, where farmers reaped the benefits of having done a good job of land preparation, fertilization, cultivation and insect control, reported R. T. Faulkner, county agent. Four hundred and ten growers produced cucumbers on 395 acres. Nine hundred dollars and more an acre was received by several farmers, while more than $500 an acre was realized by about 45 of the producers.

VOLUME 73 — BURLINGTON, KENTUCKY THURSDAY, NOVEMBER 4, 1948 — NUMBER 18

Early Election Returns Leave Presidential Race Undecided; Democrats Gain In House and Senate

Boone County Registers Largest Democratic Victory Since 1936.

Incomplete returns from all sections of the United States left the presidential race still in doubt with the popular vote showing Truman with 18,121,000 and Dewey with 16,790,000, a Truman majority of 1,331,000. According to latest radio reports, Truman was leading in 27 states while Dewey held a lead in seventeen.

With incomplete returns, Truman held a lead of 13,000 votes, while Illinois gave him a majority of 65,000 majority with 86 per cent of the State's precincts counted.

From all indications the Democrats have elected enough Congressmen and Senators to give them a majority in both houses.

Chapman maintained a majority of more than 7,000 over his opponent John Sherman Cooper in the race for United States Senator. Brent Spence was an easy winner in his race for Congressman over his opponent George T. Smith.

Boone County polled the largest democratic majority since 1936, last Tuesday when President Truman collected 2320 votes in the seventeen precincts while Thomas E. Dewey had a total 1151 votes. Virgil Chapman democratic candidate for United States Senator chalked up 2114 votes against his opponent John Sherman Cooper's 1300. Congressman Brent Spence had a total of 2347 in Boone County against George T. Smith's 1078, with all precincts counted.

Henry A. Wallace, New Progressive Party candidate for president failed to get a single vote in Boone County, while the Socialist party totaled 5, Prhobition party 1 and States Rights party 44.

In races for school board member in the Belleview, Carlton and Hamilton precincts, Bruce Ryle was elected by a majority of 16 votes over his closest opponent Gene Jones. The totals were Ryle 142, Jones 126, Craig 111.

In the Walton-Verona school board election, John Meador and C. O. Carlisle were elected. The total vote was: John Meador 389, C. O. Carlisle 243, Clayton Jones 240, and John H. Woods 203.

The only town election held at Petersburg shows the following trustees elected: Gridley 57, Helms 62, Hodges 50, Shinkle 52, Aylor 56. Howard Huey was elected police judge with a total vote of 54.

Walton Church Lays Cornerstone Sunday

Cornerstone laying ceremonies for the Walton Christian Church were held at 2:30 p. m. Sunday, according to Rev. Fred S. Nichols, pastor.

The new building will replace the structure which was destroyed by fire last Thanksgiving. At the time of the fire it was estimated the building replacement value would total $90,000.

ACP Elections Scheduled For November 18-19

Each Community Will Elect Committeeman To Administer Program.

Farmers of Kentucky should begin thinking about the committeemen they want to administer the 1949 Agricultural Conservation and Price Support Programs.

Elections for community and county committeemen will be held in all counties of Kentucky on November 18 and 19. In each community on November 18 farmers will elect a community committee to administer the farm program in that community and to advice with the county committee in the administration of the program in the county. Also at the community election, delegates will be elected to attend a county convention on November 19 where a county committee will be elected.

One of the real pillars of strength in the farm program is the elected farmer-committees. The way to keep this strength is for farmers to participate in elections and see to it that the people best qualified to serve as committeemen are elected.

Conservation of our soil and water resources is vital to the well-being of the nation. We must have the best committeemen to administer this program, the nation's direct effort to assure the future food supply.

4-H Achievement Meetings Scheduled

Achievement programs were held in two 4-H Clubs last week, according to the county extension office. These meetings were held in the form of a chapel program at Constance and Hebron. Burlington No. II had a fall exhibit and achievement program combined. The other achievement meetings have been scheduled ts follows:

Nov. 3: Grant, 9:00 a. m.
Nov. 3: Petersburg 10:30 a. m.
Nov. 8 St. Paul's 9:00 a. m.
Nov. 8 Hamilton, 11:00 a. m.

Electric Rates To Be Revised By Local Electric Company

Increase Will Amount To Approximately 7 Per Cent, Says Manager.

In this week's issue of Boone County Recorder, the Community Public Service Company has published notice of application for change in electric rates.

Mr. Charles Finnell, local manager of Community Public Service Company at Walton, explained that the "fuel clause" in purchase power contracts with Union Light, Heat and Power Company is based on the current price of coal. For each ten-cent-per-ton advance in the price of coal, the cost per KWH of power is increased accordingly.

Mr. Finnell pointed out that since coal has progressively risen in price for the past several years, it was no longer possible for Community Public Service Company to absorb the increased "fuel charge," and that petition had been filed with the Public Service Commission of Kentucky to "pass on" the excessive fuel charge to the residential, commercial, and industrial customers of Community Public Service Company throughout Kentucky.

Mr. Finnell further explained that, due to the excessive price of coal, the net earnings of Community Public Service Company were no longer adequate. Unless additional gross revenues, sufficient to offset Community's increased cost of purchased power, are provided, then Community will not be able to obtain additional money required for construction of essential transmission and distribution facilities in the state of Kentucky, nor will they be able to render adequate service.

Mr. Finnell further pointed out that the basic rate structure would not be changed ,but that the amount of the "fuel charge" passed on to the customer would vary, as the price of coal fluctuated. Mr. Finnell said that, at the present time, the increase in the customer would amount to about 3 mills per KWH, which would mean about a seven per cent increase on the average customer's monthly statement.

All rate schedules will be subject to the application of "fuel charges," except municipal lighting and municipal power. The application of "fuel costs" will affect approximately 4000 customers in Boone, Kenton, Grant, Pendleton, and Campbell Counties.

Burlington Eagles Trounce Florence By Score of 32-0 To Win County Championship Tuesday Night

Four-Game Scheduled Is Closed With Record of 3-1; Hebron Runner-up.

Burlington's Eagles, with an impressive 32-0 win over the Florence Knights Tuesday night at the Boone County fairgrounds park, won the 1948 County six-man football conference trophy. They closed the four-game schedule with a 3-1 record. Hebron was runner-up with a 2-1-1 record and the Knights ended with a 0-3-1 standing.

Burlington, using a hard-driving ground game rolled over Florence by quarter scores of 6-0, 13-0, 26-0 and 32-0.

The Eagles, led by McBee with three touchdowns and two extra points for a 20 total, were seriously threatened but once during the game and then a Knight fumble hurt their own cause. Cave and Kelly each added a touchdown for the Eagles.

Statistics of the game were: First downs, BHS, 10, FHS 5; passes attempted, BHS 4, FHS 12; Passes completed BHS 3; FHS, 3; score B. H. S. 32, F. H. S. 0.

The the season play, the Eagles have racked up 118 points in the four game schedule against their opponents' 58, losing only one game to the Hebron Cardinals by a score of 24 to 31.

There is no doubt that six-man football is firmly established in Boone County Schools, as fans throughout the county were loud in their praise of the game. It has been reported that some of the larger schools in adjoining counties are seriously considering reducing their teams to 6-man squads. If this report is true, Boone County fans as well as northern Kentucky will see some interesting games next season.

SOWS BOTHERANS ON TOBACCO PLANT BED

O. H. Gibson, Boyle county farmer, has found that to succeed with chemical sterilization of tobacco plant beds, it is a good practice to sow soybeans following tobacco setting. He has had no failure in the three years he has used this plan, according to Farm Agent John C. Brown. Last year, for example, Mr. Gibson supplied vigorous plants from a bed 9 by 180 feet for his own two acres and four acres for neighbors. He recently plowed the bed for the 11th year in the same spot.

Mr. Gibson's practice is to apply 150 pounds of cyanimid about two weeks after the soybeans are turned under in the fall. He discs in half the amount four or five inches, then rakes in the remainder with a hand rake.

In Scott county, 24 homemakers report having bought deep freezers for home use and 20 women have bought pressure cookers.

The Greatest Mother In The World

N. TULCH
Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Mother nature gives the birds miscroscopic eyes to see tiny grain from a distance, and how she cares for us humans.

For instance, when we bruise our feet by wearing poorly constructed or ill fitted shoes. Nature sets up protective layers, corns, callouses and bunions, at the point where the attack is directed, and by means of pain telegraphs the brain that danger is at hand and how do we respond to nature's signal? Usually, by padding these protective layers or paring them. This of course, does relieve the pain but does NOT remove the cause of the trouble. Corns, callouses and bunions are merely symptoms telling you there is something wrong inside your feet.

Permanent relief will be obtained when you relieve pressure on delicate nerves and tissue, when you straighten up weak, inrolling feet that throw the strain of weight bearing into the outer arch. So, if you would really get at the bottom of your foot ills, by all means, see our foot comfort specialists — they will make a scientific foot analysis of your foot. Then foot comfort is absolutely assured.—Adv.

ADVICE ON FISH POND MANAGEMENT GIVEN

"Pond owners who want good fishing should not use bluestone (copper sulphate) in their fish pond. The bluestone kills the plant life which is needed to feed the insects that feed the fish," said Verne R. Davison, Regional Biologist for the Department of Agriculture, Soil Conservation Service.

Mr. Davison spent the past two days with Tom Ford and J. Casper Acree, local soil conservationists in Boone and nearby counties, inspecting ponds as a part of the District soil and water conservation program. Many pond owners have been using bluestone to kill green scum which appears under certain conditions.

"The condition causing the scum is too much organic matter in the water," Mr. Davison pointed out. Some farmers make the mistake of putting manure in their ponds for fertilization, but manure is an organic material, so are tobacco stalks, tree leaves, and all pond weeds. These basic causes of pond scum should be eliminated instead of poisoning th scum with bluestone. Fish lose weight rapidly and stop laying eggs following application of this chemical.

Mr. Davison discussed this and many problems of fishpond management with the Boone Lake Club. "Poor fishing is almost always a result of too many small or intermediate sized fish," said Mr. Davison. "Too many little fish come usually because of misstocking when the pond is new." The soil and water conservationist, author of U. S. D. A. Farmers Bulletin 1983 "Farm Fishponds for Food and Good Land Use," is in charge of the Soil Conservation Service game and fish work in nine southeastern states.

Mr. Davison is also hunting and fishing editor for The Progressive Farmer, and writes technically for Sports Afield.

Farmers Bulletin 1983 can be secured from the local Soil Conservation office.

Approximately 20,000 pounds of Ky. 31 fescue have been bought by Casey county farmers this fall.

READIN,' 'RITIN AND RUDIMENTS

E. Y. Chapin, Sr.

Mr. Chapin, who tells of his Kentucky school days, was born in 1868 in Petersburg. He studied law in the office of John G. Carlyle in Covington and since 1887 has lived in Chattanooga, where he has been a lawyer, banker and civic leader.

I was tossed into the field of knowledge in a little Kentucky village on the banks of the Ohio nearly eight decades ago. You may be a little surprised when I tell you that Kentucky had no public schools at that time, not until quite a while later.

Although it was nearly 80 years ago, I have a vivid recollection of my grandfather's seeking me out at my play among some lumber piles to tell me that he had just signed me up for the coming session of Miss Katie Davis' school.

I had just enough obedience in me to go to the schoolroom some weeks later and present myself for confinement. I remember the desk which the village carpenter had made, the inkwell set into it, and the acrid smell of the ink itself.

I had already learned to read and write, so I had a running start. My favorite was geography. One of its features was the capitals of the states recited in a singsong that assisted memory. The name of each capital was accompanied by the name of the stream upon whose bank it sat.

As I recited Montpelier on the Onion, I never dreamed that it could ever be my good fortune to visit so distinguished a place—and yet in the coure of a long life it came about. Jackson on the Pearl brought an overwhelming disappointment some generations later. If there is a dirtier open sewer than that same Pearl, I have yet to see it. Strange to say, it was many years after I had learned about it that I was able to visit Frankfort on the Kentucky.

Friday afternoon brought not only the prospect of a temporary release from discipline but a session of torment for some of us and savage amusement for the others. There were declamations, even dialogues. What we recited came from the precious McGuffey readers.

I was even able to take part in dialogue extracted from one of them in which I opened the proceedings by inquiring of a comrade: "Whence comest thou?" To which he responded: "From the mountain." And with further inquisitiveness I asked, "Bringest thou news from thence?" And he replied, "Aye, they watch no more the avalanche."

Later I was to go under the charge of teacher William Stott, who sought to introduce a little levity into class.

Once in a while he would convulse us by propounding such a problem as this: "If corn is selling at 25 cents a bushel and wheat brings six bits, how many pecks of potato peelings will it take to shingle a meeting house?"

Stott was succeeded by another pedagogue who had even greater peculiarities. He was a burley man weighing near 300 pounds who had lost his right arm. He was a fearsome person to look at. He had his favorites and his pupils whom he disliked. His principal favorite was a boy named John who was abnormally bright in mathematics.

We were using Ray's third arithmetic at that time, and the final problem under miscellaneous fractions described the manner in which John Jones distributed his estate under his will. That problem was too tough for everyone except the teacher's favorite.

He was a boy with long, yellow locks. The teacher would call him to the platform, run the fingers of his remaining hand through his hair, roll his head around for a moment or two, and then say, "John Franklin Tilden Tadpole Tilley, you are a genius. Go work John Jones on the board."

The boy that the teacher especially disliked was named William. He would be called to the platform when the need for diversion was felt. The teacher would indulge in his favorite habit, and run his fingers through the boy's hair and wobble his head around, and then he would say: "William! Sweet William (for you are sweet, William) why don't you wash? If you haven't got water enough at home, Sweet William go to the river. And if you haven't got any soap, take a cob, Sweet William, take a cob."

Somehow we managed to get the rudiments of an education out of it, along with a lot of unusual recollections.

State Will Enforce Gasoline Law

Frankfort, Ky.—Kentucky's Commission of Revenue, H. Clyde Reeves, is considering dropping the use of soft words in favor of a policeman's billy. Lack of cooperation by inter-state motor transportation operators with Kentucky's gasoline tax law is the reason for the Commissioner's ire.

In July David R. Walker, Director of the Department's Division of Excises wrote the 833 motor carriers operating through Kentucky asking for some simple information and a statement of voluntary cooperation with the State's new gasoline tax law. Up to September 10 only 81 operators had replied.

A Kentucky law of many years standing prohibits "any person importing or causing to be imported into this State, gasoline in the fuel tank or any auxiliary tank of his motor vehicle in a quantity in excess of thirty gallons." Attempted evasion of this law is subject to a fine of from $25 to $1,000 or a six months jail term or both. Of vital importance to the operator also is that evasion could mean the loss of benefits under the reciprocal agreements as to weight tax, registration and even his operators license.

Reeves said "We are trying to make it easy for motor operators using Kentucky's highways to comply with our laws but if they want to do it the hard way they will be accommodated."

After a reasonable length of time the Department of Revenue will furnish the Kentucky State Police with a list of the operators who have signed voluntary agreements, and stationed at points of entry they will stop and check equipment of all operators not on the approved list. Those stopped will have fuel tanks checked and if found in violation will face arrest and delay.

Reeves hopes these drastic measures can be avoided in the interest of economy and good will but the law he says will be enforced against those who would evade Kentucky gasoline tax.

The smallest state in the Union has the longest name—the state of Rhode Island and Providence Plantations.

HEALTH FROM THE SOIL

Livestock naturally feed upon plans which contain the minerals essential to them. This may be observed by fertilizing and liming half of a run-down pasture. When the stock is turned into this field they will walk right through the untreated part to feed upon the abundant and nutritious portion that has been treated. All farmers have seen their cows or horses attracted to the plants growing on uncropped land along fence rows or by the road side. Frequent cropping removes minerals necessary to the health of living things. Even though the plants look good it is impossible to tell simply by observation whether the necessary elements are present. Livestock seem to know this by some sixth sense.

This carries over in human beings. An illustration is the excellent teeth possessed by the people living in Deaf Smith Count, Texas where their food possesses the necessary elements. It has been noted that in some areas seventy percent of the young men were unaccepted for military service due to health defects, while in other areas the reverse was true.

Lime increases the availability of the essential elements necessary to the plants. Consequently it is necessary to lime soils so that crops obtain the maximum amounts of these elements from the soil.

Boone county homemakers set out 2,500 bulbs of jonquils, narcissuses, tulips, crocuses and hyacinths.

From the Editor's Desk

The Television Boom

The growth of television is being slowed down by the federal government and officials are spending most of their time right now peeking behind the curtains to see just what is going on. Television is stirring up problems for advertisers—and that butts in with the radio and newspaper business. As one National publication puts it: "A stop, look and listen sign is being hung up, weekly, for the booming of the television industry . . . The industry is creating new technical problems and legal puzzles."

Television is operating over 600,000 sets and if the present gait keeps up there will be about 2,500,000 sets by the end of 1949.

Do Not Expert Government Economy

Spending by the government is still going up! Although these are times of peace the rate of increase indicates that government spending will soon reach 40 billion dollars a year.

This is a great big subject, important in every respect. It sums up to the total conclusion that new features of "making the world safe for democracy," will treble the cost of even the Marshall Plan. There is a universal feeling that we are spending so fast and furiously that Uncle Sam will lose his shirt before we get down to a more conservative method of ruling our own nation. Our efforts to grubstake the world and pacify the Russians are just too much.

Our Pacific Trust

Saipan, Truk, Bikini are familiar names, but who has heard of Lib, Ngoli, Kapingamarangi? They are all within what is now the Trust Territory of the Pacific Islands. This Trust Territory, comprising the Marshall, Caroline and Mariana groups of islands, extends about a thousand miles north from the equator and includes a greater part of the area from Hawaii to the Philippines—two million square miles of water surrounding a myriad of tiny and larger tropical islands. Only 177 of them are inhabited by a total of 50,000 natives of Polynesian or Micronesian extraction. Formerly under German control, they were mandated to Japan following World War I and are now under our official wing.

Placed under Naval Military government following the conclusion of World War II, a program for bettering conditions was immediately started. Every village, no matter how small, over this vast area, was officially visited and complete data gathered.

It was determined that what was needed was not military domination but friendly aid and cooperation to help these people become self-reliant, establish better health and sanitation, elementary education, safeguard their lands and resources, develop their trade, industry and agriculture, and the physical restoration of war damaged property.

For the past two years, this plan has been materializing under the able guidance of Rear Admiral E. M. Wright. Dubbed by the Saturday Evening Post "Admiral of the Aleuts," he is highly regarded by the natives of the whole area.

Vaccination and immunization is provided. Native medical and dental practitioners and nurses are being trained. Seven dispensaries of from 25 to 50-bed capacity are located throughout the area. A training program is supplying native teachers for island schools. A trading system provides them with needed goods, while at the same time marketing their produce—principally copra and handicraft. These are just a few of the things accomplished or underway.

A most admirable phase of this whole program is that the natives are not asking for or getting handouts. We are giving them medical assistance and help in instances of calamity, but otherwise they are rapidly getting on their own.

A truly commendable operation, the Navy is carrying it out speedily, efficiently, without fanfare, and withdrawing its official hand as rapidly as circumstances permit.

Meaty Facts

An unprecedented phenomenon has occurred during the past few years. It might be said that America has become morbidly meticulous. People watch reports on crops, our production, consumption, livestock population and a thousand other items with the same fascination they watch baseball scores. Anyone with an ax to grind can capitalize to his heart's content on this preoccupation with statistics. Statistics can be distorted to prove anything—shortages, abundance, high prices or low prices. Even where intent is above question the citing of bare statistics is tricky business. For example, there have been reams of statistics quoted in the press on the meat supply in this country. Judging by some of the reports we should have had a dozen meat famines over the past years. But the housewife still trots down to the store and comes home with meat. She can get good quality meat that has been prepared under the most stringent sanitary requirements at prices that are not out of line in the light of existing conditions. And statistics notwithstanding, there is reason to believe she will continue to do so.

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY
• The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
• Even when crop yields are the same, dollar production per acre may be high one year, low the next.
• That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices—not too high, not too low.
• That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
• That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

OBITUARY

As the evening sun was setting on Wednesday, October 20, 1948, the death angel came and called a loving mother from the cares of this world to her heavenly home. The summons came for Mrs. Nellie Ryle at the home of her daughter, Mrs. Myra Ryle, where she had made her home for 17 years.

Nellie Gray Craig, daughter of John P. and Jane Miller Craig was born October 28, 1863 and departed this life Oct. 20, 1948, at the age of 85 years, 11 months and 23 days.

She was united in marriage to D. Milton Ryle, Dec. 13, 1883, and to this union was born three daughters, Myra and two who died in infancy. On Feb. 6, 1931, this family circle was broken by the death of the husband and father.

She leaves to mourn her passing one daughter, Myra, two grandchildren Ivan and Ruby, four great-grandchildren, two great-great-grandchildren, two sisters, Mrs. Fannie Christena, of Orlando, Fla., and Mrs. Tillie Stevens, of Aurora, Ind., and several nieces and nephews.

Mrs. Ryle was united with the Rising Sun, Ind., Baptist Church when a young girl and remained a member until death.

During her long illness she was lovingly cared for by her daughter and family. She was loved and respected by all who knew her and will be sadly missed. -1c

When You Sell Your Crops . . .

You do more than sell bushels of grain, tons of hay, or bales of cotton. You are actually selling out of your farm land the fertility that it took to grow them.

Calcium and magnesium (lime) are two of the important plant-food elements that all crops feed on. Some are heavier feeders than others. Alfalfa requires a lot—the equivalent of 100 pounds of limestone in each ton of hay—so do clover and the other legumes.

Keep your farm productive and profitable by replacing what you take out of your soil.

We shall be pleased to supply the limestone for your entire farm or any part of it. Let us quote you.

Hoop Season Gets In Full Swing Fri. November 12

When Four County Teams Swing Into Action; Brief Summary Given.

Basketball season will get into full swing Friday evening when four county teams go into action. It will be the curtain raiser for Walton, Florence, Burlington and New Haven. Hebron's Cards won their opener last week when they defeated Crittenden by a 26-22 count.

A summary of prospects in the Boone County Conference is as follows: Walton: A veteran team, only one loss from last year's team, new coach, an average Walton schedule. Key men appear to be Vest and Maddox.

Hebron: You have to go along with a winner until they lose. Cards are handicapped at present with injuries. They also lost Big Bill Toadvine and Mulligan from last year's conference champs, but they still have plenty in Carver, McGlasson, Elliston, etc. They are coached by Chuck Ransler, a former Walton Bearcat performer.

Burlington: Also heavily handicapped by injuries at present. Lost Todiendler and J. Cave from last year's team, but still have seven lettermen back—most of whom are sophomores and juniors.

Florence: Headed by a new coach, Victor Brunner, the Knights appear to be the question mark of the conference. They lost heavily by graduation last year, but had a few key men back plus some good prospects from the reserve team of a year ago.

New Haven: Gone are Knox, Weaver, Simpson, etc. The Tigers still have several seasoned boys in Clements, Flynn and Mason. They could be the dark horses. Team coached by Don Hill.

Games Friday Night

Alumni at New Haven.
Florence at Walton.
Burlington at Dry Ridge.

Future Farmers Plan Annual Fall Festival

The Hebron Future Farmers of America are again having their annual Fall Festival. This festival is to be held at the Hebron school auditorium November 17, beginning at 6 p. m.

Everyone is invited to come and bring an entry. There will be contests for apple pie, pumpkin pie, sweet doughnuts and honey for the women and various field crops, such as hybrid corn, largest pumpkins, turnips, best plate of apples, potatoes, sweet and Irish, turnips, and other garden produce for the entire family. There will also be entries for tobacco.

A booth for the various clubs in the school will be a feature. The Hebron FFA will have several booths and will sell popcorn made fresh from the new machine, recently purchased.

Council Meeting Nov. 12

The Boone County 4-H and Utopia Council will meet at the County Agent's office at 8:00 p. m. November 12th. A financial report of the fair will be given.

All council members are urged to attend.

105 Farmers Attend Tobacco Grading Demonstrations

Twenty-one Samples of Local Crops Stripped and Graded.

One hundred and five farmers attended four tobacco stripping demonstrations held in Boone County November 4th and 5th.

Twenty-one samples of local crops were stripped and graded by Robert Goodwin, federal grader. Weights of these samples indicated yields as high as 3200 lbs. per acre for Ky. 21. This Ky. 21 crop was grown by Rouse and Tupman and averaged 5.7 ounces of stripping tobacco per stalk or 2 lbs. and 2 ozs. per stick.

Most of the crops graded were classified as medium size with good quality. Three crops were classified as medium size with choice quality.

Mr. Goodwin stated that Boone County Crops were among the best he has graded and are much better than the average central Kentucky crops. His observations from crop weights throughout the state are that the 1948 crop will weigh heavier than the crop of 1947.

MANAGES DRESS DEPARTMENT

Eileen Sheets

Friends of Eileen Sheets will be glad to learn that she was recently promoted to the position of manager of the dress department of Goldsmith's Department Store, 630 Madison Ave., Covington.

This popular lady resides in Unlon, and is a descendant of a pioneer family of Boone County, her mother having been a Naylor, and her father a Satchwell. She is a graduate of Hamilton High School. She says her parents have been Recorder subscribers for half a century.

Norman Marcuse, manager of the store, is almost a Boone Countian, too, having recently moved to 404 Center Street, Erlanger.

The store is celebrating its 36th anniversary with a special sale of every item of merchandise in stock.

Fox Hunt and Bench Show Planned By Verona Sportsmen

Large Number of Entries Anticipated, According to Advance Information.

A bigger and better fox hunt and bench show is planned this year by the Verona Community Club on November 17, 18, and 19th. The bench show will be held at the Verona school building 7:00 p. m. on November 17th and the following days leading dogs in the nearby states as well as Kentucky will provide keen competition in matching wits with that sly old fox before the much coveted winner's trophy is presented to the proud and happy owner. Both derby and all-age dogs will get a chance to see plenty of action. Usual entry fee will be collected.

All advance information indicates even a larger number of entries this year in spite of the highly successful hunt held here last year as was voiced by both fox hunters and the many persons who witnessed all or part of the activities.

For the past several weeks fox hunts have been held in other parts of the state and it is quite likely that a number of the winners at other meets will be on the starting line for the first cast. All dogs likely to see action in this meet will be well conditioned for the rugged contest where stamina as well as speed plays an important part in a two-day hunt.

The fine cooperation and splendid hospitality of land owners in the general location where the hunt was held last year has influenced officials to pick the same general location this year. It will be easy to find by those who did not attend last year as the first cast is to be made approximately one and one-half miles west of Verona on the Mudlick road at the Avery Beach farm. The exact hour of the first race will be announced at the bench show and in all probability will be about eight o'clock in the morning, depending somewhat on the weather conditions. The numerous roads in this section will permit a great portion of the race to be both seen and heard from cars. There is no charge for spectators at either the bench show or field trials. Arrangements are being made to have lunch available on the grounds in a convenient location to the actual field trial area.

So ,once again here is a grand opportunity for those who enjoy the great outdoors and a bit of good clean recreation in "Joining the chase," a sport of the Kings of old and now presented to you free of charge. This is one sport where honor of winning a ribbon or cup is held in higher esteem than great riches. Who could put a price on that fox hunter's satisfaction as his trained ear picks out his pride and joy leading a pack of fifty or more? Do the doks like it "Son, they are fox-hounds not dogs." Like it? Why many a time "Old Barney" lulled me to sleep with his "happy song" night on to day break as he left the rest of the pack far behind and chased "old Red" right to his den. No, he didn't try to dig him out. He just sat around and laughed out loud until the others finally got there. Then he sorta smiled and said, "well boys I laid it on you again." Chuckling to himself, he would trot on home to a nice warm bed and happy dreams of the night before.

For further information concerning entires for both the Bench Show and Field Trials contact Jo Webster, Verona, Ky., phone Walton 1240.

Utopians Plan Meeting Thursday, November 11

MASONS MEET TONIGHT

Members of Burlington Lodge No. 264 will hold their regular meeting at the hall in Burlington, Thursday, November 11 at 7:30 p. m. according to Wilbur Denniston, Master.

All members are urged to attend as there will be other business to be brought before the group at this time.

Peoples Deposit Bank Has 43rd Birthday Saturday; Total Resources Nearing $2,500,000 Mark

The Peoples Deposit Bank, Burlington had its 43rd birthday Saturday, November 6th, having been opened for business November 6, 1905, with $20,000.00 capital.

The bank has made rapid progress during the past 43 years, practicing all modern methods of banking and install the newest in bookkeeping systems. With increasing business, it was necessary for the bank to increase its capital in 1919 to $50,000.00, which it maintains at the present time. The bank now boasts a surplus of $200,000.00 and undivided profits of $50,000.00. The total resources of the bank are nearing the $2,500,000 mark, according to A. B. Renaker, president.

The original directors of the institution were B. W. Adams, Owen Conner, W. P. Beemon, W. L. B. Rouse, T. J. Walton, C. W. Riley, H. C. Duncan, Henry Clore, and A. W. Corn. Owen Conner died before the bank opened for business and E. H. Blankenbeker was chosen to fill the vacancy. Of the original members of the Board of Directors, W. P. Beemon is the only surviving member. Mr. Beemon has missed but two regular meetings of the Board in the 43 years of business of the bank.

A. B. Renaker was chosen as the first cashier. There was no assistant cashier, but Judge C. C. Roberts worked in the bank a few months without compensation merely to learn the banking business.

The bank has had five presidents during the past 43 years, as follows: B. W. Adams, W. L. B. Rouse, C. H. Youell, N. E. Riddell and A. B. Renaker, who is now president, having served in that capacity since 1942.

At the time the bank was organized there was another bank in Burlington, the Boone County Deposit Bank which had been in business since 1886. The two banks continued to do business in Burlington until 1927, when the Boone County Deposit Bank was consolidated with the Peoples Deposit Bank.

The Peoples Bank owned and was doing business in the brick building now owned by the Farmers' Mutual Fire Insurance Company. When the two banks were consolidated the Peoples Bank moved into the new modern building which the Boone County Bank had erected two years previous and which is located on Washington Street directly in front of the courthouse. The old brick building in which the Boone County Bank had been doing business and which was formerly the County Clerk's office prior to 1886, was moved to a lot about 100 feet west on Washington street and is now being used as the post office.

The Peoples Deposit Bank has an unusual honor, so the officials have been informed by bank examiners, in that this bank is the largest in the United States in a town the size of Burlington.

The bank has always enjoyed a large volume of business and the officials have always been alert to render a first class banking service, keeping in mind at all times the safety of its depositors. During the depression days of 1933 this bank experienced no banking difficulties, did not have to borrow any money and did not restrict its depositors in withdrawal of funds.

The bank's present officers are: A. B. Renaker, president; W. P. Beemon, vice president; C. L. Cropper, vice president; G. S. Kelly, cashier; Miss Nell Martin, assistant cashier; Mrs. Lucile C. Stephens, assistant cashier. The directors are A. B. Renaker, W. P. Beemon, C. L. Cropper, S. B. Nunnelley, C. F. Blankenbeker, F. L. McGlasson and Al Rogers.

Lutherans Have Premier of New Religious Film

Will Be Shown At Hebron And Hopeful Lutheran Churches, November 21.

A coal mine cave-in and a Holy Communion service 200 feet down in a Pennsylvania coal mine are two of the dramatic scenes of "Salt of the Earth," the new religious motion picture of The United Lutheran Church in America, to be shown at Hebron and Hopeful Evangelical Lutheran Churches, on Sunday, November 21. The times have been set as: 11:00 a. m. at Hebron, and 8:30 p. m. at Hopeful. This special performance has been arranged by Rev. Andres of Hopeful, and Mr. Chester Goodridge, of Hebron.

"Salt of the Earth" was produced as a special feature of the 30th anniversary of the United Lutheran Church, being celebrated this year. The film is being scheduled for showing in all 4,000 congregations of the church body located in all parts of the United States and Canada. It will be released for use by other denominations on January 1st through the facilities of the producer, Cathedral Films of Hollywood.

"Salt of the Earth" is the authentic, heartwarming story of a coal miner, Harley Russell, who decides that a Christian must do something about his religion. The role is played by Robert Armstrong and the supporting cast includes Russell Hayden, Pierre Watkin, Lane Chandler, Kurt Katch and the King's Men quartet. The film was produced in a semi-documentary style with many of the scenes photographed in the Pennsylvania coal fields and farm land. Camera work was done at Port Carbon, Mahony City, Pottsville, the Morea colliery of the Morea-New Boston Breaker Corp., and in the Hegins Valley, Pennsylvania.

This is the second film produced by the United Lutheran Church. The first, "And Now I See," produced last year, is now being seen in all parts of the world. Like the new film, its theme was "Christian stewardship is the practice of the Christian religion."

Burlington Eagles Will Open Season Friday Night

Hebron Trounces First Opponents By Score of 26-22 Last Thursday.

The Burlington high school Eagles will begin their 1948-49 basketball season Friday night with the Dry Ridge Cardinals of the Penogran Conference at the Grant County floor. Not much is known of the strength of the Dry Ridge team this year. Last year they placed second to Owenton in the large and fairly strong Pendleton-Owen-Grant conference.

The Eagles, fresh from their successful Xmas football season, are heavily handicapped with a number of injuries to key men on the net squad. Lafe Miller, all-district player of last year's team, is still suffering from a bad ankle and is not expected to see action for several weeks. Also ailing with less severe injuries are Johnny Cropper and Bill Cave. Both, however, are expected to see some action in the opening game.

The Eagles will play a twenty-two game schedule, exclusive of the annual Boone County School News blind tourney. It appears to be the toughest schedule in the history of the local school since it includes four Northern Kentucky Athletic Conference fives, two strong Catholic league quints, Kavanaugh of the Central Kentucky Conference and several strong non-conference teams besides the regular Boone county opposition which appears even better than last year.

The Eagle personnel is as follows: Lafe Miller, Bill McBee, John Cropper, Bill Cave, Jim Ryle, Bob Patterson, Estil Ryle, Sonny Ockerman, Gayle Rouse, Albert Rouse, Bobby Walton, Harold McFarland, Gerry Ryle, Harold Dringenburg, Ray Deck, Jack Patterson and Ray Holbrook. Team managers are Gene Perry and Kay Kelly. Cheerleaders are Helen Fay Eggleston, Joyce Kelly and Loretta Maynard.

The schedule as announced this week is:

Nov. 26—Cov. Cath. (T).

MANY 4-H CLUBBERS ENROLL IN COLLEGE

A total of 1,431 former 4-H club members now are students at the University of Kentucky. This is 21.2 percent of the enrollment of undergraduates on the University's campus at Lexington. Of the 899 students in the College of Agriculture and Home Economics, 51.4 per cent have been members of 4-H clubs.

CHEAPER GRAIN COULD MEAN BETTER FEEDING

In view of lower feed costs it should be profitable to feed a pound of grain for each three or four pounds of milk, says dairy specialists at the College of Agriculture and Home Economics, University of Kentucky. Or feed a pound of grain for each two pounds of milk produced over and above 10 pounds of milk for Jerseys or Guernseys and 15 pounds of milk for other breeds. It is further suggested that it should be profitable to feed sufficient grain to dry cows and heifers to get them in good flesh before calving.

Lee county seed dealers sold more than 10,000 pounds of seed for cover crops, most of it being vetch, ryegrass and crimson clover.

YIELDS BOOSTED ON LINCOLN FARM

The 150 bankers, farmers and businessmen who attended the bankers farm management meeting in Lincoln county saw a farm where improved practices have more than doubled crop yields and livestock returns.

When Harry Goggin bought the 218 acres in 1917 corn produced around 25 bushels; hay, eighty-tenths of a ton, and tobacco, 850 pounds, an acre. The average yields for the year of 1948 through 1947 were 70 bushels of corn, two and a half tons of hay and 1,800 pounds of tobacco.

A program of spreading lime-stone, phosphate and fertilizers, terracing and crop rotation made most of the improvement. All the farm has been limed once and most of it twice. Liberal use of fertilizers brought a luxuriant growth of legumes and grasses that supports 80 beef cows, 75 ewes, three brood sows and four cows.

Large amounts of fertilizer have been used for both corn and tobacco. Crop rotation, contour terraces, and waterways, together with cover crops, give protection against soil erosion.

Figures submitted by County Agent O. B. Redd showed that Goggin got back at least $2 for each $1 spent in improving the land, in the past five years alone. And increased crop yields may be expected over many more years, from treatments already made.

The visitors were told that every building on the well-equipped farm, with the exception of the smokehouse, had been built since Mr. Goggin took over the place.

Green B. Brashear of Perry county grew more than 40 varieties of vegetables in his garden the past summer.

MORE RESERVOIRS ON KENTUCKY LAND

Since 1944, bulldozers have been used to dig an average of 6,500 farm reservoirs a year in Kentucky, according to Earl G. Welch, farm engineer at the College of Agriculture and Home Economics, University of Kentucky. There are around 300 customs operators of bulldozers in the state, he said.

Welch said the first engineered farm reservoir in Kentucky was made in Powell county in 1924. About 200 reservoir demonstrations were established by the extension division of the college up to 1938.

In 1939, customs operators using bulldozers began planning and building reservoirs as a business. According to annual reports of county agents, a total of 46,073 reservoirs have been made with an average shoreline of 471 feet. They vary in size from small farm ponds to 30 acres, and one recently was made in Grayson county covering 50 acres.

The total area of farm reservoirs constructed by customs operators in Kentucky since 1939 cover 18,429 acres, with a shoreline totaling 408 miles, Welch said.

RECIPE OF THE WEEK

Now that apples are plentiful, try serving them in a variety of ways. An easy dessert to prepare has a graham cracker mixture spread over the sliced fruit before baking. The recipe is from the College of Agriculture and Home Economics, University of Kentucky.

Graham Cracker Brown Betty: 4 cups sliced apples, ½ cup sugar, ¾ cup water, ½ teaspoon cinnamon, 1¼ cups graham cracker crumbs, 2 tablespoons sugar, 1½ teaspoon lemon rind grated, ¼ cup nut meats, one-fourth cup melted butter.

Combine the first four ingredients and place in baking pan. Mix together the remaining ingredients and sprinkle over fruit mixture. Bake approximately 30 minutes in moderate oven, 350 degrees. Serve hot or cold with cream.

Menu: Baked ham, scalloped potatoes, buttered peas, combination salad rolls, butter and graham cracker brown betty.

KENTUCKY FARMERS SWEETEN SOUR LAND

Kentucky farmers have applied 19,500,000 tons of limestone to their land in the past 30 years, and the state now ranks first in the amount of lime used per crop acre. Most of this vast tonnage of soil sweetener has been used in the past 10 years, in the state-wide soil improvement program of the College of Agricultural Experiment Station.

About 1,900,000 tons of limestone were used in Kentucky last year, and this year's figure may exceed that tonnage. The largest amount used in one season was 1,800,000 tons in 1941.

The economic value of this lime program to farmers in Kentucky cannot be overestimated. It was pointed out. It has resulted in increased crop yields all over the state, and has been especially valuable in increasing hay and grass production. Altho the use of limestone has helped to restore to production thousands of acres of more or less abandoned land.

Despite the use of large amounts of lime, R. C. Jones of the College of Agriculture says probably 8,000,000 acres in the state still need lime. He advises farmers to have soil tests made, so they may know whether their land is sour. If it is not sour, it is a waste of money to use limestone, he said. Also, too much limestone should not be applied. Little land needs more than two tons to the acre, and much of it needs less than that, Jones pointed out. Yet, some instances have been reported where farmers used four tons to the acre, and in a few cases six tons.

REMODELING DONE ON 50-YEAR-OLD HOUSE

Suggestions learned in the Other Fund Homemakers Club proved valuable to Mrs. Claude McConnell of Caldwell county this summer, when she and her husband had their 50-year-old house remodeled. The old kitchen and dining room were torn down and a basement dug. Then a dining room, kitchen and bath room were built, a hardwood floor laid in the living room and the house was painted. The step-saving kitchen is now equipped with an electric stove and refrigerator, built-in cabinets and double sink.

Mrs. James Mitchell of the same homemakers club, and her husband, also remodeled their kitchen and installed a bath room.

Why Suffer With Your Feet?

N. TULCH
Foot Comfort Specialist at
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Our years of research have proven that foot comfort depends on foot balance.

For years men have been guessing about foot balance, putting steel supports under feet and elastic bands around feet, all sizes and shapes corn pads, plasters, callous plasters, etc. Yet people continue to suffer with their feet, legs, back and with various other aches and pains, resulting from feet in numerous cases, because they never had their body weight properly balanced on their feet with shoes.

Your feet may look regular to you, but naturally you cannot detect weakness or have any way of testing for unbalance. But remember "fat on the ribs" is by no means an adequate criterion of physical well being.

Don't take chances. If you are suffering with leg pains, knee pains, stiffness, backaches or severe headaches, or sleep poorly and are always tired, your feet may be the cause.—Adv.

TO STAY BY FARM

After his county agent helped him work out a long-time program, Howard Vaughn, a young Green county farmer, decided to remain on the home farm where he had been living with his father and grandmother. At the suggestion of County Agent John H. Ewing, Jr., he arranged to take the place over and is now setting about to improve the farm and make it into a home for his family. This fall he will spread limestone on about a fourth of the 75 acres and put phosphate on 10 acres.

Approximately 2,500 acres of corn in Spencer county were fertilized this year, resulting in the county's best corn crop; 95 percent was hybrid.

4-H'ERS SHOW 107 CALVES AT LONDON

One hundred and seven calves from 10 counties were exhibited and sold at the first Southeast Kentucky 4-H Club Fat Cattle Show and Sale at London.

Betty Sue Cornett of Clay county, secretary of the Kentucky Association of 4-H Clubs, had the grand champion calf. It weighed 995 pounds and sold for 43 cents a pound. Mattie K. Dixon of Magoffin county owned the reserve grand champion, a 730-pound calf that brought 38 cents a pound.

Owners of blue ribbon calves in the heavy class were Betty Sue and Perry Cornett, sister and brother of Clay county, and Jennings Young of Jackson county. These calves brought an average of $39.80 per cwt.

In addition to Mattie Dixon, owners of blue ribbon calves in the light class were Charles Hammons and Glenn Hammons, Laurel county, John D. Cornett, Clay county, and Eugene Durham, Joe Bennett and Helen Burnett, all of Whitley county. These calves, weighing under 750 pounds, sold for an average of $34.30 per cwt.

The 107 calves brought a total of $36,114.65, or an average of $33 a hundred pounds.

Of Benjamin Franklin Hood, who departed this life November 3rd, 1932.
Goodbye, dear grandpa, goodbye;
Through all these years
There have been some tears
For your voice that was stilled

In that Land far away
Where our Savior stands
With His beckoning hands;

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY
- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices —not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

BIG TOBACCO CROP

One of the biggest tobacco crops in the history of Hancock county turned out in good color and high quality. This was due, according to County Agent Chas. L. Goff, to the use of green manure crops of winter legumes, the growing of disease resistant varieties, and leaving the tobacco out of barns until partly cured. Best results were obtained where Ky 33 or Ky 17 was grown, and Goff said most farmers will grow one or both of these varieties next year in order to avoid disease loss.

HOMEMAKERS STUDY HOUSE FURNISHINGS

Mrs. Ada O. Carter, home demonstration agent, recounts some of the accomplishments of homemakers in Marion county as a result of a year's study of home furnishings in homemakers clubs.

Following a lesson on color harmony, pattern and color were improved in 289 rooms. One hundred and seventy-one floors were refinished and 64 new ones finished after a study of floor treatment. Wall finishes were changed in 302 rooms and woodwork was redone in 226 rooms. Two hundred and twenty-six pairs of glass curtains and 87 pairs of draperies were made according to approved methods. The length of 109 pairs of draperies and curtains was changed.

One of the most popular discussions was that of picture selection, framing and hanging. As a result, 109 were reframed, 124 new pictures were hung, 4 were reconditioned and 128 removed.

Mrs. Elmer Dalton, county home furnishings leader, put the information to good use, said Mrs. Carter, when she had floors sanded and refinished and woodwork painted white. "Then she selected wallpaper, draperies and slipcovers according to color principles learned in her club work.

GARDEN DEBRIS CAN BE MADE INTO HUMUS

By John S. Gardner

The vegetables now are killed, except possibly Chinese cabbage, cabbage, greens and turnips, which ultimately the frost or a freeze will destroy, except that it is hoped that the cabbage and turnips will have been restored.

Two vegetables improved by freezing in the garden are parsnips and salsify, and to a lesser extent, carrots. Except for these, before long the garden will be completely bare, other than for the graveyard of skeletons of vines and stalks, a depressing sight.

Rather than look at that sort of thing all winter, the garden should be cleared off and the old stalks and vines piled together to rot down into humus, enough at least to spread over the flower garden or for making potting soil for house plants. Left in the garden all winter, this material will have to be removed before plowing or spading can be done, to be burned to get out of the way, which means material which is really valuable and scarce will be estroyed.

SCOTT WOMEN GREW ACRES OF GARDENS

Had all the gardens of Scott county homemakers been placed together last summer, they would have made a garden patch more than 2 acres in size, according to Mrs. D. W. Houston, project chairman. From it, more than 5,000 quarts of food were canned.

Homemakers in that county canned also 5,000 quarts of fruit and preserves and placed 813 pounds of fruit in freezer lockers. More than 15,000 pounds of meat were cured, 6,000 pounds frozen and 1,065 quarts canned.

MARION COUNTY MAN SUCCESSFUL FARMER

When 350 farmers and other persons attended a recent meeting at A. C. Glasscock's place in Marion county they saw a 293-acre farm that had been made to pay for itself since 1932.

Mr. Glasscock began farming with 62 areas for which he borrowed the entire purchase price of $5,000. He concentrated his efforts on eight milk cows, 20 ewes, 15 hogs, 200 hens and four to six acres of tobacco, according to Marion County Agent G. H. Karnes' review of his operations.

Eighty acres were added in 1942. Beef cattle were raised on the cow-and-calf plan, sheep increased to 60 ewes, hogs to 30 to 40 head, and chickens to 300 to 400 hens.

In 1945, 151 acres were added making the farm 293 acres. The beef herd was increased to 25 cows, with 20 steers or heifers fed out each year. Also, 200 hogs and 150 lambs were fattened. About 400 hens were kept.

Mr. Karnes notes how the original 62 acres and each added tract of land were limed and phosphated. Tobacco yields moved up from 887 pounds an acre in 1933 to 2,182 pounds last year, and corn yields from 45 to 50 bushels to 100 bushels per acre.

The visitors saw 5,000 pounds of primed tobacco, good pastures and big corn. They also saw how the land had been terraced. They saw a flock of chickens raised on clean ground. Other things they saw: A modern home, with running water, up-to-date kitchen, electric water heater, refrigerator, deep freeze, a good orchard, a productive garden, and two ponds for stock water and fishing.

GOOD MANAGEMENT PAYS IN DAIRYING

An Eastern Kentucky dairyman reported a production gain of 12 percent in two years due to such improvements as:

Keeping breeding records and conditioning cows during a six-week to two-month dry period.

Regular milking hours and feeding habits.

Improvements on water supply.

Keeping cows in the barn on cold, rough days.

Keeping the barn warm but well ventilated.

Providing sufficient bedding to keep cows comfortable.

Dehorning cows housed in a rest barn.

Dairy specialists at the College of Agriculture and Home Economics, University of Kentucky, said:

"Many cases, such as this, lead one to believe that good management, plus improved pasture and better legume hay, could make the average dairy cow in Kentucky produce 220 pounds of butterfat a year instead of 170 pounds. This would mean an increase of about 40 percent in net income from milk."

4-H WORK HELPS PAY WAY THROUGH COLLEGE

Miss Eloise Lorch of Anchorage, Jefferson county, made use of her 4-H club project work to earn money for a considerable part of her expenses at the University of Kentucky, where she is enrolled as a freshman in the College of Agriculture and Home Economics.

Miss Lorch was awarded a $200 scholarship by the Farm Underwriters Association for writing an essay on ways which she, with the cooperation of her parents, eliminated fire hazards in their home. Another $200 was earned by Miss Lorch when she operated a play-school for small children at her home for a period of five weeks. Then, when not otherwise engaged, she did baby sitting.

Style revue champion in Jefferson county and a blue ribbon winner at 4-H Week at Lexington, this 4-H'er saved on her college clothing budget by making all of her wardrobe with the exception of a winter coat. That she appreciates the finer techniques of sewing was seen when she won the Jefferson county clothing judging contest, to be followed later with a blue ribbon at 4-H Week.

Although Miss Lorch has a fine foundation for a home economics career, she is as yet undecided in which of its many phases she will specialize.

PRODUCES GOOD APPLES

For an outlay of $7.40, Arthur Keith of Wiborg, McCreary county, harvested and sold 70 bushels of fine apples after a worthless crop a year ago, he told George D. Corder, county agent. Mr. Wiborg paid $1.40 for an army surplus spray last spring and $6 for spray material. He spent nine hours spraying his apple trees three times.

THIS ROBBER WORKS THE YEAR ROUND

Rainwater is a soil robber. As it seeps down through your farm land it dissolves and carries with it hundreds of pounds of lime from each acre each year.

Soil experts call it leaching and have found that this process which goes on winter and summer, day and night—the year around—is robbing each acre of your farm land of lime equal to from 200 to 500 pounds of limestone every year.

You can't keep cashing checks at your bank unless you also make some deposits. Neither will your farm stay productive and profitable unless you replace the lime that has been robbed from your soil by leaching.

From the Editor's Desk

Back Door To Socialized Medicine

In a strongly worded resolution, unanimously passed at its recent convention in Akron, the Association of American Physicians and Surgeons urged medical schools to refuse Federal aid, on the grounds that it would open the back door to socialized medicine.

The association fully recognizes the need of more money for medical schools in these days of high costs. But it believes funds should be raised by campaigns among private sources.

There is certainly plenty of justification for the fear that Federal financial support of medical schools could be the prelude to socialized medicines. Once the government get a financial stake in any enterprise, it tends to dominate it more and more. The beaucrats in charge are always exceedingly zealous in advancing their own prerogatives and powers. And he who holds the purse-strings is usually able to call the tune.

The Association of Physicians and Surgeons is combating socialized medicine for two specific reasons. First, it believes it would result in inferior medical care. Secondly, it would result in inferior medical care. Secondly, it would have an exceedingly damaging effect on the national economy. New Zealand, for instance is now spending 40 per cent of all government revenue on its socialized medicine scheme—and it still has deficits, and it hasn't been able to deliver all the promised benefits. The resolution pointing to the dangers inherent in Federal financial domination of medical schools is exceedingly timely.

Irreplaceable Wildlife

Once, it is reliably estimated, there were 75,000,000 buffalo in the Continental United States. Now only a few pitifully small herds are left.

Audubon, the great painter of the birds of America, saw literally billions of passenger pigeons, one of the most beautiful of game birds, during his travels. The last of them died years ago in a zoo, and the species is extinct.

As all hunters know, the population of ducks, pheasants, quail, and the remaining game birds has been decreasing dangerously. The result has been constantly shortened seasons and decreased bag limits.

Once the wildlife resources of a country are destroyed, it may be impossible to bring them back. At best, the process takes many years and enormous sums of money. And this is one phase of the governments electric power and land recovery program which needs far greater public understanding than it has so far received.

Some of the greatest streams in the country have been damned by the goverment—at an unknown cost in fish. If the propents of unlimited socialized power development have their way, hardly a water course of any size will remain as nature intended it. Again, the vast lakes created by government dams have flooded lands which were once used as resting and feeding areas by migratory game. And of tremendous importance, the draining of marshes and similar lands has destroyed the nesting grounds of wild fowl—and thus cut deep into this irreplaceable and valuable living national resource.

The opposition of those who want to conserve wildlife against the indiscriminate development of land and water, at the expense of fish and fowl, is growing fast.

Motor Vehicle Taxes

Motor vehicle taxes levied on Americans in 1947 exceeded $3,000,000,000 for the first time in history, according to the twenty-eighth edition of Automobile Facts and Figures, issued by the Automobile Manufacturers Association.

The record tax collections were one of twelve record high marks that the automotive industry registered during the past year.

While all State and local special taxes—registration fees, gasoline levies, city and county taxes and road tolls—reached new high levels in 1947, the Federal excise tax collection rise of 32 per cent over 1946 represented the largest increase. The latter includes the special levy on all new-vehicle purchasers.

Blessings In Disguise

To need something, to have the money ready to pay for it, and still not be able to get it, is an annoyance most of us have experienced in the past few years.

It has been the same story with highway construction. During the war roadbuilding came to a halt. But untold millions of dollars in special highway taxes paid by motorists kept rolling in. The money couldn't be spent for highway improvements then, and so it kept accumulating. The result is a tremendous backlog of funds to build new roads and improve old ones. And the tax millions continue to pour into highway treasuries at a greater rate than ever before.

The motorist has been annoyed because he hasn't seen this money converted into roads. With the needed money on hand in greater amounts than ever before, he's been asking what's holding up those promised postwar highway improvements. The answer, of course, is found in shortages of road-building equipment, materials and manpower.

The situation today is like that after World War I. Then the nation experienced a temporary period of scarcities and high prices. After inflation ran its course, however, prices leveled off considerably in the highway construction field.

Economists expect the same thing to happen when the present inflation blows over. If so, the delays in highway construction will prove to have been a blessing in disguise. After prices are stabilized we should be able to get a lot more in highways for the enormous amounts of money now held in reserve for road building. We'll get more miles of better road for the same dollar.

Steel Is Short

The steel industry insists that it is trying to supply the demands of American industry dependent on their materials. It may be so! The strain upon steel supplies has been intensified by the demand of rearmament and the European Recovery Program. The American public keeps right on watching the steel producers.

Where Are They?

Two "No Parking" metal signs were removed from the lawn in front of my home during the Hallowe'en celebration, which I would like to locate before having to go to the expense of having new ones made.

I will appreciate any information as to where these signs may be located. I cannot feel that the boys, in having their fun, wanted to destroy them.

Notes and Comments

From the Editor's Desk

It Belongs To History

The 1948 election belong to history and the historians will dig deep and long in search of the whys and wherefores of Mr. Truman's amazing victory. It was an unprecedented contest in several respects, and not the least of these is the fact that apparently only one man in high position in the country sincerely believed that the President could be elected. That was the President himself, and he was right.

The magnitude of the upset is illustrated by the publication, in one of the nation's largest weekly picture magazines, just prior to the election, of a full-page photo of Governor Dewey with a caption referring to him as the President-Elect! Every one of the polls, despite a remarkable record of accuracy in previous elections, was dead wrong. So were the gamblers who fixed the betting odds. And so—to their current sorrow—were a great many Democratic offficeholders who abandoned the Truman cause in the belief that all was lost and tried to save what they could for themselves.

So much for the unchangeable facts. What theories can be advanced to explain Mr. Truman's demonstrated ability to get the vote?

There is some criticism of the Republican campaign, and it existed even before the election. Those who feel this hold that Mr. Dewey was too confident, too sure of victory, and, as a consequence, too careful in his tactics. He did not go in for an all-out scrap.

It is possible that, also due to over-confidence, the GOP organizations partially failed on the vital job of getting out the vote. The total vote cast, while large, was not as great as was expected. The Democrats worked extremely hard at urging their followers to go to the polls. So, perhaps, substantial numbers of Republican registrants didn't trouble to vote due to the comfortable illusion that it was in the bag.

The labor leaders, as was to be expected, are claiming the lion's share of the credit for the upset. Labor was doubtless an important factor—but it is also true that Mr. Truman was very strong in the great agricultural areas which had been written off as Dewey territory. His margins in most industrial regions, for example, were not as great as Roosevelt's. But his margins in the country were often greater. Perhaps the farmers took Mr. Dewey's assurances with a grain of sale that farm price support would be continued, and regarded Mr. Truman as a safer bet.

Dr. Gallup, whose poll missed the boat with the rest, has said that there was a tremendous surge to Truman at the very end, and that this was largely at the expense of Henry Wallace. That, he thinks, is the main reason for the polls going wrong. The very poor showing made by Wallace gives credence to this opinion.

In all probability Mr. Truman scored heavily when it came to the housewives' vote. He never stopped blaming the Republicans for the high cost of living. So, rightly or wrongly, many women voters decided that he was the man to help them with their budget problem.

Last, but ny no means least, was the President's courageous fight in the final weeks. He conducted an essentially old-fashioned campaign. He called names and pulled no punches. On several occasions he threw carefully prepared speeches away, and spoke his mind without a text—and it was then that he got the most tumultous applause. His approach and his attitude were homespun and down to earth, and people liked it. American sentiment traditionally runs to fighters and to underdogs, and that may have been enough to put the President over in an election which was very close.

One of the big questions now concerns the future of the Republican party. It could not have received a more bitter blow. It had won handily in the Congressional election of 1946, and everything seemed to be in its favor for the first time in twenty years. It stood on its legislative record, and that record, in the view of the majority, was not good enough after Mr. Truman got through with his burning attacks on it.

Losing the Presidency was bad. The losses in Senate and House were staggering. At the worst, the GOP leaders though there might be a 48-48 tie in the Senate, and no one even considered the possibility of losing House control. As it stands, the Democrats have amazingly large majorities in both bodies.

Also serious is the GOP's heavy loss in governships. This means a weakening in state strength, a decline in patronage, and the undermining of the local groups upon which the vitality of a party largely depends. The big policies are made in Washington, but it is in the precincts and the townships that the basic work is done.

These are all GOP debits. Heavily on the credit side is that the party did poll 23,000,000 votes or so. A party that can do that is hardly dead. And everyone knows how the Democratic Party came back after the doldrums it found itself in after the first war. There will be some reorganization. The party will have to look around for attractive candidates and start grooming them for the future. There will have to be greater and more effective effort to attract younger voters. Such matters as these will be the main concern of GOP chieftains in the years ahead.

CHILDREN OF FORMER BOONE COUNTIAN DIE IN DAYTON FIRE

The two infant sons of Mr. and Mrs. Marvin Freeman were burned to death Wednesday of last week as fire destroyed their 3-room cottage at Dayton, Ohio. A third child Patricia Jean was saved, as she was playing in the yard at the time.

Mrs. Freeman's attempts to save her sons were futile as she was driven back by the smoke and flames. It was believed an oil heater exploded, causing the fire.

Mr. Freeman is employed by a construction firm in Dayton and was at work at the time of the tradegy.

Mrs. Freeman is the youngest sister of Mrs. Ralph Marsh, of Burlington and Levi Pennington, of Walton.

Brent Spence Will Push Rent Control Measure in House

Will Probably Head Powerful House Banking Committee.

Rep. Brent Spence will push legislation for low-cost housing and extension of rent control in critical areas in the next Congress, he announced last week. He favors a rent control bill "with teeth" that would plug loopholes in the present law. He said present legislation does not protect people who need protection.

Mr. Spence said the housing situation is a mess and promised early hearings. He states that 90 per cent of the houses being built sell for over $10,000, which is beyond reach of most people who need them.

He is slated to head the powerful House Banking Committee. As such, he will guide President Truman's economic program in the House. He will be a key man in giving priority to new laws. He held this post for 3½ years during the war.

Mr. Spence, his secretary, Miss Ruth Bennett and Mr. Bonar visited Burlington, Wednesday of last week, Mr. Spence stated that he was unable to contact voters in his district prior to the election, due to the illness of his wife. He plans to return to Washington shortly before the new Congress meets January 3. The House will organize soon after that date.

Any landowner residing in the county, may if he so wishes, place his name in nomination by securing signatures to a nominating petition of twenty-five land owners residing in the country, who are also legal voters. Copies of nominating petitions may be had by calling at the Recorder office.

The election of three from the number of those so nominated will be held at a date in January to be fixed by the State Conservation Department. The date selected will be announced in The Recorder.

Mr. and Mrs. C. F. Rogers and family spent Saturday in Covington and Cincinnati, shopping.

Eagles and Bearcats Chalk Up Victories In Friday Games

Eagles Defeat Dry Ridge While Walton Trims Florence Knights.

Burlington's Eagles, still in their winning ways from six-man football opened their 1948-49 net season with an impressive 48-26 win over the Cardinals of Dry Ridge at the latter's floor last Friday night. The Eagles, though heavily handicapped with injuries, jumped into an early lead during the first quarter and were never seriously threatened by the Penogran representative.

Outstanding for the Burlington team were McBee with his control of backboards and Ryle with his stellar floor play. Ryle lead the offensive threat also with 17 points. Lafe Miller, even with a bad ankle and on the bench half of the game tallied 13 and McBee added nine. Cropper, Cave, Patterson and Rouse all showed much promise.

Quarter scores were 9 to 3, 17 to 10, 32 to 16 and 48 to 26.

The Burlington reserves, led by "Sleepy" McFarland who tallied 9 points, had little trouble with the Card reserves as they won 19-11.

Walton's Bearcats, under the direction of their new coach Charley Hays, won the first Boone County Conference game Friday night at Walton when they trimmed Victor Brunner's Florence Knights by a 46-35 count.

Only three points (24-21) separated the two at the half time but the Bearcats paced by Dyke Vest pulled away in the third quarter. Vest scored 14 points for the Cats and Lipscomb hit for 11 to aid the Knight cause.

Burlington Locker Plant Remodels Processing Dept.

Work started last week on remodeling the Burlington Locker processing department, according to Carl McCarty, manager.

The front room of the plant has a new appearance as partitions has been moved, to give the processing department added space.

This change is being made due to increase orders for "chip steaks" produced solely by the Burlington Locker Plant for the State of Kentucky.

Complete work benches have been installed in the processing department, with a new chip steak slicer, which will now give the plant two machines, where only one was formerly in operation. Manager McCarty also stated that the added space and equipment will speed up processing for Boone County patrons, thus making the plant more efficient from every standpoint.

Remodeling work at the plant is expected to be completed this week, Mr. McCarty said.

During the past year the local plant has made rapid progress, expanding in many departments, and now has a reputation as one of the outstanding locker plants of Kentucky.

The bride wore a beautiful white crepe dress, white feather hat and carried a bouquet of orchids. Her attendant wore blue. Both the groom and best man wore blue suits.

The young couple left for a week's honeymoon in New Orleans, following a reception held in Yazoo City.

The bride attended Burlington grade and high school and is a graduate of the class of 1946 Presentation Academy, Louisville.

New Religious Film Will Be Shown In Special Services

Hebron and Hopeful Churches Sunday, Nov. 21; Public Invited.

"Salt of the Earth," the new religious motion picture produced in the Pennsylvania coal fields and in Hollywood for the United Lutheran Church in America, will have a premiere showing on Sunday, November 21, at the following times:

Hebron Evangelical Lutheran Church, 11:00 a. m.

Hopeful Evangelical Lutheran Church 8:30 p. m.

These two times were arranged to enable everyone to see this important work.

"Salt of the Earth" is the dramatic story of what one man did when he took God seriously. Robert Armstrong plays the leading role of Harley Russell, a coal miner. He is supported by Lane Chandler, Russell Hayden, Pierre Watkin, Kurt Katch, and the King's Men Quartet. Special music, based on the well-known hymn, "Jesus, My Lord, My God, My All," was written for the film. This motion picture was produced for the United Lutheran Church in America by Cathedral Films of Hollywood and was directed by John T. Coyle who directed the United Lutheran production, "And Now I See," which has been seen by more than 1,000,000 church members of all denominations in one year, and which was received so well in this community last fall.

The theme of "Salt of the Earth" is stewardship and evangelism. With the coal mines and a coal mining town as the setting, the film drives home what the average man can do in his home church once he has decided he must serve his Lord. The climax is reached when this miner goes out to bring his enemy into the church.

This film was produced as part of the 30th anniversary program of the United Lutheran Church celebrated this year. It will be shown in all 4,000 congregations of this church body this fall. The church committee in charge of arrangements are headed by Rev. Andres of Hopeful, and Chester Goodridge of Hebron.

Rabbit and Quail Season Opens In State Saturday

Open Season on Deer Announced For Five Counties.

Kentucky's nimrods will fire their first volleys next Saturday, November 20, when the 1948-49 season on quail and rabbits opens. Hunting of these two species will be legal until January 10, which brings to a close a 51-day period of hunting in Kentucky.

All hunters are required to possess a hunting license, the Division of Game and Fish points out, and pump and automatic repeating shotguns must be plugged so that the barrel and magazine combined will hold not more than three shells, with the plugs of such type that they can not be removed without disassembling the gun. Statewide licenses, which are valid in any county in Kentucky, may be obtained for $3, while a $1 county license permits the hunter to take game only in the county so designated on the license.

Bag limit for quail this season is 10 per day per hunter, the Division points out, while the possession limit is 20 after the first day, provided the hunter has hunted two or more days. Limit on rabbits is eight per day, with 16 being permissable, after the first day, provided the possessor has hunted two or more days. The Division warns hunters that 107 conservation officers will patrol the fields this season to see that these rules and regulations are complied with.

Reports from throughout the state indicate more quail and rabbits this season than last, the Division claims. A recent survey, conducted by the Happy Hunting Ground magazine, showed that rabbits are on the increase from the all-time low of last season in some of the counties, while the bird crop is generally regarded as improved over the 1947 season in practically all sections. This survey was made by polling the 107 conservation officers of the Division throughout the state.

In addition to the quail and rabbit season a 15-day open season has been declared on grouse or native pheasant this year. The season will open on December 1 and continue through December 15, with a bag limit of two per day, the Division reports. The season on ducks and geese opens at noon on December 10 and continues thru January 8 with a limit of four each day and a possession limit of eight ducks after the first day. Possession limit for geese is eight. The shooting hours after the first day are from ½ hour before sunrise to one hour before sunset, except on the first day when the hours are from noon until one hour before sunset. Included in the bag limit or possession limit shall be not more than one wood duck nor two Canada geese or its subspecies or two white-fronted geese or one of each.

The deer season in five Kentucky counties—Nelson, Hardin, Breckinridge, Meade and Bullitt—will open on November 27 and continue thru December 4. Only antlered buck deer may be taken and only shotguns, loaded with slugs or 00 buckshot may be used. In addition to the regular statewide hunting license a special deer hunting permit, which costs $5, is required.

McCain-Hempfling

Main Street Methodist Church, was the setting for a pretty candlelight wedding Saturday, November 6 at 7:30 p. m., when Miss Doris McCain, daughter of Mr. and Mrs. Andrew McCain of Winston Hill Drive, Latonia, became the bride of Mr. Charles F. Hempfling, son of Mr. and Mrs. Charles L. Hempfling, of Taylorsport, Ky.

The Rev. A. E. Smith, pastor, performed the double ring ceremony. The church was beautifully decorated with large baskets of white flowers, two sets of candlabra and single candles placed in each window.

The bride wore a gown of white satin, having a close-fitting bodice, long pointed sleeves, hooped skirt and a long train. Edging the net yoke was a wide band of lace, and the skirt was ruffled in rows from the waistline to the end of the train. Her veil, an heirloom, was worn by three generations of brides in the groom's family. She carried a bouquet of white bridal roses. Her only jewelry was a triple strand of pearls, gift of the groom.

Miss Joyce Cook was maid of honor in blue satin. Bidesmaids were Miss Virginia McGlasson, in dusty rose satin and Miss June Moorehead in peach satin. Each attendant wore a shoulder-length veil matching the color of her dress, and carried an old fashioned bouquet of pompons. Flower girls were Selma Jean McGlasson and Mary Beth Hempfling, both dressed in pale apple green satin, and carried miniature old fashioned bouqets of pompons.

The groom was attended by Mr. George McCain, brother of the bride, Mr. Melvin Ray McGlasson and Mr. Carl Kenyon. Ushers were Mr. Earl Sprague and Mr. George Humphrey.

Music for the ceremony was provided by Mr. James Lee, organist.

Mrs. Lloyd Doerman sang "At Dawning" and "One Alone" and Mr. Harold Dungan's selections were "I Love Thee," "Because," and "The Lord's Prayer," preceding the ceremony.

Committeemen Will Be Elected For County November 18

Five Voting Points Are Listed; Farmers Urged To Participate in Election

Annual elections of farmer committeemen to administer the Agricultural Conservation and Price Support Programs of the U. S. Department of Agriculture will be held in Kentucky on Thursday, November 18, R. O. Wilson, Acting Chairman of the Production and Marketing Administration State Committee, announced here today.

All community committee elections will be held in community meetings. The Boone County election will be held at the places listed below from 1:00 to 2:00 p. m. on Thursday, November 18th:

Constance, Hebron, Petersburg at Hebron Bank.

Burlington, Florence, Grant, Burlington courthouse.

Hamilton, Hamilton School.

Union and Beaver at New Haven School.

Walton and Verona, at Walton Garage.

It is hoped to have the 1948-49 Burley Marketing cards at the respective voting places for distribution at that time.

Three regular committeemen and two alternates are to be elected in each of the State's 717 communities. Each community will also elect delegates to its county convention which will be held on Friday, November 19. The county conventions will elect county committees to manage the State's 120 county agricultural conservation associations during the coming year.

These community and county committees are responsible for local administration of the Agricultural Conservation Program, Marketing Quota Programs, Price Support and Commodity Loan Programs, and for certain phases of the experimental Federal Crop insurance Program.

Any person who is participating in the 1948 Agricultural Conservation Program, any person who is eligible for a 1948 price-support crop loan, or any person who has a contract with the Federal Crop Insurance Corporation this year is eligible to vote in the committee elections, the State PMA Chairman said. The list of eligible voters includes farm owners, operators, and tenants.

"The choice of Kentucky farmers in these elections should be made by a majority of farmers in the State," Wilson said, "therefore I urge that every eligible farmer vote in his community committee election."

DR. MATHIS WILL GIVE PROGRAM AT HEBRON

A group of boys and Dr. Mathis, of Wittenburg College, Springfield, Ohio will present a program at Hebron Lutheran Church Sunday afternoon, Nov. 21st at 4 p. m. Anyone interested in attending college is invited to attend.

Union Thanksgiving Services Planned At Hebron School

Practically All Churches In Northern Section of County Will Participate.

There will be union Thanksgiving services at the Hebron school auditorium on Wednesday evening, November 24th. Practically all of the churches in the northern part of the county have joined in the movement and a helpful and inspiring service is to be anticipated.

At 7:45 p. m. there will be vocal and instrumental selections from the various memberships and the combined choirs of some of the churches will render two choral numbers.

The speaker of the evening will be Dr. Paul Clarke, of the faculty of Simon Kenton High School. Dr. Clarke is a speaker of renown and stands high, also, in the educational field and he will no doubt bring a wonderful Thanksgiving message.

The churches of northern Boone County extend a cordial invitation to everyone to attend this union service and help make it outstanding in every respect.

Bullittsville Christian Revival Services Planned

Revival services will begin at the Bullittsville Christian Church on Sunday night, November 28th and run up to and include night services on Sunday, December 4th, 1948. Services will begin each evening at 8:00 p. m.

Rev. Barton A. Johnson, pastor of the Madison Avenue Christian Church of Covington has been secured to bring the messages. Bro. Johnson enjoys a well-deserved reputation as an evangelistic speaker of great power and influence and is well known in Boone County, hence Rev. A. C. Young and his members at Bullittsville are expecting to have a rousing revival service.

The Bullittsville congregation are rapidly completing an extensive addition to their Sunday School plant and have enlarged and beautified their chancel, which, in addition to planned special music and other things, causes this meeting to promise great things. Everyone is cordially invited to attend all during the week's services.

Elsewhere in this issue will be found an advertisement of the oyster supper to be given by the Bullittsville Church at the Hebron School building on Wednesday evening, November 24th, the proceeds of which go into the church's building fund.

This warehouse is run by men who grow tobacco. Your crop will be graded by experienced tobacco men. If you have never sold on the Covington market, let us prove to you that we do get the same prices, grade for grade, as any in the Burley Belt. Our real job is to get the highest price for your crop.

Clean and warm rest rooms for the family. All growers are treated alike regardless of the size of the crop. Our new skylights give better grading.

We have a gift for the grower when he brings in his tobacco. Be sure to ask for it.

NEW HAVEN HOMEMAKERS

Mesdames Fred Morrison, Henry Fisher, R. R. Ragland, V. G. Young, J. E. McCabe, J. O. Griffith, Clarence Wolfe, Geo. Moody, Don Hopkins, Geo. Prigge, Arthur Bowen, J. F. Cleek, John Taylor, Ben Bedinger, Frank Rouse, Stanley Ransom and Geo. W. Baker met at the home of Mrs. M. C. Owens for the November meeting of the New Haven Homemakers. Mrs. Owens is a new member of our club and we are lucky to have her. Everyone enjoyed her lovely new home and her genuine Kentucky hospitality. We welcomed one new member, Mrs. Wagenlander, and had four guests, Mrs. R. L. Clinkenbeard and Mrs. Fred Spivey of the New Haven community, and Mrs. C. V. Lutche and Mrs. Clyde Arnold from the Florence club.

The meeting was called to order by president Moody. Roll call was answered with "Ways I observed Thanksgiving as a child." Reports were made by committees and Miss Gillaspie helped the various committees to outline work for the coming months.

Plans were discussed for a party at the Beagle Club for the families of the Homemakers.

A covered dish lunch was served at noon and Mrs. Owens' fried chicken was a real example of good old southern cooking.

In the afternoon Mrs. Lutche and Mrs. Arnold gave the lesson on "Chair Caning" in a very able and interesting manner. We wish to thank these two grand ladies for their kindness in coming over to give us our lesson.

Several members joined in group singing led by Jan Fisher, with Jean Wolfe at the piano.

CLOSER PLANTING INCREASES YIELD

Richard Clements was named 4-H club corn derby champion of Hopkins county when he harvested 150.7 bushels per acre. Young Clements profited by his experience of a year ago when he failed to win the contest. At that time he resolved to remedy the situation by planting more corn per acre, and so he closed up his planter wheels and increased the size of the corn plates. In addition, he almost doubled the amount of fertilizer used and also used 100 pounds of nitrate an acre. Clements was selected as the outstanding 4-H club boy for this year from Hopkins county.

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY
- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices —not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

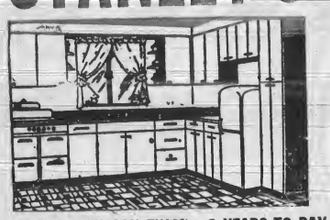
313 days to apply limestone

Weather permitting, there are 313 days in every year to lime the land, the other 52 are Sundays. That's just another way of saying when a farm needs liming the thing to do is to put it on no matter what season of the year it is.



A few years ago most farmers spread their limestone before planting in the spring or in the fall. Today hundreds of thousands of farmers are satisfactorily liming their soil throughout the four seasons. Much of it is being applied to sod ground any time after haying and before plowing for the next crop in the rotation.

We stand ready to serve you throughout the year, except on Sundays.

Walton, Florence And New Haven Are Victorious

In Hoop Contests During Past Week—Florence and Walton Look Good.

Walton's Bearcats, who were tabbed by the "experts" to hate the "team to beat" in Boone County basketball this season gave strength to that theory Friday night of last week when they defeated the Hebron Cardinals at the Hebron floor by a 37-29 score. It marked the Cats second conference win.

Paced by Yost with 16 points, the Bearcats had little trouble with the defending conference champs. They held a 6 to 2 margin at the end of the first period, a 17-8 lead at the intermission and a 23-11 count going into the final period.

Carver and McGlasson pitched in 19 of the losers' tallies and Maddox, lengthy Cat center added 12 more to the winners cause. Hebron's reserves won a 27-22 victory from the Walton seconds.

Florence 54, Cov. Catholic 31

Florence's Knights, using a fast-breaking offense, had little difficulty in trouncing Covington Catholic by a 54-31 score at Florence, Friday night. The Knights, one of the tallest teams in northern Kentucky, gave indications that they may be the darkhorse of the conference. Markesbery and Lipscomb with 20 and 16 points lead the Knight offense. They held leads of 9-5, 21-16, 37-24 at the quarters. The little Knights made it a complete Florence affair by taking the reserve game 31-11.

St. Henry 44, Hebron 34

Coach Bob Ross's St. Henry Crusaders who have been a soft touch for Boone county clubs during the past few years gave notice that "those days are gone" Monday night when they trimmed Chuck Ransler's Hebron Cards by a 44-34 count after trailing during the early part of the game. The game was played at Erlanger Lloyd gym. Larry Wichmann paced the winners with 14 points while Carver topped Hebron with 12. St. Henry Reserves also won 21-18.

New Haven 36, Dry Ridge 34

New Haven helped to keep up the average of Boone County quints against out-of-conference teams last week with a close 36-34 win over the Cardinals of Dry Ridge. Flynn and Clements looked best for the winners.

This Week

Feature game this week will be a conference battle between New Haven's Tigers and Hebron at the former's gym Friday night. Hebron will be after their first conference win and their second win of the season against two losses.

Burlington's Eagles hitting the floor for the second time will be after their second straight win when they go against Covington Catholic at the Covington team's gym.

Results of Tuesday night games between Florence and Falmouth at Florence and Beechwood at Walton were unavailable at press time.

Electric Rate Hearing Delayed Until December 9

Increase Was Scheduled To Go Into Effect Nov. 15 by Electric Company.

The Public Service Commission, Frankfort, Ky., has continued to December 9th a hearing on the Community Public Service Company's petition for inclusion of a fuel-cost clause in its electric rates.

The Community Public Service advertised the proposed rate change in this paper several weeks. The proposed rate change would amount to an increase of approximately 7 percent of local electric bills, according to Charles Finnell, manager of the company.

The firm, which services about 8800 customers in more than 20 communities, now is earning 3 per cent. This is not a fair return on the investment, N. R. Parsons, told the Public Service Commission.

Communities which will be affected by the increased rate are all towns in Boone County with the exception of Florence; Owenton, Independence, Dry Ridge, Columbia, Jamestown, Mt. Vernon, Owingsville and Russell Springs.

The Community Public Service Company has absorbed the price increase due to coal prices, during the past few years, but find that it is impossible for the firm to continue this practice. Mr. Finnell explained that due to the increased cost of coal, net earnings of the company were no longer sufficient to maintain present lines, and construction of new ones, thus preventing adequate service.

Time For Home Canning of Meats

Many Boone County homemakers will soon be canning pork. Meat canning may be done successfully if directions are followed carefully, otherwise the finished product is inferior, according to Mary Hood Giliaspie, Home Demonstration Agent.

With canned meat on the shelf, the homemakers can quickly have a meat dish on the table—time savers for busy days.

One of the most important factors of home canned meat is allowing enough time between killing and canning for the carcass to be thoroughly cooled. Otherwise, the canned meat may have an off flavor. Meat that has been frozen does not make the best quality of canned product.

Pork should be wiped clean with a clean damp cloth before canning. All meat needs to be precooked before packing in glass jars. Precooking helps to shrink the meat so that it packs to better advantage and ensures thorough processing. Meat should not be packed too tight, however. Leave one inch space at the top of jars. Wipe all grease from the top of the jar, or a seal will not be made.

All pork and soup stocks should be processed three hours in a water bath. In the pressure cooker at fifteen pounds pressure pork in quart jars should cook 80 minutes and in pint jars 55 minutes.

Bulletins on "Home Canning of Meats" leaflet 59, may be obtained at the County Extension office.

Many Traps Are Illegal For Use In Kentucky

Many hardware stores and sporting good concerns are displaying for retail sale steel traps that are illegal for use in Kentucky, Earl Wallace, director of the Division of Game and Fish announced today in warning such dealers that possession of such traps for sale or use is illegal. Mr. Wallace pointed out that only certain type traps as defined by the Commission and Director may be used by trappers and use or possession of outlawed traps are subject to confiscation and the owner liable to a fine. The enabling act for such steel trap regulations was approved in the 1948 session of the State Legislature.

The director pointed out that wholesalers may possess such traps for sale out of state but that retail dealers are barred by law from handling such devices. He warned that Conservation officers will be instructed to visit dealers and inspect their line of traps, and if illegal types are found in their possession they will face court action.

Legal traps are described by Mr Wallace as follows:

No trap shall have a jaw spread of more than 5¾ inches.

No trap shall have a sharp, jagged edge on the jaws.

No trap shall have more than one spring for the purpose of closing the jaws.

All traps must be tagged with a metal tag with the name and address of the person owning the trap but this does not apply to the dealer.

All steel traps that do not come within the above category are illegal for use and sale in Kentucky and persons possessing such traps are subject to arrest and conviction along with the confiscation of the traps. Further information on the use of traps may be obtained from the Division of Game and Fish at Frankfort.

Verona Fox Hunt Attracts Large Crowd Nov. 17-19

Several Boone County Dogs Among Winners, According To Reports.

The Verona Community Club Fox Hunt and bench show held November 17, 18, and 19 was highly successful from the hunter's standpoint and equally enjoyed by a much larger number of spectators than were present last year. The auditorium of the Verona school building was packed to witness the bench show where some of the finest fox hounds to be found anywhere were shown. Many were winners of previous meets held elsewhere this past year.

A complete list of winners in the many classes are listed below, however the most sought-after field trial honors in the all-age stake was won by Gallant Bess, owned by James Lewis, Verona, Ky.; second place Rowdy John, owned by Kash Martin, Verona, Ky.; third place Wing Tip, owned by Dewey Benson, Burlington, Ky. The derby stake was won by Mamie, owned by T. J. Link, Jr., Corinth, Ky.; second place by Banjo, owned by Derwood Scroggin, Williamstown, Ky.; and third place, Sunset, owned by Donald Simpson, Williamstown, Ky.

The first cast on the morning of the 18th was made with sixty-six hounds, and little time was lost in starting a fox, however, the bright sunshine and a large number of people in the fields made it tough traveling for the fox. The result being, many foxes were started during the morning and chased to their dens in short order. In fact, a few just barely made "home base" in time as the pace was fast and furious while it lasted. Most of the day's running was between Verona and the starting point at Avery Beach's farm. The second day was cloudy and windy which favored the fox and he made the best of it. Judges and followers had considerable difficulty at times in keeping within hearing distance as the "Sly Old Man of the Underbrush" crossed those Mud Lick hills early in the morning Gallatin County bound. There he remained the rest of the day putting on the best race of the meet and judges were able to do considerable scoring.

The field trial committee is to be congratulated in providing this opportunity for so many people to enjoy this type of outdoor recreation close at home.

A complete list of winners, judges, officials, and trophy donations follows:

President: W. D. Scroggin; secretary, Robert K. Porter; Master of hounds, Herb Huffman; assistant, Jay Webster.

Field trial judges, Amanda Yeasley, Kathleen Hutton, Betty Sue Huffman, Kinsey Plummer, Carl Huffman, Marvin Huffman, Robert Elam, Joe C. Ryan, George Washum, Atwood Beach, Lowell Beach.

Bench show judge, Amos Oberling.

Basketball Rule Changes Summary For New Season

Five Changes Outlined In Rules Book; Time-out Coaching Permitted.

The following are the changes in basketball rules as taken from the National Federation Edition of Official Basketball Rules. George R. Edwood from the University of Missouri is the chairman and Charles Vettiner of Louisville is on the Advisory Committee.

1. How a substitute reports: When a substitute is beckoned by an official he must go directly to his team and notify replaced player. Sub must still report to the scorer.

2. Player number and signal after foul: The player on whom a foul is called should hold his hand at arms length above his head. There is no penalty for failure to comply but this might become unsportsmanlike conduct when it is an attempt to incite the crowd.

3. All jump balls will be held at the closest of the three circles. Referee's decision as to which is the closest is final.

4. Jumper may return ball to back court. After jump ball the player who first touches the tapped ball may cause it to go to the back court. This includes the jumper. Last year a jumper could not return the ball after the tapped ball had touched the floor or the jump had ended otherwise.

5. Coaching during time-outs: The players may talk to the coach during the intermission between quarters, at automatic time-outs and during a time-out charged to either team. A technical foul may be called if the coach talks to the team at any other time.

DERBY POINTS WAY TO HIGHER YIELDS

The corn derby contest is probably the greatest single influence ever exerted in Morgan county to point the way to higher corn yields, in the opinion of Farm Agent Charlie Dixon. At least five farmers in the county are expected to pass the 100-bushel goal, and some will go considerably higher when all checking is done. A yield of 147 bushels on one acre reported is almost twice the highest official yield made last year. Approximately 14,000 acres of corn are grown in the county.

PHOSPHATE BOOSTS STRAWBERRY YIELD

Application of superphosphate increased strawberry yields in Jefferson county as much as 101 crates an acre, according to the Agricultural Experiment Station at Lexington.

Where no phosphate was used, the yield averaged 249 crates to the acre. Where 500 pounds were used, the yield was 296 crates an acre, and where 1,000 pounds was added to the soil, the yield moved up to 350 crates.

The superphosphate was applied to the top of the rows in late winter.

IN LOVING MEMORY

Of Lloyd Franklin Hood, who was killed in action in the battle of Cologne Plains, at Cologne, Germany on November 20, 1944. He was a Private First Class with the 118th Infantry Regiment, 30th Division.

Pvt. Hood held the distinction of having been an expert rifleman and twice received the Purple Heart. He was twenty years of age at the time of his death.

His body was interred in Holland, and arrived in this country recently. Funeral services were conducted at the Constance Christian Church of which he was a member, on Sunday, November 7, 1948 at 2:30 p. m., by the Rev. Arthur T. Tipton, with burial in Hebron Cemetery.

Surviving him are his parents, Mr. and Mrs. Luther Hood and three sisters, all of Ludlow, Ky.

To Him Who Served

All honor and glory
To you who gave—
Your life for your country
So noble and brave.

Receiving the Heart
For wounds and pain—
You were sent into
The lines again.

Sleep on dear hero,
Some day to arise,
And find you're at home
With Him in the skies.

For the Great Physician
Will call you above—
To heal you with mercy
And Heavenly love.

Goodbye, Lloyd Franklin,
We shall meet over there,
When battles have vanished
Like clouds in the air.

And may we think
Of him this way:
"He is not dead,
He is just away."

—Composed by his cousin, Leona Hood. 1t-c.

NICOTINE SOLUTION ROUTS CHICKEN LICE

Painting roost poles with a 40-percent nicotine sulfate solution controlled body and shaft lice on chickens when the weather was not too warm, in tests made at the Kentucky Agricultural Experiment Station and reported in bulletin 517. Control was complete only when the material was used on oiled roosts or roosts with non-porous surface. The same material gave poor control of head lice.

Six kinds of lice and three kinds of mites were found on chickens in Kentucky. Body and shaft lice and the chicken mite were of most importance, although large numbers of other kinds were found occasionally.

Evidence was found that Rhode Island Red chickens are more resistant to the build-up of heavy investations of body and shaft lice than are White Leghorns.

EARLY PLANTING OF STRAWBERRIES PAYS

That early planting of strawberries pays was seen recently on the farm of Wallace Kaufman in Jefferson county, states H. C. Brown associate county agent. In March, Thomas and Mary Lee Kaufman, 4-H club members, increased their patch of Tennessee Beauties by planting an additional acre. Due to wet weather, the setting of a new patch of Premier berries was delayed until late April. The two patches were inspected on Oct. 1. The early planted Tennessee Beauties were found to have made excellent growth with a promise of a good yield in 1949, while the later planted patch was spotty and had about half the growth of the other variety.

VETERAN TAKES CORN DERBY CHAMPIONSHIP

Anyone who would have said 15 years ago that Hickman county land could produce 150 bushels of corn an acre would have been laughed at, says County Agent Warren Thompson. And yet, this year Robert Lee Veatch, a veteran of World War II, produced 157 bushels an acre on five acres, to win the county corn derby.

Thompson admits that it required special care to get this big yield. The land used had been in white clover and grass for three or four years. It had been limed and phosphated.

Early last spring Veatch applied 20 loads of manure an acre and turned under a ton per acre of 4-12-4 fertilizer. He also used 200 pounds of 4-12-4 in the row.

Kentucky 103 and 203 hybrid corn were planted May 21. It was planted 14 inches apart in rows three feet wide, at the rate of 13,000 stalks to the acre. Three shallow cultivations were given, with care not to disturb the roots.

"There was not an impractical thing about the way Veatch grew his champion corn," commented County Agent Thompson. "For every dollar he spent for fertilizer he got back $2. Since he used good land, it is possible that he might have produced 90 bushels an acre without special treatment. But he showed what can be done with good land plus proper handling of the land."

GOOD METHODS PAY IN POOR SECTION

How W. E. Martin, a young progressive farmer of Clinton county, is doing a good job of production in one of the poorer farming sections is told by Farm Agent D. E. Salisbury. Some of the practices not common in that community, but carried out by Martin, are: strip cropping, terracing, using three to five times the amount of fertilizer commonly used in that area, growing Ky. 31 fescue for good pasture, having a small herd of dairy cattle and a registered Brown Swiss bull, having a demonstration poultry flock, sowing winter cover crops on corn land and producing twice the average yield of corn for his community. This fall Martin produced 500 bushels of hybrid corn on eight acres.

LEGUME HAY GOOD WINTER COW FEED

Discussing the care of dry cows, Dr. W. P. Garrigus of the College of Agriculture and Home Economics, University of Kentucky, says a cow's winter feed bill should include about three-fourths of a ton of good legume hay and an equal amount of cheap roughage, such as straw, corn stover or grass hay.

The cheaper roughages, especially corn stover and fodder shocked in the field, should be fed largely during the early winter before they lose much of their feeding value and before cows freshen.

Under-sized heifers and thin older cows may need grain just before calving and until good pasture is ready.

It's new!!! it's modern::: it's exclusive : : : it's the new Norge *Self-D-Froster* — the refrigerator that *DEFROSTS ITSELF!* Just think of it . : : no more fuss and muss of manual defrosting : : : no button or dial controls. No melting of ice cubes : : : no exposure of food to outside air. Norge : : : *and only Norge* : : : eliminates these worries. Every night at midnight, while you sleep, the *Self-D-Froster* takes over.

GARRARD AND CLARK DIVIDE HONORS AT STATE CATTLE SHOW

Tony Cosenaugher of Garrard county had the grand champion calf and the Clark County 4-H Club had the grand champion carload at the 37th annual fat cattle show at Louisville. It was the fourth time Cosenaugher showed the grand champion single calf at this show.

The grand champion calf sold for $4 a pound and the grand champion carload for $41.70 a hundred.

The grand champions weighed around 990 pounds per calf.

Members of 4-H clubs viewed and sold 1,518 calves. Cosenaugher had the best Angus calf; Lois Chaney of Fayette county, the best Shorthorn, and Rachel Ronder of Ohio county, the best Hereford. Beavon Smith of Russell county had the top calf in the Utopia Club division.

In the carload ring, the first 15 county 4-H clubs placed in the following order: Clark, Garrard, Boyle, Jefferson, Harrison, Washington, Pulaski, Boyle, Lincoln, Garrard, Clark, Shelby, Fayette, Ohio and Washington.

Garrard county had the best five calves from county carloads and Franklin county the best five from a county exhibiting less than carloads. Betsy Link of Bourbon county had the top calf from a county showing less than a carload.

The ring for 4-H'ers showing calves from their corn acres was won by Joyce Naylor of Washington county, followed by David Snipp, Hardin; Lois Fay Cooper, Wayne; Howard Ragland, Larue, and Robert Berryman, Clark.

Russell county placed first, third and fourth in the ring for Utopia club carloads, with Hart, second, and Wayne, fifth.

Cash prizes distributed included $8,000 appropriated by the State Legislature and distributed through Commissioner of Agriculture Harry F. Walters.

.....liming...

IS AN INEXPENSIVE FARM OPERATION

It costs less each year to keep each acre of your farm properly supplied with lime than it does to:

1. Plow an acre of land.
2. Take a 10-mile trip in your car.
3. Take the family to the movies.
4. Buy the seed to sow an acre of wheat.
5. Prepare the land and plant an acre of oats
6. Harvest an acre of corn with a mechanical picker.

Make liming one of your regular farm operations—the cost is low and the returns are high, not only in the money you get for the higher yields of better crops, but in the satisfaction of knowing that you are doing a better job of farming.

See us about your limestone needs.

LAND BANK LOANS ARE GEARED TO THE CAPACITY OF THE FARM TO PAY

- The dollars that will pay your loan come out of the soil of your farm as so many bushels of corn, so many pounds of tobacco.
- Even when crop yields are the same, dollar production per acre may be high one year, low the next.
- That's why Land Bank loan values are based on the NORMAL earning power of the land—average yields and normal prices —not too high, not too low.
- That's why the land banks were able to meet the needs of hundreds of thousands of farmers in the depression.
- That's why we can say LOANS ARE EASIER TO PAY WHEN MADE THE FEDERAL LAND BANK WAY!

SWEET LAND MAINE TO PRODUCE FRUIT

How Hannah Mitchell, who lives near Union in Webster county, has in less than eight years converted a practically worthless farm into one of the best fruit farms in Western Kentucky is told by Farm Agent Robert M. Ellis.

Mr. Mitchell bought his 130-acre farm in 1940. Through good management and use of lime, phosphate and high grade mixed fertilizers, he has built up the soil until his farm this year netted him more than he paid for it originally.

Thirty acres of his orchard, or 3,100 trees varying in age from two to eight years, are in production at the present time. Mitchell estimates this year's crop of peaches at about 6,000 bushels, of which 1,400 bushels were harvested from 700 trees only two years old. Varieties in greatest number are Golden Jubilee, Halehaven, South Haven, July Heath and Siberta.

Notes and Comments

From the Editor's Desk

How Downward Trend

Economists seem agreed that the coming year at least will be a time of good business generally, but that there will be a definite downtrend in farm prices. We already know what can happen to farm prices. Both wheat and corn prices are at least a dollar a bushel less than they were last year at this time.

The postwar break in prices after World War I was very dramatic. From January to December that year, cotton dropped from 36.1 cents a pound to 13.6 cents; corn dropped from $1.44 a bushel to 66.8 cents; wheat from $2.33 a bushel to $1.4; and hogs from $13.34 a hundred to $6.50. These examples demonstrate how sensitive commodity prices are to the forces of supply and demand, and further the real possibility that farm prosperity could be destroyed while virtually all-other segments of the national economy continue to do well. This condition spotlights the basic necessity for farmers being organized, and for having a farm program.

Farm people believe fundamentally in the free enterprise system. I'm certain that they wouldn't be happy under a system under which farm prices are determined and administered by government agencies. But even though they do not believe in administered prices, they also believe that the farmer should have some degree of protection against disastrous drops in commodity prices which historically have accompanied high production records.

The war and postwar European rehabilitation needs have absorbed all of our farm surpluses for years. Now, with remarkably good crops in Europe, those outlets will shrink, and, sooner or later, our surpluses will be piling up at home, with depressing effects on farm prices. Adding to the farmers' difficulties, will be the fact that the industrial segment of our economy will be working overtime to supply the industrial equipment that is needed for the rehabilitation of Europe, and the armament required by our national defense program. The net effect of all that will be inflationary. In other words, farmers face the threat of even higher prices for things they buy, while their own prices are being forced downward. The Nation simply cannot afford to permit the farm economy to get too badly out of balance. The enemies of economic and political freedom are hoping for a depression in this country. Our country represents their most formidable obstacle to the attainment of their goal, which is world-wide revolution. We must maintain our economic strength and our national unity, so that our cherished tradition of liberty may be preserved for the generations that are to come.

We cannot overestimate the importance of maintaining sound money and free markets. Current ills and fears are the direct result of the late war. Another war within a few years would be unutterably tragic, for it would be a total war, with total mobilization of the entire population and its assets. At the end of such a war, even if we won it, our nation would find itself in a situation similar to that which prevails over much of Europe today. Every group in this country should formulate its policies with one major objective in view, namely the attainment of a peaceful world. That grand objective can and must be attained.

International Affairs

Russia is tying up the recovery of Europe. But Russia hasn't a thing to gain by the change in our National political condition. All parties and all good citizens in the United States are going to STOP Russia, even if we have to do it in a rough sort of way. Russia has been trying to bluff the world. It can't be done. All we want out of this is a peaceful settlement and we are making every effort to obtain war and restore peace to the world. If worse comes to worse, we have a little atomic message that can be sent on at Mission to Moscow.

TILING DOUBLES YIELD

Tiling done on a three-acre tobacco field doubled the yield of tobacco for Darcy Abner of Powell county. He told Farm Agent D. R. Siler that while fertiliser applications this year were the same as before, the yield had increased from 000, to 2,000 pounds an acre.

Burley Price Highest In Years For Opening Sales, According To Report From State Department of Agriculture

State Average Is $49.40 For Opening Day; 16,794,491 Pounds Sold.

Burley tobacco Monday returned the highest opening day price of $49.40 per hundred pounds on the Kentucky markets since the boom days following World War I, the State Department of Agriculture reported.

Reports show 16,794,491 pounds sold for $8,296,605.36, an average of 79 cents above the 1947 opening day price.

The Kenton Warehouse, in Covington reported Monday's sales totaled 309,104 pounds with an average of $49.28 a hundredweight. The high basket brought $64 and the low $11.

William Huebil, of Union, received a price far above the average for his crop of 1114 pounds when it brought an average of $61.93.

Highest price for an entire crop at the Covington Independent Warehouse Tuesday went to Lee Portwood of Burlington, who sold approximately 3000 pounds for an average of $58.97 a hundredweight. High basket at the Independent sold for $63.00 Tuesday morning.

Warehousemen of both firms claims that quality of offerings is "good."

Boone County's crop of burley this year is probably the best every produced.

Carrollton Warehouses sold 1,096,-784 pounds of burley opening day for an average of $51.55, according to unofficial reports.

Marketing of what is estimated to be the fourth largest burley tobacco crop ever produced got underway on Monday. The latest release from the Crop Reporting Board show the production at around 525 million pounds. Producers' sales last season amounted to nearly 484½ million pounds at an all-time high general average of $48.52 per hundred. The acreage planted for the current crop was only about 1 per cent less than that for last season but a record acreage yield of 1284 pounds increase the poundage considerably. For over a week, growers have been delivering crops to market at an unprecedented pace. On many markets the warehouses are filled and at some points no tobacco is being accepted.

According to reports received by the Federal State Market News Service, the crop is not expected to measure up to the excellent quality marketed in 1947. However, the opinion of most tobacconists is that the crop is above the average. There are a large proportion of exceptionally good grades on the market, but the offerings will be heavier-bodied and, as a whole, of darker color. Also, a large percentage of green tobacco is anticipated. In a number of sections that suffered extreme drouth, the plantings were harvested early and did not obtain full growth. This resulted in some immature leaves, especially the tips. The crop is conceded to have good smoking qualities.

Commodity Credit Corporation loans, available through the Burley Associations, have been increased in most instances $1.00 to $3.00 per grade over last year. A few are unchanged. Baskets graded "U" (unsound) "W" (unsafe keeping order) and the poorest grades of nondescript will not be accepted by the Associations.

The Burley Tobacco Sales Committee approved a 5-hour sales day for the first week and a 4-hour sales day thereafter. At the beginning auctions opened at 9:00 a. m. and recessed at nooh. Sales were resumed at 1:00 p. m. and closed at 3:00 p. m. Beginning the second week, when the 4-hour sales day takes effect, auctions will start at 10:00 a. m. Speed of sales will remain at 360 baskets per hour per set of buyers. Basket contents are limited to 700 pounds and are not to exceed five feet in height.

Federal Tobacco Inspection and Market News Services are available on all markets which operated last season. The News Service will supply daily price reports to the growers on the markets. These reports will carry the latest auction average for all grades, as well as their support price or loan rate. With this information the farmer can decide the best way to dispose of his tobacco. First, he can accept the auction price; second, he can reject the price offered and present his crop for resale; third, if the auction price is not above the loan value, he can consign his tobacco to the Association at the loan rate. Daily and weekly press releases on marketing activities will be supplied to radio stations and newspapers. There will also be weekly news summaries issued.

Last season burley was sold on 50 markets located in 8 states. There were 265 warehouses in operation. With the construction of new warehouses on some markets, it is expected that a record number will sell this season. First sales were held on December 1 in 1947. This year marks the earliest opening date of auction sales for the ty.e.

The speaker of the evening, Dr. Paul Clark, minister and educator, of the faculty of Simon Kenton High School, brought a message which thrilled and held the large audience and left them highly inspired to meet the coming year.

The contributions of the various churches in the way of instrumental and vocal musical numbers were well-rendered and highly enjoyable and special mention must be made of the two numbers offered by the combined choirs of the Lutheran Church at Hebron and the Bullittsville Christian Church, under the direction of Mr. Edwin Walton. Extension Committee Hears Specialist At Meeting Friday

Agricultural and Home Economics Outlook For 1949 Discussed

The Boone County Extension Advisory committee met on Friday to hear O. P. Summers, field agent in economics, discuss the agricultural and home economics outlook for 1949, according to the County Extension office.

Mr. Summers advised that people in the U. S. would spend close to 220 billion dollars in 1949 and approximately 28% of this money would be spent for farm products. Mr. Summers said hog prices have dropped 30% since September, but will rise in the spring with peak prices in March. Prices of hogs will then decline thru May rising to another peak in September and October and then decline again during the winter. The exceptionally low price next winter being around 20 cents.

Lambs will continue as high as last spring until the latter part of the year when they will decline.

Beef prices are expected to rise during the early part of 1949.

Egg prices will decline in the early spring and the fall rise will not be as sharp as last year.

The cost of manufactured goods will turn upward resulting in increased production cost to agriculture. Agricultural prices will tend to level off or turn lower during the coming year. In view of these two facts the margin of profit for agricultural products will be narrower than in 1948.

Feed prices are down 33% since July and will rise from now until March. Feed will be generally lower in '49 and will be more favorable to meat animals and milk production.

Mr. Summers stated that there are five things to be watched during 1949 that will vitally affect agriculture:

1. How much money the government spends for foreign relief.

2. How much the government spends for defense.

3. What action the 81st Congress takes on the support price program.

4. What changes take place in wage rates.

5. What action the government takes on re-discount rates.

The committee decided that efficiency in farming and homemaking was an important item since the margin of profits would in general be low during 1949. The committee decided the following things should be stressed in extension work this year.

1. Livestock Improvement: Artificial Breeding Association considered the best way to improve dairy cattle.

2. Crop Improvement: Continue search for new and better varieties.

3. Soil Improvement: Advocate soil testing to prevent over-liming and result in balanced fertilization programs on all farms.

4. Develop farm and home water supply system: In spite of high prices of materials it seems advisable to install systems as soon as possible. Manufactured goods will rise in price and agriculture prices are still relatively high.

5. Farm and Home Improvement: Do all remodeling that needs to be done to make the farm and farm home more suitable for working and living.

6. Pasture and Hay Development: Increase acreages of hay and pasture in the County.

Mr. Summers told the committee that the outlook information should not be used to jump from one type of farming to another, but rather to stress the importance of a balanced farm program.

Wardens Have Right To Enter Upon Any Farm Property

To Call For and Inspect The Licenses of Hunters, According to Wallace.

"A Conservation Officer of the Division of Game and Fish has a legal right to enter upon the farm or property of any person to call for and inspect the licenses of hunters," Earl Wallace, Director of the Division, declared. His announcement was made in answer to questions by farm owners who inquired whether Conservation Officers have legal right to enter or trespass on their property.

Mr. Wallace, declared that the powers of a Conservation officer are similar to those of a sheriff or his deputies in entering property to fulfill his sworn duties, and further pointed out that a Conservation officer is vested with power to deputize help in the carrying out of his law enforcement regulations.

The director cited subsection 2 of chapter 150.090 of Kentucky Revised Statutes which states: "Conservation officers and other officers charged with the enforcement of this chapter (Game and Fish laws) shall have the authority to call for and inspect the license or badge of any person engaged in any activity where a license is required under this Chapter."

"This makes it clear," the director declared, "that a Conservation Officer may call on a hunter at any place to produce his licenses."

Overtime Period Required To Decide Winners In Eagle-Catholic Contest.

Boone County basketball teams of the local high schools continued their mastery over non-conference foes last week when Walton, Florence and Burlington won over outside opposition.

Walton 35; Beechwood 31.
Florence 49; Falmouth 37.
Burlington 40; Cov. Cath. 38.
Hebron 29; New Haven 22.

Walton, led by sharp shooting "Dyke" Vest and pivotman, Maddox, who combined for 23 points, trimmed coach Edgar McNabb's Beechwood five 35-31 at the winner's floor.

The Bearcats held a 11-9 quarter lead and pulled to a 18-12 halftime advantage. Beechwood with a strong third quarter brought the count to 25-23 as the final period began, but Walton again outscored them in the final stanza 10-8 for the four-point victory.

Beechwood won the reserve contest 28-13.

Florence Again

Florence's Knights still showing unexpected strength walloped Falmouth by a 49-37 score at Florence last Tuesday night. It was their third win in four tries this season.

The fast-moving Knights ran up 16 points in the opening quarter against 7 for the Devils. Falmouth rebounded to outscore Florence in the second quarter 14 to 8 to make a 24-21 halftime lead for the winners.

Lipscomb, Knight veteran center, and C. England, elusive guard, hit hot in the third quarter to put the winners into a 37-26 lead as the last quarter began. In the final quarter the Knights held a 12-11 scoring advantage. Lipscomb scored 20 for Florence and Parker had 10 for the losers. C. England added 11, Roland 8 and Quinn 6 for the Knights.

Florence's reserves also won by a 36 to 26 score.

Overtime Contest

Ralph Maurer's Burlington Eagles after holding a 9-3 quarter score lead, were eight points behind with two minutes to go in the final quarter with Covington Catholic, and had to pull a "Truman" before knotting a 34-34 count, then on to a 40-38 win for their second straight victory. Half time score was 15-11 for the NKAC outfit.

The Eagle scoring was divided between McBee, Ryle, Miller and Cave.

Burlington seconds won the reserve game 30-23 as Gayle Rouse tossed in 13 points.

Cards Win

Hebron's Cards got back in the win column with a 29-22 Boone conference win over New Haven's Tigers at the loser's floor Friday night. It was Hebron's first conference victory and also first win since their opening game. It also marked the Tigers' first setback.

McGlasson topped the winners with 11 points. Hebron's second team took the New Haven reserves 10-to 5.

Remember when the tasseled top surrey, with its shiny leather dashboard, was the family conveyance? Sometimes the steel tire came off the wheel and rattled down the road. Then everyone had to climb out and find rocks to help pound the tire back on. Remember?

COURTESY CAR SERVICE

Revival In Progress At Bullittsville Church

Evangelistic services are in progress at the Bullittsville Christian Church, having begun last Sunday night. Services will continue up to and including Sunday night, December 5th.

Rev. Burton A. Johnson, of the Madison Avenue Christian Church, of Covington is bringing messages of a highly inspiring nature and the attendance has been good.

Services of this nature in the past at Bullittsville have always borne good results and in this present instance, even more is to be expected as the surroundings have been improved to provide a more beautiful environment. The chancel of the church has been deepened and beautified and the installation of a new organ provides a musical background which adds immeasurably to the dignity and reverential spirit of worship.

Everyone is sincerely invited to add their presence to these meetings for the remaining services, for all will benefit by so doing, and you are assured of a cordial welcome from pastor A. C. Young and his congregation.

OYSTER SUPPER IS HUGE SUCCESS AT BULLITTSVILLE

The Crusade Bible School Class of the Bullittsville Christian Church was highly gratified with the outcome of their oyster supper at the Hebron High School on Thanksgiving eve. The affair was an outstanding success from every standpoint and the members of the class, as well as the church at large, extends a hearty thank-you to everyone who contributed in any way toward such a happy occasion. This includes not only those who contributed work, supplies or money but also the many, many folk who came to partake of the good edibles and contribute to the spirit of fellowship. Again, thank you.

CHARLES STEELE WILL BE SPEAKER AT BEAVER CHURCH

During the convalescence of Rev. Garrett of Beaver Lick Baptist Church, Charles Steele of New Bethel Baptist Church will supply for him. Services at 3 p. m. on first and third Sundays.

Beginning Tuesday night, Dec. 7 and each successive Tuesday night, Mr. Steele will lecture on the book of Revelation. Services at 7:30 p. m. All are urged to attend.

NEW HAVEN P.-T. A. WILL MEET DECEMBER 14

The regular scheduled meeting of the New Haven P.-T. A. originally scheduled for Dec. 7th will not be held on this date due to interference with the basketball schedule. The meeting has been postponed until December 14th at the school. All members are urged to attend.

WILL OBSERVE WOMAN'S DAY

Friday, December 3rd at 8 p. m., the Missionary Society of Florence Christian Church will observe Woman's Day. Mrs. Barton A. Johnson, wife of Rev. Johnson, pastor of Madison Avenue Christian Church, will be the guest speaker. Please set aside this date on your list for this special occasion, and attend this service.

Mrs. Dolphs Bebree, with her daughter and son, Frances and Ronald, spent the Thanksgiving holiday in Mt. Sterling, Ky., visiting Miss Bernice Bebree. Enroute home Friday, they visited Rev. and Mrs O. N. Smith, of Georgetown.

Mr. and Mrs. Chester Sturgeon are the proud parents of a 9 lb. 10½ ounce boy, born Thursday, November 18 at St. Elizabeth Hospital. The little one has been named Donald Paul. Mother and son are doing nicely.

Mr. and Mrs. Rulyeis Jump and Miss Geraldine Thornton, of Orata, Mr. and Mrs. and Conrad and children and O. F. Thornton, of Jonesville and Mr. and Mrs. J. R. Thornton and son, of Owenton were Sunday guests of relatives here.

GUARD YOUR PRINCIPAL

In every inflationary period in this country, when interest rates are low, there is a tendency on the part of people with money to try to get a higher interest rate than is justified by safety of the principal, with the result of a loss of principal in the end.

Do not lose sight of your principal for the sake of high interest rates. Higher rates of interest and safety of principal do not go hand in hand. Do not be misled by glittering promises of high income.

AN OPEN LETTER FROM A MAYTAG DUTCH OVEN RANGE USER

Burlington, Kentucky
November 8, 1948

Dear Maytag Dutch Oven Dealer:

Here is the true story of Dutch Oven stove. The only thing I hold against my stove is that the neighbors are always worrying me wanting to see it and watch it work. When my friends come to see us the minute they walk into my kitchen they catch their breath and say "My, I never saw such a beautiful stove." Then I start telling them about how wonderful it is, and I could go on for hours telling and explaining how wonderful it is if some one did not stop me. Yes, it really stands out in anyone's kitchen.

It is not only beautiful but one of the best stoves I have ever seen. Before I got my Maytag stove, it took me about an hour and a half to cook a meal. On my new stove I can prepare a good meal in 45 minutes or less. It cooks fast because its flame is hotter. If something boils over on it I don't worry a bit for it is no job at all to clean. Just lift the burner out and wash the white porcelain like you do a dish. It doesn't run all over either, as it has a drip pan that catches it all. Just lift the pan out, empty, dry, and put it back.

Steaks are delicious cooked on the broiler. Just put them on the broiler, cook them, and serve them right on your broiler, just put the removable wood handles on and serve it as is. The broiler makes a beautiful meat platter.

The oven is one of the most wonderful parts of the stove. Just put your meal in the oven, turn on the timer, set your temperature, and close the door and go to church. No worrying if it is going to burn or if the gas will shut off. Come home and your meal is ready to put on the table. No worry as to how much gas you are using, because with the heavy insulation and rock wool it cooks with the gas off.

In the deep well you can cook your whole dinner at the same time, and turn it on low and it will not burn, but stay hot as long as you want.

The controls are on the back of the stove where small children can't get to them. No matches to worry with, just turn on the gas and it is lit. The stove also has plenty of storage space.

Yes, by Dutch oven stove is the most economical, convenient, and beautiful stove that money can buy.

Yours truly,
Mrs. Kenneth Rogers,
R. R. 2, Burlington, Ky.
Phone: Burlington 38

See this new Maytag Dutch Oven Gas Range

Cooks either automatically, or as a conventional gas range. Also gives you the never-equalled flavor and excellence of famed Dutch Oven cooking

As a conventional range, you'll find many important, modern improvements, such as the speedy, heat-focusing, gas-saving Spiral Flame burners. And you'll like the ease of cleaning; range top and burner bowls are stamped from one piece of gleaming white porcelain.

Large oven cooks automatically, or by usual methods. Dutch Oven method cooks a whole meal, automatically, while you're away. Heavy insulation holds heat in—keeps kitchen cool. Only Maytag Dutch Oven Gas Range automatically turns off the gas and keeps right on cooking.

Liming IS PROFITABLE

There are any number of reasons why the application of agricultural limestone should be a regular practice on every farm. But the most important reason of all is that liming makes money.

Most Agricultural Experiment Station reports show that the regular application of agricultural limestone results in much larger yields of better crops than where no lime is used. Depending on the type of soil and the crop or crop rotation, these authoritative reports show that every dollar invested in limestone returns from $3.00 to over $10.00.

You can greatly increase the earning power of your farm by using our limestone regularly.

HOUSE OF MUSIC OPENED

Two veterans—Harold Wegman and Bill Edwards—have opened "The House of Music," 808 Madison Ave., Covington, giving Northern Kentucky its first complete musical department store by offering records, radios, televisions, musical instruments and providing music studios for instruction on all musical instruments.

The studio staff consists of professional musician teachers, each a specialist on his particular instrument.

This is the second "House of Music" opened by Wegman & Edwards, since returning from service, the other store being located in Norwood, Ohio.

On the Matt Hall farm in Greenup county, a plot treated at the rate of 300 pounds of ammonium nitrate per acre produced 115 bushels to the acre—on the untreated plot, 90 bushels.

CARD OF THANKS

I wish to express my heartfelt thanks and appreciation to my many friends and relatives for their kindness shown me during my stay at the hospital and since I've returned home and for helping my family at home. Also for the cards, fruit, candy and flowers I received.

I especially wish to thank those who helped gather a field of corn for me. 1t-p

Ohio Farmer Beaten And Kidnaped By Men; Car Stolen

Attack Occurs On Side Road Off U. S. 42 Early Tuesday Morning.

George Albrecht, Bethel, Ohio farmer was kidnaped, beaten and robbed of his auto and wallet early Tuesday by two men and a young woman whom he drove to Florence to visit a sick relative.

Albrecht reported that he met the men at a restaurant on Broadway between Pearl and Second streets in Cincinnati early Tuesday. He accepted the men's offer to buy gasoline for the drive to Florence. He was directed to a side road off U. S. 42 when the two men told him to halt his auto and began beating him.

Albrecht reported that he was ejected from his auto, but clung to the rear of the machine for several miles as his kidnapers drove toward Louisville. Finally he was thrown from the auto as it swung into a curve.

In reporting the incident to Sheriff R. I. Rouse he said he was beaten with a flashlight by one of the men.

Albrecht lost his wallet containing a collection of old coins and $4 which he had secreted in the dashboard compartment of his auto. He was unable to give a good description of his assailants.

Walton and Florence Take Drubbing At Hands of Simon Kenton Pioneers During Past Week; Hebron Defeated

Burlington New Haven Game Cancelled Due To Outbreak of Scarlet Fever in Burlington School; Florence and Walton Add One In Win Column.

Simon Kenton's Pioneers, riding high on a perfect seven-game winning streak, toppled Walton's Bearcats from the undefeated ranks last week and also stopped the Florence Knights winning streak. The Pioneers took Florence 45 to 40 at the winner's floor Tuesday night in a game that appeared to be all Simon Kenton during the early stages of the contest. The Knights rallied late in the game after being on the short end of 15-9, 31-22, 39-31 intermission scores to pull within five points at the final whistle.

Lipscomb, of Florence, with 15 points led the scoring. Hermes, Coppage and Armstrong had 8 each for the winners. Simon Kenton's reserves trimmed the Florence seconds 33 to 18.

First Loss

The Pioneers defeated Walton Friday night at Simon Kenton by a 42-33 count. Paced by Gene Coppage, high scoring pivotman, the winners came from a 28-22 deficit in the third quarter to ring up their seventh straight win and hang on Walton's first loss. Maddox, Walton center, led the cats with 11 points. The Pioneer reserves won 43 to 12.

Walton 74, Holy Cross 38

The Bearcats did salvage some consolation last week by defeating Holy Cross 74 to 38 at Walton. Vest, Bearcat scoring ace, poured in 32 points to lead in the victory over the visiting Latonia quint. The Walton reserves trimmed Holy Cross 37-24.

Tough Break

It took an unusual play for the Beechwood Tigers to beat Hebron last Tuesday night at the South Ft. Mitchell floor. With Hebron leading 24 to 23 in the last quarter, Ellaton (usually a cool and "brainy" competitor) of Hebron became confused and tossed in a goal for the Tigers. It made the final difference of victory.

The Tigers held an 8-6 advantage at the quarter, added 9 to Hebron's 6 in the second period and again outscored the Cards 6-5 in the third frame. Hebron in a last quarter surge scored 10 while holding the Beechies to 5. Hebron's reserves won 19 to 18.

Newport 59, Hebron 40

The Cards lost Friday night to a strong Newport Public quint at the winner's floor by a 59 to 40 count. The Wildcats led at the halftime 29-16. McGlasson of Hebron topped all scorers with 17 points. Schuster led Newport with 16. Newport reserves also won by a 22-16 score.

Close One

Florence added one to their win column Friday night when they edged Silver Grove's Big Trains 33-32 at Florence. Florence got off to a slow start and had trouble in making the one-point victory. They trailed 10-7 at the quarter and 18-12 at halftime. They pulled within 2 points at the end of their quarter as the score stood 20-18. Lipscomb again lead the Knight offensive with 11 points. The Florence reserves won a 31-19 victory.

A conference game between Burlington and New Haven last Friday night was cancelled. The game will probably be played December 28 at New Haven.

FAMILY CONVEYANCE
Remember when the tasseled top surrey, with its shiny leather dashboard, was the family conveyance? Sometimes the steel tire came off the wheel and rattled down the road. Then everyone had to climb out and find rocks to help pound the tire back on. Remember?

SAVE MONEY!

One night in ancient times, three horsemen were riding across a desert. As they crossed the dry bed of a river, out of the darkness a voice called, "Halt!" They obeyed. The voice then told them to dismount, pick up a handful of pebbles, put the pebbles in their pockets and remount.

The voice then said, "You have done as I commanded. Tomorrow at sun-up you will be both glad and sorry."

Mystified, the horsemen rode on.

When the sun rose, they reached into their pockets and found that a miracle had happened. The pebbles were diamonds, rubies, and other precious stones. Then they remembered the warning. They were both glad and sorry—glad they had taken some, and sorry that they had not taken more—JUST LIKE a Savings Account!

KELLY FAMILY ENTERTAIN

Mr. and Mrs Paris Kelly entertained Sunday in honor of Mrs. Kelly's parents, Mr. and Mrs. Lewis Merick. It being their golden wedding anniversary. They were formerly residents of this county, but now reside at Greensburg, Ind.

Those present to celebrate the occasion were, the honor guests, Mr. and Mrs Lewis Merick, Mr. and Mrs. Jessie Merick and family, Mr. and Mrs. James Scudder and family, of Greensburg, Ind.; Mr. and Mrs. Alvin Merick and daughter, Mr. and Mrs. William Merick, of Lawrenceburg, Ind.; Mr. and Mrs. James West, of Rising Sun, Ind.; Mr. and Mrs. Howard E. Smith and son, of Florence; James Smith and son, of Union; Robert Smith, and the host and hostess and family.

A bountiful buffet dinner was served with a three-tier cake trimmed in gold, adorning the center of the table.

The honor guests were recipients of many beautiful and useful gifts.

All left at a late hour wishing Mr. and Mrs. Merick many more happy years together.

Sports Notes...

Hebron High School has made application to enter the Northern Kentucky Athletic Conference. The Cards have had a number of good teams in the past few years and their record against NKAC clubs has been good but concensus among other Boone Conference coaches is "We see no advantage in joining the NKAC since our gyms are now inadequate to hold our crowds and too with our limited number of boys—there may be some years when our showing against the larger schools wouldn't measure up."

• • •

The Boone County six-man football conference banquet will be held Saturday night at the Florence school. Charley Vittiner, widely known sports official and writer of Louisville, will be the principal speaker. Other speakers will be H. N. Ockerman, league president and coaches of the participating schools.

Recognition of the league all-star team which was composed of Tanner, Ellston and Hoppenjans of Hebron, Ryle and McBee of Burlington and Roberts and Henneman of Florence will be made.

The Burlington Eagles will receive the conference trophy and a report on plans for next season will be made.

Boone County basketball and football fans appear to be "real sports" at games. A tip: Stay that way. A northern Kentucky school almost lost its membership in the state association because of the conduct of a "handful" of poor sports who were camoflaged as loyal supporters.

• • •

One Boone County coach has printed forms for application for his job which he and his boys pass out to "drug store and cafe" coaches.

BURLINGTON RD. HOMEMAKERS

The Burlington Road Homemakers' Club held its November meeting at the home of Mrs. Robert King. The meeting was called to order by the president, Mrs. Joe Northcutt and a short business meeting was held before lunch. The club has sent two boxes overseas for Christmas.

Mrs. James Rice, Mrs. Brady Johnson and Mrs. Joe Northcutt gave the lesson on "Chair Caning" for the month. All members were present.

The Christmas party will be held at the home of Mrs. John Kyle December 9th.

—Publicity Chairman.

EVERY WEEK SHOULD BE FIRE PREVENTION WEEK

Do you remember Fire Prevention Week?

It was observed last October, on a nation-wide basis. The most aggressive and intelligent effort was given to showing millions of Americans the causes of fire, the horrible results of fire, and the ways and means of preventing it. Nothing was left undone to tell a story which is of direct, personal interest to all of us.

No one can say how many people have remembered the lessons of Fire Prevention Week and are now applying them in their daily lives. The future trend of fire waste will provide a partial answer to that. But it will be a great tragedy for the nation if the Week does not produce far-reaching, long-range effects. For there is only one way to cut our fire loss to the bone—and that is by making every week a fire prevention week.

That isn't nearly so difficult as it may sound. It will cost us little in either money or time or energy. It involves such rudimentary precautions as keeping homes and places of business clean and free of trash; of maintaining heating and electrical systems in good repair; in being careful with matches and smoking materials—and in doing the other small and simple things that, when all added together, will prevent the great majority of fires.

So—make this week and every week a fire prevention week!

Mr. and Mrs. Paul Aylor has as their house guest Mrs. W. W. Aylor, who flew in from California to await the arrival of her husband Ch. Carp. W. W. Aylor, who has been in Golcuk Izmit Turkey for 8 months. Carp. Aylor will spend the holidays with his home folks for the first time in ten years.

GIRL IS CHAMPION IN RAISING SWINE

Miss Doris Lee Smith, a 15-year-old 4-H club girl from Jefferson county, has been named Kentucky's 4-H club swine production champion for 1948, topping all other entrants. As a result she will attend the National 4-H Club Congress meeting in Chicago the latter part of November.

Miss Smith fed four sows and their litters, finishing 28 pigs. Her total income was $1,283, with a net profit of $436.75. Year-around pasture feed was said by this 4-H'er to be important in her pig-production plan.

The award was made on the completeness of Miss Smith's record and a knowledge of her project as indicated through personal interview and submitted story as well as the project itself, it was stated at the College of Agriculture and Home Economics, University of Kentucky.

BOOSTS CORN PRODUCTION

An increase from 38 to 71 bushels of corn to the acre is the record made by O. L. Walker of Benton, the first farmer in Marshall county to enter the corn derby contest. The increase would have been even greater had there been sufficient rainfall, said Farm Agent J. Homer Miller. Mr. Walker planted a cover crop last fall, then fertilized with 1,000 pounds of 5-8-8 and 10 loads of manure. The corn was side-dressed with 160 pounds of ammonium nitrate.

What About Spain?

As this country moves ahead in its effort to strengthen and unify the anti-communist nations of the world, the question of what our attitude toward Spain should be will come in for an increasing amount of discussion. At one time it seemed that Spain might be included in the list of countries entitled to aid under the European Recovery Program, but her name was dropped. A number of American leaders—including Senator Gurney and James A. Farley—have recently advocated a friendlier policy toward Franco. Conversely, a great many well-known Americans are unalterably opposed to cooperation with Spain so long as her present government remains in power.

The position of Spain is a peculiar one. Franco runs with the aid of his army and police, a dictatorship which is as tight as that of the Soviet Union, though it is probably a great deal less efficient. Spanish elections are a farce by democratic standards, the free press and free speech have been banned, and the economy is controlled to the last box of oranges and the last bottle of olive oil. Spanish jails are filled to bulging with political prisoners, and a vast number have been liquidated. Franco could not have won the sanguinary civil war without the aid of Hitler and Mussolini.

Yet, in spite of all this, Franco is as much opposed to communism as any man in the world. That is why one group feels that he must be invited to join the Western alliance, and must be given material aid by us.

There is also the all-important fact that Spain occupies a highly strategic geographical position in the world. Her bases, in large part, the key to control of the Mediterranean. Her territory is suitable for major air bases. Her ports and harbors, once they were developed, would be almost ideal for certain naval operations. If Spain had joined the Axis in the last war, instead of maintaining a formal neutrality ,it is doubtful if Gibraltar would have been tenable. As it was, of course, she played both sides of the fence with considerable success, made money out of the war, and survived it.

The difference of opinion—and it is an extremely wide difference—over Spanish policy is pretty much between hardheaded expediency on the one hand and theoretical principle on the other. The first group argues that, in this gigantic global conflict between the forces of the West and the forces of the East, we cannot be too particular about our bedfellows—that we must woo and accept any and all nations which may be able to strengthen our stand and our material power. In other words, they say we should put the immediate national interest first on any list of considerations.

The second group feels that, in the long view, the strength of the West would be seriously weakened if we worked with dictators just because they happened to be anti-communist. Dorothy Thompson expressed this view well in one of her books, when she said: "The democratic world would make a grave mistake should it seek the collaboration of one collectivist revolutionary regime to save it from another collectivist revolutionary regime."

There is still another point of view, which holds that any agreement made with Franco might be worthless because of the enormous amount of undercover opposition to him within Spain herself. Those who believe this think that Franco and his government will very likely be tossed out in the relatively near future. And others argue that, even if Franco should manage to hang on, the value of Spain as an ally would be dubious. Thus, a Christian Science Monitor account says, "No one knows how unstable Spain might prove politically in time of turmoil. Authoritarian regimes have never been sure bulwarks against the authoritarianism of the Kremlin. Roman Catholic countries have not always been successful in resisting communism."

The attitude of Franco toward possible collaboration is fairly clear. He recently gave a frank interview to a Newsweek- correspondent in which he said that an understanding between Spain and the U. S. should be possible. He blamed Britain for preventing such an understanding in the past, and said he would prefer to deal directly with us, rather than through the Western union. He added the belief that future wars will make any country's neutrality impossible, and must be universal "because it is not one national interest but a way of life of many nations that is challenged." He somewhat discounted Russian power, on the ground that morale within her army is low. He complained that Spain has been badly treated by all the Western powers since the war, and that this is strongly felt and resented by the Spanish people. However, the tone of the interview certainly indicates that Franco is open to an invitation from us to discuss agreements, and perhaps enter into the Marshall plan as a beneficiary.

So Spain is one of the question marks in American foreign policy. On the other side of the world, the Chinese situation is the biggest headache of the moment. The terrific reverses taken by Chiang and his Nationalist Government have made it distinctly possible that the communists will eventually overrun all of China, and control her great manpower and resources. In the long perspective, this may be the gravest development, from the Western point of view, that has occurred since the end of the shooting war.

Tests Tell Soil's Need for Lime And Plant Nutrients

CHICAGO—Having your soil tested to find its plant food needs is a good deal like going to your doctor for a health checkup, declared the Middle West Soil Improvement Committee in a statement issued here.

"The tests a doctor makes are important, but he doesn't depend on them alone," the statement says. "Besides taking your pulse, temperature and respiration, and checking your heart, chest and kidneys, he will ask you a lot of questions. When he has all the facts, he's ready for a diagnosis.

Tests Are Clue to Soil's Needs.

"It's pretty much the same way with your soil. If you are not getting the high crop yields you think you should, just testing the soil won't give all the answers.

"A good deal more information is necessary. Among important questions are: What crops have been grown previously? What was the per acre yield? How has the soil been handled? How about the crop rotation? Has the soil been limed? What fertilizer treatment has it had?

"Good soil tests from carefully taken samples and properly interpreted in the light of crop history can help you do a better job of liming and fertilizing your soil."

HUDSONS ENTERTAIN

Mr. and Mrs. Reed Hudson entertained with a bountiful Thanksgiving dinner Thursday night at their home near Rabbit Hash. Turkey with all the trimmings were served, including cranberry salad, with blackberry spice and Angel Food cakes.

Letters in the Bible

Lesson for December 12, 1948

A LETTER in the mail! Those are exciting words. It was so when the Babylonians chipped open their dried clay envelopes. It is so when we rip the end off our paper envelopes. It was so when the marooned and homesick Timothy broke the seal on the papyrus notes that his old friend and teacher Paul sent him. Most letters reach the wastebasket, and we know that some of Paul's did. But fortunately his friends thought enough of about a dozen of his letters to save them and copy them and file them with some others and pass them around. And so we got more than a third of our New Testament, and perhaps a good deal more than a third of our theology.

Dr. Foreman

• • •

Yesterday in Television

THESE letters that have come down to us from so long ago are not only keenly interesting, they are immensely valuable. An honest informal letter is like an open window. We see into the writer's mind and life, we see the life of his times. Any historian feels lucky when he lights on a packet of old letters. Here is yesterday in television.

The letters of the New Testament, especially Paul's, are not propaganda literature. Paul was not writing for publication or for posterity. He would be bothered by a problem; he would think and pray about it, and then he would sit down and write about it.

However trivial the problem might seem, such as a local church quarrel, Paul never wrote trivially about it. He would pour out his mind on papyrus, usually dictating his letters to a secretary and sometimes so fast that the secretary obviously had a hard time keeping up.

If you want to know how an Apostle's mind worked, here it is. If you want to know how an inspired religious genius, one of the great of all time, planned and grieved and hoped and rejoiced, read these letters. Further, these letters televise for us the early Christian church. This is not a view of the church on parade, this is a glimpse of the church as it was "on the hoof," struggling, quarreling, ignorant, scarce one step removed from raw heathenism, and yet with the root of Christian faith in its heart, the seed of the great church that has grown up through the centuries.

• • •

Friend to Friend

THE letters in the New Testament are of various kinds. The letter to the Philippians from Paul was written, from prison, to some of his best friends. Recently they had sent him not only money but a man named Epaphroditus to stay with Paul and help him, Paul being in constant bad health. But Epaphroditus himself had fallen ill, and when he grew better he was still homesick.

Paul, generous as always, decided to send his sick friend home to convalesce, and by his hand sent the letter which the Philippian church loved, saved and copied, so that it eventually made its way into the New Testament collection.

There is some high theology in the letter; but there is also some warm human friendship, and some of the best advice Paul ever gave. It is in this letter we discover Paul's secret of happiness. I have learned (he wrote) in whatsoever state I am, therein to be content. (See chapter 4.)

When you read those paragraphs, simply glowing with happiness, remember they were written by a sick man, in jail, facing a serious charge on his forthcoming trial. Paul had actually discovered a joy which is trouble-proof.

• • •

Father to Sons

PAUL knew he would not live forever on this planet and could not live everywhere. So he spent much effort training helpers and successors. Some of these disappointed him sorely; but he was never disappointed in Timothy.

His letters to Timothy are personal, but they are more than that. They are advice from an older minister to a younger one, from a veteran missionary to a fresh recruit.

In I John we have another kind of letter, from an old, perhaps retired minister to a congregation he knows and loves. Again in I John the reader gets the impression of reading a family letter from father to sons and daughters.

Installation of electric lights in tobacco stripping rooms in Jessamine county was increased by 26 percent this fall, resulting in more uniformity of grades as well as an increase in the amount stripped each day.

YELLOW SWEET CORN OUTPRODUCES WHITE

Six acres of Golden Cross Bantam sweet corn brought a total return of $1,053 to William and Albert Schneider of Jefferson county, or an average of $175 per acre, Mr. Schneider reported to H. C. Brown, associate county agent. By way of comparison, a half-acre of white sweet corn, Stowell's Evergreen, was grown along with the yellow corn. Although the white corn had larger ears, there were fewer of them, resulting in a return of only $145 per acre. It was noted that consumer preference for sweet corn over field corn is progressing rapidly.

4-H'ERS STEP UP CORN PRODUCTION

Four 4-H club boys in Graves county who entered the corn derby contest made yields of more than 100 bushels each per acre. They are Kenneth Walker, 135.2 bushels; Billy Hazel Mathis, 100.8 bushels; Carl Mathis, 129.6 bushels, and Harold Mathis, 123 bushels. Carl Mathis was selected as the county champion in the corn project, explained Richard G. Foy, assistant county agent, because of the good practices used in growing corn and conserving the soil and the fine records he kept.

TILING HELPS TO INCREASE YIELDS

A 25-acre field on the farm of Dr. George Payne in Rockcastle county shows the results of tiling and treatment with lime and phosphate. Where he once got 25 bushels of poor corn to the acre, he this year harvested from 65 to 70 bushels, said Farm Agent Robert F. Spence. His hay crop, too, showed improvement, increasing from 1,500 pounds to the acre to 4,000 pounds. Dr. Payne straightened a creek on his farm and put in diversion ditches where needed.

Gilbert Foltz and family are comfortably located in the new dwelling recently completed on the farm of his father Carl Foltz on Price Road.

James Rogers is assisting Earl Locke, of Burlington with his corn husking and preparing his tobacco for market.

The citizens on Price Road are grateful to the road crew for putting the road in good shape.

John Brown is much improved from a recent illness and he and his daughter Mrs. Marie Kinman are very grateful to friends and neighbors for their gracious kindness, the many prayers and words of cheer. They will long be remembered.

Miss Stella Carpenter motored out from Covington Saturday to visit her brothers and sister here.

The sympathy of the community goes out to the family of Robt. L. Markesbery, 29, who succumbed at Hazelwood Sanitorium, Louisville, on Friday, following a lingering illness. Funeral services were held from the Florence Baptist Church Sunday at 2 p. m. The pastor Rev. Harold Wainscott and Rev. S. J. Bradley of the Methodist Church were the officiating ministers. Miss Beverly Markesbery was soloist. Burial was in Big Bone Cemetery. The Ralph Stith funeral home was in charge of arrangements.

We join in wishing the celebrants many happy returns of the day.

To avoid congestion and confusion this month, the employees of the Florence Post Office, suggest an early purchase of postage stamps and an early mailing of parcels and cards. The Post Office Department predicts this year to prove the biggest year in history. It will greatly facilitate the handling of the mail, if patrons will cooperate in tying their cards and letters in bundles before placing them in mail boxes for the rural carriers. Everyone cooperated splendidly last season and we hope conditions will be much improved this Christmas. Send your local office.

Miss Jewel Ward arrived the past week from Starke, Fla., to visit her father Andy Ward at Wildwood Tourist Camp.

CAREFUL SORTING SHOULD PAY WELL

The following statement pointing out that careful sorting of lower grades of tobacco should pay well this season due to wide differences in loan rates on such grades, was issued by the College of Agriculture and Home Economics, University of Kentucky.

Price supports or loan rates on burley tobacco, by grades, have been announced. These are based on 90 percent of the parity price on Sept. 15, which was 47.1 cents per pound. Hence, the grade values are designed to average 42.4 cents.

Careful study of the loan rates should reveal several characteristics especially when differences between grades are considered. For example, an analysis of the drop in price which occurs with lower quality Flyings (X) shows that the better grades differ only $1 or $2 in price but grades of 4th and 5th quality differ by $10 to $15 per 100 pounds. Careful sorting when stripping the lower grades, therefore should pay well.

In the same way the differences in loan values between Tan and Red colors are more than twice as large as the difference between Buff and Tan. Green grades drop twice as far below the Red grades as the Reds drop below the Tan. Thus in Flyings, there is much greater opportunity for gain from carefully stripping Tans, Reds, and Greens separately than there is in sorting out only the lightest Buff colored tobacco.

Differences in Lugs (C) are similar to those in Flyings (X), except that differences due to color are somewhat larger and differences due to the quality factor alone are slightly smaller. Red colored lugs are valued $6 to $9 below Tan Lugs of similar quality.

In the Leaf (B) and Tip (T) groups differences due to quality are much more uniform throughout the range of grades. In most cases each grade is valued at from $4 to $6 below the next higher quality grade. Color differences, however, are greater among the lighter colors, just the opposite condition from that shown in Flyings and Lugs. Reddish Tan Leaf grades are valued from $9 to $13 per 100 pounds below similar grades of straight Tan color. Red leaves are still lower by $6 to $7. Dark Red Leaf, however, is only $4 per 100 pounds lower than Red Leaf. Thus in stripping Leaf and Tip grades, it is especially important that the Tan colored leaves be separated from the Red and darker colors if the largest possible returns are to be obtained from the crop. Green color lowers the value of tobacco regardless of its group and quality classification.

MARES CLEARED LAND YIELD $100 AN ACRE

An example of good land use in Owsley county was described by Farm Agent H. M. Williams when he told of the work done by Mr. and Mrs. Herbert Wilson and their 15-year-old son, Weldon.

In 1940, the Wilsons started grubbing out part of their 78-acre farm. Now they have 26 acres cleared and fenced, 23 acres tile drained, and they have built their six-room house, a combination tobacco and tack barn, and small poultry and and brooder houses. A storage cellar built in the side hill protects their winter food supply.

Through intensive farming, the Wilsons have an average annual income of $100 per acre from the cleared land. Fifty-two acres, too steep to farm, have been left for a wood supply, posts and building lumber.

Following the live-at-home program is important to this farm family. From a large garden, Mrs. Wilson cans from 500 to 800 quarts of food every year. They have a laying flock of around 100 pullets and they keep from four to five head of cattle. Three to four acres of corn have averaged about 80 bushels to the acre. They also have an acre tobacco base.

Weldon, a 4-H club member, was recently named the best 4-H'er in the county and as such was awarded by a Beattyville bank a registered sow. His corn derby acre produced 90 bushels of corn, and he sold his county prize-winning beef heifer for $2.14. He is enrolled in the Owsley county high school.

CUTS TIME, WORK IN MILKING COWS

To some farmers, milking cows is just an added chore, but to Mr. Cowan of Cowan and Sons, Fleming county, it has become a pleasure since he built his dairy barn, he told Farm Agent James I. Stephens. He is proud of the fact that his barn is less expensive than many, yet it is so efficient that he recently was able to do the feeding, milking and cleaning for 10 cows in 29 minutes. The milking parlor system is used, with feed box and door in front of each cow, feed and hay being stored overhead and fed through chutes.

CARD OF THANKS

We wish to publicly express our appreciation to our friends and relatives for the many acts of kindness and service rendered to us during the illness and death of our father,

William H. Terrington

Especially do we wish to thank Rev. James McGregor, Rev. R. A. Johnson and Rev. E. M. Helton for their consoling words; Mrs. Franklin Ryle and daughter Jean and Mrs. Freda Pitts for the music and songs; Dr. George H. Riley for his efforts; the pallbearers, the donors of the beautiful flowers; and the Chambers & Grubbs funeral directors for the efficient manner in which the funeral was conducted.

To all of you we say "Thank You."

MADISON 4-HERS MAKE TOP RECORDS

Outstanding records of three Madison county 4-H club champions are reported by James B. Thornton, junior county agent.

Richard Carr, corn champion, grew 105 bushels an acre on 20 acres. Corn derby methods were used in checking his yield. Richard has completed eight projects in six years of 4-H club work.

Arnold Ingram, county garden champion, sold $550 worth of vegetables from his commercial garden, and then grew another garden for family use.

John M. Park, Jr., Madison county champion beef producer, raised and sold 12 cattle this year and has a herd of purebreds left. He was state meat animal champion in 1946 and has won six county and five district championships. In eight years he completed 21 club projects.

CURING DISCUSSED IN MEAT CIRCULAR

All good meat-curing mixtures should contain salt, sugar and saltpeter, it is stated in "Killing, Cutting and Curing Pork," a circular of the College of Agriculture and Home Economics, University of Kentucky.

Pork may be cured either in a "dry" or "brine" cure, or a combination of the two. There are many variations of these two general methods, including the "dry salt," "dry sugar cure" and "molasses sugar cure" methods. The "dry salt" cure consists of salt only, and is used principally in curing heavy side meat or fat cuts to be used for seasoning meat. Ordinary barrel salt is satisfactory. Granulated sugar is preferable and is the kind much used by meat packers.

Twenty Years From Now

Foot Comfort Specialist at—

PEOPLE'S SHOE STORE

814-816 Madison, Covington

Will they thank you for good strong feet?

Oh, you mother of a child—you want his manners to be nice, you want his brain to be quick, you want his hands to be agile—but don't you want his feet to be sturdy and true, well-shaped and graceful? Are those of your daughter?

You mother of a child, twenty years from now his feet will be walking up to get a diploma, or confidently marching in to get a job, maybe walking up to an old church alter to meet a bride in white. (Or it may be the bride herself.) Your child may never thank you for good strong feet, he'll take them as a matter of fact. But what will he think if they're not good strong feet? Sure he'll still love you—but "why didn't mother make sure I was growing up right?"

It is a responsibility, just one of the many a mother takes on when she brings a child into the world. —Adv.

RECIPE OF THE WEEK

When two such good foods as squash and bacon are prepared together, the resulting dish is a favorite with everyone. It is easy to make, too. The recipe comes from food specialists at the College of Agriculture and Home Economics, University of Kentucky.

Scalloped Squash and Bacon

Four cups sliced raw squash, 2 tablespoons flour, 1 teaspoon salt, dash of pepper, about 2 cups milk, 6 strips of bacon.

Pare the squash and cut in slices about an eighth of an inch thick. Arrange half of it in a greased baking dish and add the flour, salt and pepper. Add the remainder of the squash, cover with hot milk and bake in a moderate oven, 325 degrees, for 45 minutes. Remove from oven and top with strips of bacon which have been slightly cooked to remove some of the fat. Return to oven for 15 minutes.

Menu: Baked liver, scalloped squash and bacon, green beans, gelatin carrot-pineapple salad, biscits, butter, canned fruit and cookies.

IN LOVING MEMORY

Of our beloved husband, dad and grandfather, Plummer E. Gulley, who passed away Dec. 13, 1938.

The evening star shines on his grave,
Of one we loved but could not save;
God took him home, it was His will,
But in our heart he liveth still.

MAKES PROTEIN

Protein is the nutrient which, when eaten by farm animals, is converted into lean meat, hair, hide, hoofs, eggs, and milk. All rations must contain a goodly amount of it.

You can buy it in a feed bag or you can grow it. Smart farmers grow all they can. The first step is to lime the soil. Practically all high-protein plants, such as the legumes and better grasses, require a properly limed soil.

Use agricultural limestone regularly on your farm and you will grow not only more feed but it will have a higher content of protein and minerals!

BALANCE, ECONOMY STRESSED IN FARM OUTLOOK FOR 1948

Keeping farming in good balance next year is suggested by Dean Thomas P. Cooper in the annual outlook report issued by the College of Agriculture and Home Economics, University of Kentucky. He also emphasizes economy of production without over-expansion as a sound procedure for farmers.

The report deals with the general outlook for farmers for 1948, with special attention to the tobacco situation and prospects for beef cattle, hogs, sheep, wool, dairying, poultry-raising and other farm production. Information also is given on price supports for farm products, land values, farm family living costs and demand for farm products.

The domestic use of burley tobacco is expected to continue high, especially if industrial production and consumer income remain high. The outlook for dark tobaccos, however, is considered discouraging because of the trend toward lighter tobaccos.

Strong demand for meat and reduced supplies are expected to keep cattle prices high, "although sharp fluctuations are likely to occur."

Indications point to continued high hog prices and "strong demand for meat will be especially favorable to Kentucky lamb producers in 1948."

Prices of dairy products may be down next year, but feed prices also will be lower and net income may be about the same as this year. The same situation may prevail in poultry and egg production.

NATIONAL HONORS WON BY KENTUCKY 4-HERS

Two of Kentucky's 4-H club members who attended the National 4-H Club Congress in Chicago won scholarships of $200 toward their college educations and all-expense trips to the Club Congress, high spot in any 4-H'ers experience. They are Miss Martha Routt of Oldham County, clothing champion, and Wallace Montague, of Owen County, dairy production winner.

Miss Routt, 19, used the Singer sewing machine won at the State Fair in 1947 to make 73 garments, alter 67 and mend 112. Some of the garments she made this year include a pink cotton formal, a brown and blue checked wool suit and a maroon wool winter coat. The total estimated value of the clothing made during her 12 years of project work is $3,047.

Miss Routt, a sophomore in home economics at the University of Kentucky, was one of 12 sectional clothing champions in the nation to win scholarship awards given by the Spool Cotton Company.

The dairy record of Wallace Montague, 20, of Owen County, shows that over a period of eight months, his 10 Holstein and two Jersey cows produced a total of 28,674 pounds of milk, with 1,178 pounds of butterfat selling for $1,051. His total receipts were $2,018 and expenses, $966. The average production per cow for the eight months period was 4,120 pounds.

Young Montague now has a herd of 19 cows and 9 heifers, all registered animals. He estimates the total value of his dairy product over a period of 11 years at $7,000. He was one of six sectional dairy production winners to receive a scholarship award from the Kraft Foods Company.

Burlington Eagles Prove To Be "Giant Killers" in Game With Simon Kenton; New Haven and Walton Fives On Top

Hebron Cards Drop Game To Dixie; Florence Five Upset By Crittenden.

Burlington's Eagles played the part of "giant killers" in local basketball last week when they handed the heretofore unbeaten Simon Kenton quint their first setback at the loser's floor Tuesday night by a 44-42 score. The Eagles paced by Lafe Miller and Jimmy Ryle went into an early lead, holding a 10-4 lead at the quarter and a 19-18 half time count. The Eagles came back in the third quarter to outscore the Pioneers and take a three point 28-25 lead. The winners held on in the last period for their 3-point victory margin. The floor play and defensive work of Patterson, McBee and Cropper featured the Burlington play. Coppage Pioneer pivotman, hung up 14 points for the losers while Miller and Ryle scored 17 and 15 for the winners.

New Haven's Tigers added two to the win column last week when they trimmed the Holy Cross Indians 55-39 at the New Haven gym. They took an early lead, and despite Heitzman's 23 tallies for the Indians, had little trouble in winning. The New Haven reserves also won 31-21.

The Tigers came back still hot and trimmed a good Bethany ball team by a 55-19 score at the winner's floor Friday night. New Haven's scoring was about even between their five starters, Flynn, Dickerson, Mason, Clements and Love. Feature of the night's play was a reserve game which took two overtime periods to give the visitors a 23-22 win.

Walton's Bearcats still rebounding from their defeat to Simon Kenton measured a tough Crittenden five 44-32 at Walton last Tuesday night. Vest scored 12 for the winners and Vallandingham had 14 for Crittenden. It was Walton's fifth win against one setback.

Dixie Height's Little Colonels defeated the Hebron Cardinals in last Tuesday's play at the winner's floor by a 58-35 count after being held to a 23-19 lead at the half. Galen McGlasson tossed in 12 for the loser's cause but was overshadowed by Big Earl Redwin's 18 points for Dixie.

Burlington-Goshen

Highlighting play by Boone County fives Friday night was a "I don't want, you can have it—it's too confusing for me" game between Burlington and Goshen, Ohio. About the only thing that marked it as a basketball game was the fact that it was played in a gym and they did use a basketball—at times. At the end of the regulation time neither of the scorebooks nor the scoreboard showed the same score. A number of other confusing elements entered into the game and both coaches conceded defeat. Burlington's coach stated that the game would definitely go down in the records as a 46-45 win for Goshen. The little Eagles lost also by a 18-17 score.

An Upset

Crittenden pulled a mild upset Friday night when they trimmed the Florence Knights at the winner's floor by a 50-45 score. The Knights took an early lead but the Grant County five shaved away the edge and in a final rally handed the Knights a loss.

The Knights lost to Highlands Saturday night at the loser's gym by a 47-43 score. Florence pulled into a 11-6 first period lead but fell on the short end of a 25-18 halftime score. They rallied in the final half but were unable to overtake the Bluebirds. Markesbery led the scoring parade with 21 points. The Highland reserves won a 28-11 decision.

Correction

We are very sorry that we made a slight error in the advertisement of Elsmere Drugs, Erlanger, in the farm radio advertisement. We listed the battery as a 100-hour type and it should be 1000-hour type. This error was discovered after it had already been printed, so we are taking this means for correcting it.

Florence Man Crawls Home After Being Hit By Automobile

Victims Left Leg Broken and Right Ear Almost Severed; Motorist Sought

George Ford, 26, of Florence suffered a broken left leg and severe head and hand cuts as well as many bruises when hit Saturday night by a hit-skip motorist Saturday night on Dorotha Ave., Florence.

Ford alighted from a bus at the Florence Post Office at 11:30 p. m., and proceeded toward his home on the Burlington Pike. He heard the sound of a speeding automobile approaching behind him, and that was the last thing he remembered until he regained consciousness in the ditch near the home of Francis Souther.

Ford was unable to determine how long he was unconscious beside the road, according to Sheriff R. I. Rouse. Upon coming to his senses, he found that his left leg was broken and began crawling toward his home. Upon arriving at his home he aroused O. R. Russ, with whom he lived.

Sheriff Rouse was called and removed the victim to St. Elizabeth Hospital for treatment. His right ear was nearly severed in addition to other injuries. His condition is reported as fair.

Burley Tobacco Shows Slight Drop In Average Price

According to Weekly Report of United States Department Agriculture

Gross sales for all burley tobacco marketed during the second week of auctions amounted to 90,082,970 pounds for an average of $47.99 per hundred. The Federal-State Market News Service reports the volume around 51 million pounds below that of opening week and the general average 53c less. The reduction in selling time from 5 to 3 hours was responsible for the decreased poundage, while an increase in lower quality offerings was attributed to the smaller weekly average. Season sales were brought to 231,165,366 pounds at $48.31 per hundred.

Comparative average prices for the majority of grades were steady to slightly higher than during opening week. The changes, however, were mostly $1.00 per hundred. A few averages showed declines, but these grades were offered in a comparatively small volume. Fine buff and tan and good buff lug averages leveled off at their advance loan value. Other good and medium grades of this crop were only $1.00 to $2.00 above support prices, as was also the case for fine and choice tan leaf offerings. Low to good flyings and thin nondescript appeared to be in the most consistent demand.

Increased proportions of low quality grades were responsible for the decline in the general average. There were less fair to choice qualities marketed. Although some markets reported the percentage of baskets in unsafe order as showing a decrease toward the end of the week, the overall picture showed baskets in this condition still running around 5 per cent. Sales consisted principally of low to good leaf and flyings, low and fair lugs and fair tips.

Deliveries to the Associations were estimated at 10 to 12 per cent of the baskets offered. This estimate is slightly below that of last week. Rejections for resale were observed on numerous occasions this week. These were mostly from farmers offering baskets in unsafe order. There is no loan value for tobacco in this condition so they cannot be consigned to the pool.

The closing date for the holiday period has been set up from December 22 to 21. In making this change it was decided to hold 4½ hour sales on December 20 and 21 instead of the 3 hours now observed. The markets will close on December 21 and resume operations on January 10, 1949 on a 3-hour sales day per set of buyers schedule.

Community Public Service Company Denied Increase

Will Be Permitted To Submit Evidence of Need of General Increase.

The Community Public Service Co., was denied the right to put a fuel cost clause in its electric rates to residential consumers, by the State Public Service Commission, Thursday of last week. The Commission said it might come back and submit evidence to show general need of higher rates.

The Community Public Service buys its current from the Kentucky Utilities Co., and the Union Light, Heat & Power Co., under contracts which vary the charges according to the cost of coal and other fuel used in generating current.

The local company proposed to charge on a fuel-cost basis its sales to residential and commercial users. It was estimated the proposed raise would add $42,000 a year to the company's income. The company declared that advanced costs have reduced its earnings to three per cent on its investment.

Counties services this section by the Community Public Service are Boone, Grant, Kenton, Gallatin and Owen. R. M. Hall, former State Representative is the company's Kentucky manager and Charles Finnell is Boone County's manager.

Seven Indictments Returned by Boone County Grand Jury At Regular December Term of Circuit Court

Little Time Left For 1948 ACP Practices

With the end of the 1948 Agricultural Conservation program just a few weeks away (December 31), there is little time left to complete conservation practices under the program for this year, W. M. Smith, chairman of the Boone County ACP committee, reports.

Mr. Smith urges farmers who have not finished their 1948 practices to use the remaining time to complete their conservation jobs. Every bit of conservation work that can be completed will mean that much more soil saved.

Farmers who have completed conservation work are urged to report their projects to the county ACP office.

"This kind of cooperation on the part of farmers will help speed up the work of the county office and insure earlier payment to farmers of the Government's share of the cost of approved conservation practices," Mr. Smith said.

Two Arrested In Florida Believed Robbers of Ohio Man

Victim Identifies Picture Of Man As One Who Robbed Him Tuesday.

Two men registered as Roy McQueen, 40 of Corbin, Ky., and Ernest Wm. Ratcliff, 21 arrested in Lake City, Fla., are believed to be the men who robbed George Albrecht, Bethel O., man and stole his auto near Florence early last Tuesday, according to Sheriff R. I. Rouse.

Mr. Albrecht identified the picture of Ratcliff as one of the two suspects. Ratcliff gave a Cincinnati address.

The two men were captured in an auto of the same make as that taken from Mr. Albrecht, Sheriff Rouse, reported.

Two girls with the men told Florida state police that their companions robbed a man and took his auto "somewhere near Cincinnati," which led to the contacting of local authorities.

Mr. Albrecht was beaten and robbed after he drove two men and a woman to a side road near Florence after telling him they desired to visit a sick aunt near Florence.

Disposition of the men captured in Florida will be decided by Federal authorities, according to Sheriff Rouse. If released to Boone County authorities, they will be returned here for trial.

Austin Scroggin, Boone County jailer is ill at his home in Burlington, after suffering a heart attack Monday.

Taylorsport Man Robbed By Two Gunmen Friday

Thieves Take Billfold and Car; Victim Escapes Over River Bank.

Edgar Snelling, of Taylorsport lost his billfold and car Friday night, when he was stopped by gunmen in front of Jenny and Elmer's Cafe, on Lower River Road near Bromley, according to Sheriff R. I. Rouse.

Snelling was returning home at the time of holdup. The gunmen blocked the road by pulling their car across the highway. When Snelling brought his car to a halt, the men flashed guns and ordered him out of the car. He was then relieved of his billfold. Catching the gunmen off guard he plunged over the river bank and escaped.

Mr. Snelling made his way to the home of a friend, Herb Schulker, who agreed to drive him home. Enroute to Snelling's home they found his car wrecked near the Dry Creek Bridge, Constance.

Snelling described the hold up as being apparently young, one being between 36 and 37 years of age, six foot tall with blond hair. The other was described as 30 to 35, five feet four inches tall, weighing 170 pounds, with brown hair.

The seven indictments are as follows:

Another trial scheduled for Wednesday is the Commonwealth vs. James Jump and Donald Holcomb charged with grand larceny. As we go to press Wednesday morning, we are unable to give any details of the trial.

Attendance at the opening session of the court by both lawyers and litigants was very light, and the court was unable to understand this action.

BIG CORN YIELD WINS $50 PRIZE

George Rogers was one of four Negro farmers in Christian and Todd counties to produce more than 80 bushels of corn to the acre. His yield was 108.5 bushels to the acre on a two-acre field, thereby winning the $25 prize offered by the Broadbent Hybrid Seed Company. Other winners were Hick Whitney, 91 bushels, $20; Earnest Shelby, 82 bushels, $15, and William Haskins, 83.7 bushels, $10, said Louis Duncan, assistant Negro farm agent.

BUILDS PRODUCTION ON LAND ONCE POOR

Five hundred bushels of corn produced on three acres is proof that even poor land can be built up, according to Frank Farson of the Naples community in Greenup county. Twenty years ago he started improving the poorly drained, white clay soil on his farm, said Farm Agent John W. Irvine. Recently farmers of the county gathered there to note the results of his tiling the land and building it up with lime, phosphate, cover crops and manure.

Children's Feet

N. TULCH
Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Ninety-nine out of a hundred babies are born with good feet, even if they do appear to be flat at the start. We say babies are born with flat feet because the bony masses in a new-born baby's feet are held in place by fat pads. As the baby starts to stand and walk, these fatty pads are absorbed and muscles take their place. But about the third year the arch of the foot should be pretty well defined if the child is going to have an arch. We say if, because everyone is not meant to have the same color of hair or eyes.

Perhaps when the child starts to stand he is overweight, or undernourished or has gone through a serious illness. In that event the muscles may not develop enough to produce an arch in the foot. He then grows with a natural flat foot. The condition is rarely painful. However, many cases of flat feet can be averted if the child is provided with shoes that hold the weak foot in alignment. Such shoes are usually wedged slightly under the inner border of the heel bone. This prevents tipping in of the ankles and by over correction has a tendency to cause the muscles on the inner border of the leg to shorten. These muscles are the ones which keep the foot arched.—Adv.

SEWING AT HOME SAVES BIG MONEY

Because Kenton county homemakers had lessons in sewing and tailoring the past year, they have an estimated savings of $10,854 over what they would have had to pay for ready made garments, reported Miss Zelma E. Byerly, home agent. Four hundred and twelve women made 2,553 new garments and repaired 3,214. Then they altered 1,394 articles and remodeled 941. An estimated savings of $4,802 was made by 180 homemakers who tailored suits and coats for themselves or members of their families.

RADIOACTIVE MATERIALS FAIL TO BENEFIT CROPS

The Agricultural Experiment Station of the University of Kentucky has announced that it failed to get any beneficial results from the use of radioactive materials in growing tomatoes this year. No effect was seen in either quality or quantity of tomatoes.

The Kentucky test was one of 14 made on various crops at state experiment stations and at the Beltsville, Md., government experiment station. The reports says: "These widespread one-season experiments indicate strongly that farmers cannot expect increased yields from money invested in radioactive materials."

PARAFFINED BAGS PRESERVE SAUSAGE

Probably half of all persons who relish sausage want no sage in the seasoning, according to Grady Sellards, field agent in swine husbandry for the College of Agriculture and Home Economics, University of Kentucky.

Sellards thinks every farm smokehouse should contain a good supply of sausage from one hog killing time to the next. Here are his suggestions.

"One of the most desirable ways to preserve sausage is in cloth bags about a foot long. The sausage should be tightly stuffed in these bags, and then a flour paste applied to the outside and this followed by dipping in melted paraffin.

"If you like smoked sausage, be sure to do the smoking before sealing the package with paste and paraffin. Two to four hours of smoking is adequate. Sugar should not be used in the recipe when the sausage is to be sacked."

100-BUSHEL CORN ON DRAINED SWAMP LAND

On what was considered the worst swamp in Owsley county, Eugene Moore of Cow Creek this year produced 115 bushels of corn to the acre. This was made possible, said Farm Agent H. M. Williams, when Mr. Moore laid tile in the spring, of commercial fertilizer, then planted one line being around the base of the hill to cut off seepage water.

The rest was a little more than $100 to drain a total of about four acres. After turning the land in April and disking four or five times Mr. Moore applied 300 pounds acre.

WEEK OF PRAYER OBSERVED BY W. M. U. AND G. A.'S

Mrs John Jones was hostess to the W M U of the Sand Run Baptist Church on Thursday, December 8.

The morning program was under the leadership of Mrs. Franklin Ryle. Various members told of the mission work being done in foreign fields. Many offered prayer for the work and for the missionaries serving Christ in these fields. The Christmas offering for foreign missions was indeed a very generous one.

Our luncheon was truly a "Christmas dinner." In addition to the menu prepared by Mrs. Bernard Wilson and brought by the W. M. U. members, our hostess prepared chicken with dressing and many other good things to eat.

During the noon hour Mrs. M. P. Judy, our president, acted as Santa Claus and distributed the presents that had been placed beneath the Christmas tree.

The regular meeting was held in the afternoon and after the business session, conducted by the president, the program was turned over to Mrs. Howard Wilson. The program presented by the various members was composed of many messages from God's servants around the world.

The Week of Prayer was climaxed with the meeting of the G. A.'s (an auxiliary of the W. M. U.) at the home of their Counselor, Mrs. Howard Wilson, on Sunday afternoon.

Those present and taking part on the program were Margie Kilgour, Joyce Kilgour, Rita Bingham, Joan Craddock, Wanda Craddock, Betty Faye Eggleston, Ann and Marian Baker. The girls gave generously to the Lottie Moon Christmas offering.

After the program the girls gathered around the Christmas tree in the basement and were served ice cream and cake by the hostess.

Margie Kilgour, president, acted as Santa Claus and handed out the gifts. The balance of the afternoon was spent in playing of games and singing.

RECIPE OF THE WEEK

A steamed pudding is both a delicious and convenient dessert, for it may be prepared days in advance, then reheated for the Christmas dinner. This recipe from the College of Agriculture and Home Economics, University of Kentucky, may be made without fruit peel or, if desired, nuts or raisins may be added.

Steamed Pudding

Three tablespoons butter or margarine, ½ cup molasses or sorghum, ½ cup milk, 1 egg, one-fourth teaspoon each of salt, cloves, nutmeg and cinnamon, ½ teaspoon soda, 2 cups flour, ½ cup candied fruit peel.

Melt the butter or margarine, add molasses, milk and beaten egg. Sift the dry ingredients, and add to first mixture. Add fruit peel. Fill buttered molds or cans about two-thirds full and add covers. Place on rack in kettle with boiling water about half the height of the cans. Steam 2½ hours, keeping water boiling constantly. Serve with whipped cream or hard sauce.

Christmas dinner menu: Roast chicken, sweet potatoes, gravy, buttered broccoli, tomato aspic salad, rolls, hot rolls, butter and almond pudding.

BELLEVIEW Y. W. A.

The Y. W. A. of the Belleview Baptist Church met at the home of Miss Thelma Rogers for its monthly meeting. There were six of the members present.

Mrs. Zora Scott had charge of the meeting due to the absence of our leader, Mrs. Dorothy Rogers.

We elected officers for the coming year. The title of our program was "The World and the Song."

A special Lottie Moone offering was taken which amounted to $3.60.

Our next meeting will be at the home of Mrs. Zora Scott.

DELTA CORN MONEY NOW EQUALS COTTON

Farmers in the Delta section of Fulton county are finding that they can make an acre of corn return as many dollars as an acre of cotton, said John B. Watts, farm agent. He cited the case of Guy Barnett of Hickman, who harvested 176 bushels on one acre.

Mr. Barnett had seven acres which had been in ladino clover for the past seven or eight years. In April, he turned under 1,000 pounds of commercial fertilizer and 180 pounds of ammonium nitrate to the acre. He worked the ground three times, then planted Ky. 203 hybrid corn in 28-inch rows and 10 inches apart in the row. Six acres produced 166 bushels each, while the seventh acre yielded 176 bushels of corn.

Fleming county homemakers made 98 slipcovers for chairs, stools, couches, trunks and beds.

Burlington R. 2

Our community was saddened by the death of Rod Ryle. We extend sympathy to the wife and two sons.

Glad to report Lou Williamson is improved.

Alton and Walter Buckler butchered one day last week.

Mrs. Percy Ryle and Mrs. Cam White held open house December 9th in honor of Mrs. Alice Cook, who was 81 years old. Mrs. Cook received many nice gifts. Those calling during the day were Mrs. Elmer Jarrell, Mrs. S. B. Scott, Mrs. Lillard Scott, Mrs. Herman McClure, Mrs. Bertha Rice, Mrs. Charlie Dolph, Mrs. Harry Asheraft, Mrs. Bert Loomis, Mrs. Don Loomis, Mrs. John Holbrook, Mrs. Dud Rouse and daughter, Mrs. Wilbur Denniston, Mrs. Rena Presser, Mr. and Mrs. J. G. Smith, Mrs. Gordon Stuzman and sons, Mrs. Howard Presser.

Mrs. Russell Louden was calling in McVille and Belleview, Thursday.

Mrs. Cam White spent Friday with Mr. and Mrs. Lou Williamson.

Mr. and Mrs. O. W. Purdy are visiting in Ohio.

Bro. Everett Stevens spent Sunday with home folks and attended services at the Belleview Church of Christ.

CORNBORER RAISES HAVOC WITH YIELD

James Singer of Stamping Ground told Scott County Agent H. S. Long that the European cornborer cut his corn production in two this season. Last year he produced 118.6 bushels, the highest yield in the county's corn-growing contest.

On the same land this year, with wheat and vetch turned under and manure and a ton of fertilizer applied to the acre, the yield was only 57 bushels. More than half of the 15,000 stalks of Kentucky 103 hybrid corn to the acre fell over, weakened by the borer. Also most of the ears were nubbins.

SAYS FARM WOODS COULD CUT COSTS

Better management of farm woods would help reduce the cost of building materials, thinks W. E. Jackson, extension forester for the College of Agriculture and Home Economics, University of Kentucky. The 1,000,000 acres of farm woods in the state are producing only about a tenth of what they could produce, he said.

Proper management of woods, he said, in addition to lowering cost of materials, "would provide revenue from land now idle, furnish additional sources of employment for labor and present possibilities for the establishment of industrial wood-working plants in the state."

In many instances, farm woods given good care, would furnish a substantial part of the farm income, Jackson thought. This might not be in the form of cash for wood products sold, but rather in providing products needed on the farm, thus saving the farmer from paying out cash, he said.

Boone Pastors Named Members of State Mission Board

At Meeting Held In Louisville Last Week; Other Officers Named.

The Baptist State Board of Missions in its annual meeting last week at Walnut Street Baptist Church, Louisville, appropriated almost two millions dollars for missions and benevolent work for 1949. The Rev. John R. Huss of Covington and Rev. R. A. Johnson, pastor of Burlington Baptist Church and Rev. Burton Garrett, Walton, are members of the Baptist State Board of Missions.

Dr. H. Leo Eddleman, pastor of Parkland Baptist Church, Louisville, was re-elected Chairman of the Board; Dr. E. N. Wilkinson, pastor of Immanuel Baptist Church, Lexington, Vice-Chairman; the Rev. George Riggs, pastor of Victory Memorial Baptist Church, Louisville, Secretary; and Dr. Verlin Kruschwitz, pastor of St. Matthews Baptist Church, Assistant Secretary.

The State Board of Missions is composed of members from 79 District Associations which are elected by the churches to represent them and their mission interests. Dr. W. C. Boone is General Secretary, with offices at 127 East Broadway, Louisville.

It was reported in this meeting that the largest gifts which amounted to almost two million dollars, were received from the more than 22,000 Baptist churches in the state. Also the largest number of baptisms, more than 23,000, were reported.

The Board set April 10 when each church will be asked to take a special offering for the three Baptist Hospitals—Kentucky Baptist Hospital in Louisville, Central Baptist Hospital in Lexington, and West Kentucky Memorial Hospital in Bowling Green—and the seven Baptist schools, Georgetown College, Georgetown; Campbellsville College, Campbellsville; Cumberland College, Williamsburg; Bethel Woman's College, Hopkinsville; Clear Creek Mountain Preachers Bible School, Pineville; Magoffin Institute, Sky; and Oneida Institute, Oneida.

The money appropriated by the Board goes to support almost 100 missionaries in the state, the Baptist schools, hospital, children's homes and work in the South and in foreign countries.

Special emphasis was given to the Second Statewide Evangelistic Conference which will be at Walnut Street Baptist Church, Louisville, January 10-13. Outstanding speakers will be secured for this meeting.

Women Take Charge of Services at Bullittsville

In commemoration of Woman's Day in the life of the church, the members of the Women's Christian Missionary Society of the Bullittsville Christian Church took charge of the services in that church last Sunday morning.

After the opening devotional service was conducted by the pastor, Rev. A. C. Young, and the congregation had partaken of communion the women's group presented a program outlining the history of the W. C. M. S. since its inception in 1849, just a century ago. This presentation involved the names of those hardy Christian pioneers who had fostered and furthered the missionary movement and a dramatic touch was given through the use of candle light to illustrate the ever increasing branching out of the light which was given by the large, central candle symbolizing Jesus Christ Himself.

The presentation was not only striking and impressive to behold, but instructive as well as many of the church lacked knowledge of the birth and progress of the very significant work played by the women in the life of the church.

In response to the invitation at the close of the service, another addition to the church was made by confession, which, with the six already obtained in the evangelistic meeting just closed, makes seven candidates for baptism at an early date.

Walton Bearcats Take Firm Hold On First Place In Boone County Conference By Triming Burlington Eagles Friday

Florence and New Haven Chalk Up Victories Over Week-End.

Walton's Bearcats took a firm hold on first place in the Boone County conference last week as they hung up their third consecutive league win by trimming Burlington 43 to 31 at the loser's floor last Friday night. Though Walton held a slight lead after the opening quarter the game was fairly close throughout until the final minutes of the game when the winners pulled away.

Maddox lead the Bearcats offensive with ten points while Ryle paced the Eagles with twelve. Walton's reserves won handily.

The Eagles salvaged some success from the week's play as they defeated the strong Gallatin County quint by a 38-36 count at Warsaw last Tuesday. The Eagles took a short early lead and were never behind but once—late in the final quarter, but lead by Jim Ryle and Lafe Miller forged ahead for the victory margin. Gallatin County's reserves won from the Burlington seconds.

Knights Win Two

Florence's Big Knights put two in the win column last week by trouncing the Ludlow Panthers 32-29 Tuesday night at Florence in a nip-and-tuck affair and then edging Hebron's Cardinals Friday night in a conference tilt by a 32-30 margin.

In the Ludlow game the Knights held a 10-5 quarter margin and a 17-13 halftime count but dropped one point behind 21-20 at the three-quarter rest. They rallied behind the offensive work of Markesbery and Lipscomb who tallied 26 points between them for the final score.

To win the Hebron game the Knights had to come from behind in the final minutes of the game as they trailed 30 to 27 with less than three minutes to play. The winners opened with a rush and held a 9 to 3 quarter lead and held an 18-10 advantage at the half.

Cards Spurt

Hebron came out in the third period to outscore the Knights 11-4 to pull within one point 22-21 as the period ended. The lead see-sawed in the final quarter before the winners pulled ahead for the two-point victory. Markesbery lead the Knight scoring with ten and McGlasson topped Hebron with eleven tallies. The little Knights won a 39-25 victory over Hebron's reserves.

Bellevue Over Cards

The Cards lost to Bellevue of the NKAC loop Tuesday night by a 50-34 count at the loser's floor. Bellevue's big three, Hundermer, Otten and Faber scored 43 of the winner's points.

Tigers Win, Lose

The up and coming New Haven Tigers beat Silver Grove at the Big Trains floor Tuesday night by a 37-36 count. The game was close thruout, with the score changing frequently in a hectic final quarter. Flynn lead the Tigers with 13 points and Fillhardt had twelve for the losers.

The Tigers had tough sledding with Big Bob Ebelhart and the supporting cast of Covington Catholic's Colonels at New Haven Friday night as the visitors won 39-29. The Colonels took a 14-7 quarter lead and paced by Ebelhart who scored 21 points made it 20-12 at the half, 29-20 at the third quarter and on to the 39-29 final count. Flynn again lead the Tigers with 11 markers. In a reserve game Covington Catholic won 17-16.

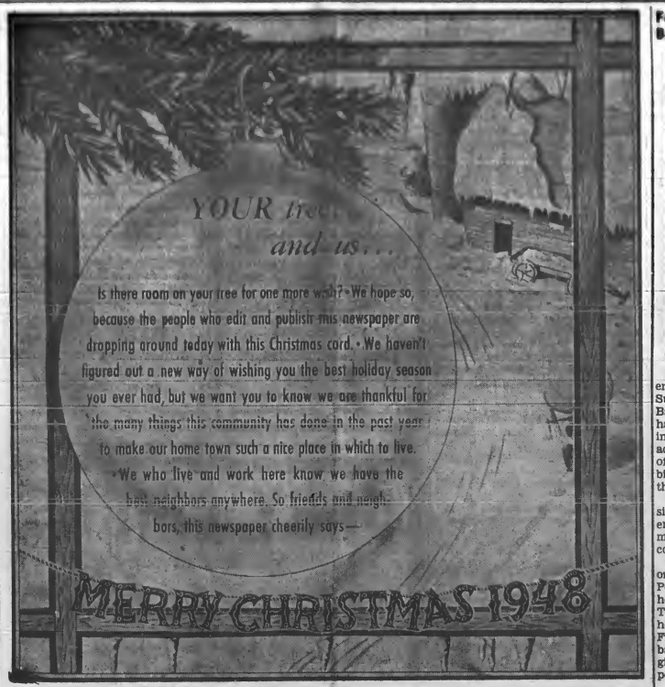
Income From Tobacco Nears 100 Million Mark

Average Slightly Below 1947 Level, According To Reports of Department.

Pre-Christmas sales of the 1948 burley tobacco crop already have Kentucky farmers nearly $100,000,000, according to figures released by the Kentucky Department of Agriculture.

Income of farmers in the entire eight-state burley belt has passed $153,000,000 with an estimated 60 per cent of the crop sold.



This figure was based on the U. S. Department of Agriculture report that 320,518,366 pounds of burley had been sold in the belt this season for an average of $47.88 a hundred pounds.

The general average price was somewhat lower than last season, but the pounds at an average of $48.77 brought the income to almost as much. Sales in the belt for the first three weeks last season totaled 304,060,440 pounds at an average of $48.77, 89 cents higher than this year.

Farmers have been urged to stop deliveries to markets until weather conditions put leaf in better condition for handling. The large volume of wet tobacco resulted from humid weather during the stripping and marketing season.

Deliveries to Cooperative Associations for government price-support loans were reported by the agency to be the smallest for any week this season, running less than 10 per cent of the total baskets.

Markets throughout the State closed Wednesday for the Christmas holiday recess. Sales will be resumed January 10th.

Leaders From 12 Clubs Attend Training Class

Twenty-Three Leaders Present For Meeting At Florence, Thursday.

The first in a series of three training classes on hooked rugs was held Thursday of last week at the Florence Town Hall. Twenty-three leaders representing twelve clubs attended the all-day class.

Miss Vivian Curnutt, home furnishing specialist, University of Kentucky, gave the lesson. During the morning program Miss Curnutt discussed proportionable sizes of hooked rugs, types of material to use and the variety of patterns available. Each leader was given a set of cardboard motifs suitable for use on a hooked rug. During the afternoon each two leaders designed a floral pattern for a hooked rug base.

This lesson will be presented to local clubs by leaders in January, according to Mary Hood Gillaspie, Home Demonstration Agent.

Chas. Burris Buys J. H. Louden Farm

Chas. Burris, Burlington, purchased the J. H. Louden farm, consisting of 198 acres near Waterloo, at public auction last Saturday.

Mr. Burris has been a tenant on the H. E. White farm for several years, but plans to move to his new farm in the early spring.

In spite of very disagreeable weather Saturday, the Louden sale was a huge success. The purchase price of the real estate was $9600.00 and all personal property brought good prices, according to R. P. Coleman, real estate and auction sales Florence, Ky., who was in charge of the sale.

Blind Tourney Set For January 5-6 At Burlington Gym

Hebron, Florence, New Haven and Burlington Squads Will Participate.

The second annual Boone County School News blind basketball tournament will be held at the Burlington high school gymnasium Wednesday and Thursday nights, January 5-6. Opening whistle each night will be at 7:30 E. S. T. H. N. Ockerman, tournament manager stated.

Participating teams will be Hebron's Cardinals, winners of last year's tournament, the Knights of Florence, New Haven's Red and Black Tigers and the host Burlington Eagles. There will be two games each session—two elimination contests on Wednesday night, and a consolation and final game Thursday night, Mr. Ockerman stated.

Tournament officials as selected by the representative schools for the mid-winter basketball preview will be Boyd Mahan and Sam Shinkle, referees; A. W. Weaver, scorer, and Clifford Tanner, timer.

Mr. Ockerman stated that a beautiful large trophy would be presented to the winning team to be held by that school until next year's tourney at which time a new winner would take the trophy for a year's duration. A team will gain permanent possession of the School News trophy when they win three blind tourneys, he said. Since the Cards were winners last year they need only two more tourney victories.

Admission price will be fifty cents for everyone except ten players, manager, coach and cheerleaders of participating schools.

The entire proceeds of the gate and concessions will go to the Boone County School News, a newspaper published by the students of the nine county schools.

Part of Loot Is Recovered Taken From Masters Home

Near Bullittsville Dec. 4; Kenton County Man Accused of Theft.

W. H. Easton, Deputy Sheriff of Boone County reported that several items stolen from the home of Mrs. Mary Masters, Williams Road, near Bullittsville, were traced through an anvil which had been shot thru several times with a high-powered rifle. The items were stolen from the Masters home December 4th while Mrs. Masters was visiting her daughter, Mrs. Henrietta Becker, 1918 Greenup St., Covington.

Three rooms of furniture, clothing, linens, toweling, food and miscellaneous articles were stolen by the thieves.

Mrs. Becker signed a warrant Wednesday, accusing Lee Grant Weber, of Kenton, of the theft. Approximately $125 worth of the loot was found in Weber's home after Weber was arrested by Kenton County Police who seized a still and "small arsenal" in the raid. Deputy Easton reported that the anvil was found in Weber's car.

Furniture taken from the home is still missing, according to Deputy Easton.

Weber was placed in Newport jail when federal authorities entered the case on the basis of finding an unregistered machine gun in the Weber home.

Sportsmen Reelect Edwin Walton As President of Club

J. D. Jarrell Named Vice President and Alvin Clore as Secretary.

Edwin H. Walton, was reelected unanimously to serve another year as president of the Boone County Fish & Game Protective Association by its members at the regular meeting held Thursday, December 16 at the clubhouse.

J. D. Jarrell, vice president and Alvin Clore, secretary were also reelected for the year 1949.

Plans were made at this meeting to install a new wooden floor in the building, and order was placed for materials. In order to accomplish this project, each member will be accessed $2.00 to cover the cost of materials. This is the first assessment made against club members since the organization was formed, but was necessary, due to the low $1.00 dues, which barely pay light bills, and other miscellanous bills during the year. Members desiring to pay their assessment should contact Alvin Clore, secretary of the club, who will gladly accept their contribution.

Refreshments were served by the committee in charge, which were enjoyed by everyone. A technicolor picture of Ireland was shown and held the interest of all in attendance.

The next regular meeting of the club is scheduled for January 20th.

The Men's Bible Class of Burlington Baptist Church enjoyed their annual meeting held at the church Saturday night.

The Acacia Inn was the place of gathering recently for a group of workers in the interest of the National Foundation for Infantile Paralysis. Mr. Neil Dalton and Ines K. Ligon, of Jefferson County, Kentucky Chapter Chairman and Secretary visited here for the purpose of creating a great interest in this most worthy cause—"The March of Dimes" to help fight polio. Never in the history of our country has there been such great need for funds to carry on this noble work. When you are solicited during the month of January, give and give generously. Under the chairmanship of Bennie Zimmer, Jr., who recently succeeded Attorney John McEvoy we know the county will come through even surpassing the quota expected. Let's all pull together as a team.

Mrs. Lutie and Mrs. Alice Aylor had as their recent guests, Mrs. Zelma Aylor and daughter, Cynthia Anne.

Mr. and Mrs. Russell Ricketts and daughter have moved from the Ora Tanner apartment to their new location in Columbus, Ind.

Mrs. Albert Pennington entertained the Ladies' Aid of the Florence Christian Church with an all-day Xmas party last Tuesday. A wonderful dinner, good fellowship and an exchange of gifts made a very delightful day. Those present were Mrs. Minnie Pennington, Mrs. Nan Tanner, Mrs. Hester Tanner, Mrs. Grace Wilson, Miss Ginny Royale Nester, Miss Doris Jean Souther, Arlen Easton, Mrs Rybolt, Mrs Blankenbeker, Mrs. Dunn, Mrs. Chore, Mrs. Kirchhoff, Mrs. Finney Osborne, Mrs. Joe Littrell, Miss Kate Ashford, Mrs. Fred Voshera, Mrs. Ray Nestor, Mrs. Joe Berkshire, Mrs. Will Kite, Mrs. Carrie Easton, Mrs. Hattie Owens, Mrs. Virginia Goodridge.

The Sunday School of the Florence Christian Church gave a beautiful Xmas pageant with splendid singing of the carols. A wonderful tree, Santa Claus and everything that is so dear to a child were there, and we are very proud to have made so many people happy. The leaders gave of their best and we thank every one that had a part. Bro. Reid, our pastor gave the church a large picture of the Christ and the congregation was very grateful.

Dairy Tips Given By County Agent

With cold weather approaching many dairymen make the mistake of allowing milk to cool without the use of refrigeration, according to Bill Davis, County Agent. Milk and cream will not cool fast enough in the cold air. Plenty of cold water or an electric cooler must be used.

During winter months cows spend more and more time in the barn. The addition of drinking cups will help hold up production. Dairymen will do well to use plenty of phosphate on barn floors during the next few months. The use of phosphate will improve the manure and stretch bedding straw.

Clipping is always a good sanitary practice. Long hair on the udder, flanks and underline collect dirt and make udder preparation harder. Clipping saves lots of time when preparing udders for milking.

State Will Stock Farm Ponds In Future

Stock Will Be Furnished From Both State and U. S. Hatcheries.

The Division of Game and Fish has announced a cooperative agreement with the U. S. Fish and Wildlife Service whereby that agency will furnish all fingerling bream for pond and lake stocking in Kentucky. The Division will furnish, from its hatcheries, all bass for stocking these ponds and lakes except in an area of 10 to 15 counties in which bass from the U. S. Fishing Station at Louisville will be used. The Division points out that no matter which agency the farmer makes application with—the county agent, Soil Conservation Service, Fish and Wildlife Service in Washington or the Division itself—the Fisheries Department of the Division will transport the fish to a distribution point and determine that they are properly planted and cared for.

The Division declares that a ratio of 30 adult bream or 500 fingerling bream per acre will be used in the stocking process. In pointing out the use of 30 adult bream the Division declared that these 30 will spawn the first year when the water reaches a temperature of 68 degrees and that from each pair will be hatched as many as 15,000 young. Bream, it was emphasized, will most often spawn more than once each summer. On the other hand, the Division claimed, the 500 fingerlings will not spawn until the following summer. The use of more than 30 adult bream, it has been found, often will cause a pond to become overstocked in a short time.

Fingerling bream will be planted in the ponds in August, September, and October and the bass will be added in the following spring, the Division declared in pointing out the procedure, whereby if adult bream are used the bass will be overstocked immediately.

In order to give more attention to the stocked ponds, to see that they are being properly cared for, the Division in the future will require that the farmer to receive fish must meet the Division truck at the county courthouse and transport his quota to his pond. In this way stocking may be accomplished more quickly and the crew members will have more time to inspect and supervise the ponds after the fish have been added.

For the past two weeks the Division trucks have been delivering the 250,000 bream which were received in November from the U. S. Hatcheries. During the next two weeks the remaining 267 applications on hand not stocked with bream but which have been stocked with bass will receive adult bream.

Applications for the 1949 stocking program are now being sought and farmers who wish to avail themselves of this service are asked to contact their Conservation officer immediately so that the pond may be inspected to determine if it is suitable for stocking. Ponds stocked with fingerling bream during 1949 will have bass added the following spring.

The Division stated that stocking with both adult and fingerling bream and bass give excellent results when the pond is properly cared for. The Division points out, however, where 30 adult bream and 100 bass fry are used the pond tends to become overpopulated with bass and therefore in the future 75 bass fry will be used per acre in these cases. Those ponds stocked with 100 bass fry and 30 adult bream are now providing excellent fishing. The Division is urging, however, that such ponds be fished hard in order to remove surplus bass and thus offer more bream fishing.

Further, the Division explained, the only adult bream to be used next year will be those taken from ponds which are overstocked and are being renovated. Adult bream taken from these ponds will be placed in ponds in the immediate area, it was explained.

Merry Christmas!

Engineering Work For State Will Be Contracted

Frankfort, Ky., Dec. 11—Considerable engineering location work, a major step in highway building, is to be done under contract by private engineering firms in order to speed up preparations for next year's road building program, Highway Commissioner Garrett L. Withers said today.

Commissioner Withers said 12 different engineering concerns will be asked to consider projects and that any other eligible firms may submit proposals.

"A shortage of engineers within the department and a greatly expanded road program has necessitated the engaging of outside help," the Commissioner said. Previously, most of the location work has been done by department engineers, but the Department is not able under Kentucky's present salary limitations and the lack of a retirement plan such as is now provided by the majority of other State Highway Departments and by many firms in private industry, to secure and hold the services of sufficient men to handle our own necessary engineering work. This condition results in the State having to get a good deal of engineering work done by outside engineering firms which can pay their own engineers considerably more than the Department scale."

"Few people understand the many steps necessary before a road project may be completed," Commissioner Withers stated. "First, preliminary surveys must be made as a basis for cost estimates. Next come preliminary location work and acquisition of rights-of-way. Often property owners block the original location lines and new surveys become necessary. This work is the advance stage wherein field engineers play the most important role.

"With from one to three hundred projects under consideration, and the need for special engineering parties on each, the present engineering personnel of the department is unable to cover enough territory. In addition, the new rural program will require a greatly expanded location effort."

Almost 5,000 acres of wheat were seeded this fall in Monroe county, 70 percent of it being the Thorne variety.

Three Harrison county farmers have built dairy barns and six have installed milking machines.

Now Is Time To Study Farm Record Books

Now is the time to study your farm business for the past year to find both its strong points and weak points, according to Bill Davis, County Agent. Information about these strong and weak points should be helpful in planning your farm business for the coming year.

The value of a plan for operating your farm depends upon accurate information you have of your farm business. To improve your farm program you need to know:

1. How much farm income you had and from what enterprises.
2. How much total farm operating expenses you had and the improvement items making up those expenses.
3. Livestock production per animal.
4. Crop yields per acre.

Any change in your net worth.

The best and most accurate way to get the above information to guide you in making an improved farm plan is to keep a record of your farm business. If you want the Kentucky Farm Record books come to the County Agent's office for your copy.

Health Commissioner Warns Against Trichinella Spiralis

It's hog killin' time in the country. With the approach of cold weather farmers are getting ready to convert their pigs into succulent pork roasts and chops, delectable hams, and savory sausage. People in the cities are searching for country hams to add to the enjoyment of the coming holiday season.

In the midst of all this activity Dr. Bruce Underwood, State Health Commissioner, asks us to remember a very important thing—the danger of eating undercooked pork. The most tempting slice of fresh ham, (paring kills larvae) the most flavorsome sausage, can be the home of literally thousands of the parasitic known as the Trichinella spiralis. The larvae of these deadly little worms reside in the muscular tissues of hogs, and are transferred to the human stomach when insufficiently cooked meat is eaten. In a period of from one to two weeks the larvae which have been swallowed grow into mature worms and, in their turn, hatch out new larvae.

One dangerous factor of this disease is that the symptoms are so similar to those of so many other diseases that diagnosis is frequently difficult. Since there is little to be done, once an attack has started, but wait for the encystment of the worms, the things to be concentrated on is prevention.

It must not be assumed that all trichinois comes from home killed meat. This is by no means the case, and there is just as much danger in commercially slaughtered and packed pork. All pork should be slowly and well cooked before eaten. The color should be a pale grey throughout, with not a trace of pink remaining.

Once again, as the glow of the holiday season envelops the land, we extend our friendliest greetings and warmest wishes for a joyous Yuletide season.

TWO OPPOSED IDEAS

For most of us, our contacts with retailing are limited to a relatively small number of stores which we personally patronize. So we may lose sight of the fact that retailing is one of the mightiest economic forces in the country.

The statistics are extremely impressive. Retail trade provides employment for more than 8,000,000 people. Something like 70 per cent of the disposable income of America's consumers crosses its counters. This year, the volume of business done will reach the astronomical figure of $130,000,000,000.

But size alone doesn't tell the story. The fact that retailing is one of the most aggressively competitive of enterprises has been responsible for giving us more and better goods, at lower prices, than any other people enjoy. In countries where retailing is owned or controlled by the state, an opposite condition exists. For instance, the Soviet authorities recently approved the opening of some "free trade" stores in Russian-occupied Germany, where goods may be bought without ration coupons. Shoes sell for $54 to $72, stocking for $7 to $12, and so on down the line. The whole idea behind these stores is to get the last possible penny out of those who can afford to patronize them, in order to drain off excessive buying power. The idea behind American retailing is to give the most for the least money.

Retailing is the artery through which the products of farm and factory flow. It has made mass production workable, by providing an efficient mass distribution machine within easy reach of every family in the country. It is a mainstay of our whole complex economy.

George Henderson of Bullitt county estimates that he saved 400 pounds of tobacco by priming an acre-field two times.

P. N. Bays of Harlan county reported his everbearing strawberry patch provided berries for his family practically all season.

Boyle county farmers reached their goal of 1,000 acres of alfalfa seedings in their spring and fall plantings.

New dairy routes established in Carter county have caused 50 percent more farmers to improve their dairy programs.

Farmers in Leslie county sowed crimson clover in preference to rye as a cover crop because of greater ease in turning it with horse-drawn plows.

Homemakers in Jefferson county cleaned and reconditioned 86 sewing machines in one month.

Twenty Years From Now

Will they thank you for good strong feet?

Oh, you mother of a child—you want his manners to be nice, you want his brain to be quick, you want his hands to be agile—but don't you want his feet to be sturdy and true, well-shaped and graceful? Are those of your daughter.

You mother of a child, twenty years from now his feet will be walking up to get a diploma, or confidently marching in to get a job, maybe walking up to an old church altar to meet a bride in white. (Or it may be the bride herself.) Your child may never thank you for good strong feet, he'll take them as a matter of fact, but what will he think if they're not good strong feet? Sure he'll still love you—but "why didn't mother make sure I was growing up right?"

It is a responsibility, just one of the many a mother takes on when she brings a child into the world.—Adv.

Chester Stephens of Culver produced 167.3 bushels of corn on one acre, the highest yield in the history of Elliott county.
